Acampora, 2019-11-21 Most approaches to animal ethics ground the moral standing of nonhumans in some appeal to their capacities for intelligent autonomy or mental sentience Corporal Compassion emphasizes the phenomenal and somatic commonality of living beings a philosophy of body that seeks to displace any notion of anthropomorphic empathy in viewing the moral experiences of nonhuman living beings Ralph R. Acampora employs phenomenology hermeneutics existentialism and deconstruction to connect and contest analytic treatments of animal rights and liberation theory In doing so he focuses

on issues of being and value and posits a felt nexus of bodily being termed symphysis to devise an interspecies ethos Acampora uses this broad based bioethic to engage in dialogue with other strains of environmental ethics and ecophilosophy Corporal Compassion examines the practical applications of the somatic ethos in contexts such as laboratory experimentation and zoological exhibition and challenges practitioners to move past recent reforms and look to a future beyond exploitation or total noninterference a posthumanist culture that advocates caring in a participatory approach **Women in Movement (Routledge Revivals)** Sheila Rowbotham, 2013-10-14 First published in 1992 this book is an historical introduction to a wide range of women's movements from the late eighteenth century to the date of its publication It describes economic social and political ideas which have inspired women to organize not only in Europe and North America but also in the Third World Sheila Rowbotham outlines a long history of women's challenges to the gender bias in political and economical concepts She shows women laying claim to rights and citizenship while contesting male definitions of their scope and seeking to enlarge the meaning of economy through action around consumption and production environmental protests and welfare projects

Feminist Theory Today Judith Evans, 1995-06-28 This stimulating text presents a concise and accessible introduction to feminist theory today Covering all the major variants of feminist political thought it offers a unique examination of the archive of modern feminist theory from the publication of *The Feminine Mystique* in 1963 to current postmodernist and legal feminist texts It provides both an intellectual history and a political critique of contemporary feminism in the United States and in the United Kingdom Judith Evans focuses on the divergence within as well as between feminist schools and on protests from women marginalized by the movement including those who are lesbian and those who are black Feminist Theory Today contends that the early feminist demand for radical equality has gone contributing to its drastic undertheorization While brilliantly reconceptualizing this concept the author documents the changes in socialist feminism from its revolutionary origins to its current focus on modifying liberal democratic forms **The Owl's Flight** Stefania Achella, Francesca

Iannelli, Gabriella Baptist, Serena Feloj, Fiorinda Li Vigni, Claudia Melica, 2021-10-25 This book presents a unique rethinking of G W F Hegel's philosophy from unusual and controversial perspectives in order to liberate new energies from his philosophy The role Hegel ascribes to women in the shaping of society and family the reconstruction of his anthropological and psychological perspective his approach to human nature the relationship between mental illness and social disease the role of the unconscious and the relevance of intercultural and interreligious pathways All these themes reveal new and inspiring aspects of Hegel's thought for our time Virginia Woolf and Being-in-the-world Emma Simone, 2017-04-19 Breaking fresh ground in Woolfian scholarship this study presents a timely and compelling interpretation of Virginia Woolf's textual treatment of the relationship between self and world from the perspective of the philosophy of Martin Heidegger Drawing on Woolf's novels essays reviews letters diary entries short stories and memoirs the book explores the political and the ontological as the individual's connection to the world comes to be defined by an involvement and engagement that is always

already situated within a particular physical societal and historical context Emma Simone argues that at the heart of what it means to be an individual making his or her way in the world the perspectives of Woolf and Heidegger are founded upon certain shared concerns including the sustained critique of Cartesian dualism particularly the resultant binary oppositions of subject and object and self and Other the understanding that the individual is a temporal being an emphasis upon intersubjective relations insofar as Being in the world is defined by Being with Others and a consistent emphasis upon average everydayness as both determinative and representative of the individual's relationship to and with the world

The Meaning of Israel Åsmund Borgen Gjerde, 2025-08-01 Why did social democrats in the 1940s and 1950s idealise Zionism and Israel And why did the New Left of the 1960s denounce Israel as an apartheid state and a bridgehead of imperialism The Meaning of Israel Anti Zionism and Philo Zionism in the Postwar Left a case study of Norway offers new and intriguing answers to both questions Previous national case studies of left ideas about Israel have tended to explain with reference to national peculiarities of the country in question e.g. guilt over the Holocaust in the case of Germany This book by contrast considers its findings about Norway in the context of what we know from other national case studies and uses this approach to suggest explanations that may be valid across national boundaries The Meaning of Israel argues that left ideas about Zionism and Israel have been inextricably intertwined with ideas about civilisation Post war social democrats used ideas about Zionism and Israel to assuage their anxiety about the future of civilisation and to reaffirm the viability of this very concept The anti Zionism of the

New Left on the other hand grew out of a broader rejection of ideas of civilisation The book will appeal to academics and general readers interested in the history of the Left Israel and anti semitism

Finding Freedom Sara MacDonald, 2008-05-15 Combining a detailed study of Hegel's political philosophy with close readings of two important literary works that help clarify his thought MacDonald traces the historical development of an enduring link between personal lives and stable political communities While Sophocles Antigone highlights the tension in states that deny the interests of their citizens MacDonald shows that Shakespeare's A Midsummer Night's Dream offers an alternative image one that sees freedom for all as essential to an ethical family and state and is consistent with Hegel's thought in both the Phenomenology of Spirit and The Philosophy of Right

Animaladies Lori Gruen, Fiona Probyn-Rapsey, 2018-11-29 Do depictions of crazy cat ladies obscure more sinister structural violence against animals hoarded in factory farms Highlighting the frequent pathologization of animal lovers and animal rights activists this book examines how the madness of our relationships with animals intersects with the madness of taking animals seriously The essays collected in this volume argue that animaladies are expressive of political and psychological discontent and the characterization of animal advocacy as mad or crazy distracts attention from broader social unease regarding human exploitation of animal life While allusions to madness are both subtle and overt they are also very often gendered thought to be overly sentimental with an added sense that emotions are being directed at the wrong species Animaladies are obstacles for the political uptake of interest in animal issues as the intersections between this volume and established feminist scholarship show the fear of being labeled unreasonable or mad still has political currency

Educational Administration Judith Chapman, 2020-08-04 Both the theory and practice of educational administration have undergone major changes in recent years There is now more theoretical diversity in the field than at any other time with influences from traditional and post positivist science subjectivism ethics critical theory and cultural studies Similarly social political and economic factors have brought about new approaches to practice Schools administration in particular is increasingly being dominated by decentralization and pressures for accountability on curriculum and educational outcomes Educational Administration is the first Australian text to offer a comprehensive survey of theory context and practice It includes chapters from leading Australian scholars such as Richard Bates Hedley Beare Brian Caldwell Gabriele Lakomski
