**Economic Reform and Third-World Socialism** Peter Utting, 1992-06-24 Throughout the 1980s major changes in development policy took place in several Third World socialist countries This book examines why this shift from orthodoxy to reform occurred in Mozambique Vietnam and Nicaragua as well as in Cuba during the early 1980s It provides an in depth analysis of the changes which took place in economic and food policy and the nature of the crisis which prompted the reforms It focuses particularly on the role of social forces in shaping the reform process

**Ripe for Revolution** Jeremy Friedman, 2021-12-14 A historical account of ideology in the Global South as the postwar laboratory of socialism its legacy following the Cold War and the continuing influence of socialist ideas worldwide In the first decades after World War II many newly independent Asian and African countries and established Latin American states pursued a socialist development model Jeremy Friedman traces the socialist experiment over forty years through the experience of five countries Indonesia Chile Tanzania Angola and Iran These states sought paths to socialism without formal adherence to the Soviet bloc or the programs that Soviets East Germans Cubans Chinese and other outsiders tried to promote Instead they attempted to forge new models of socialist development through their own trial and error together with the help of existing socialist countries demonstrating the flexibility and adaptability of socialism All five countries would become Cold War battlegrounds and regional models as new policies in one shaped evolving conceptions of development in another Lessons from the collapse of democracy in Indonesia were later applied in Chile just as the challenge of political Islam in Indonesia informed the policies of the left in Iran Efforts to build agrarian economies in West Africa influenced Tanzania s approach to socialism which in turn influenced the trajectory of the Angolan model Ripe for Revolution shows socialism as more adaptable and pragmatic than often supposed When we view it through the prism of a Stalinist orthodoxy we miss its real effects and legacies both good and bad To understand how socialism succeeds and fails and to grasp its evolution and potential horizons we must do more than read manifestos We must attend to history

their status of truth and the conditions that make secular narration so central to our existence The book ranges from a medieval narrative of the secular to a modern narrative to anthropological secularism and religious experiences to narratives of translation produced by what the author calls translation ideology to historical narratives regulated by archival power and state secrecy to narratives of violence to narratives of recollection as well as narratives of silence Particular attention is paid to postcolonial French contemporary cultures and politics Transdisciplinary approaches are deployed to not only reframe old questions in new ways but also posit new questions out of old ones In doing so this innovative work opens up fresh discursive possibilities that cross traditional disciplines It will be of interest to scholars of anthropology history and beyond Tyrants
