Socialism Democracy And Self Management Political Essays:

Socialism, Democracy and Self-management Michel Pablo, 1980 *Socialism, democracy and self-management* Michel Pablo, 1980 *Trade Unions and Workplace Democracy in Africa* Gérard Kester, 2016-02-24 Can democracy only survive if it is participatory Is participatory democracy a prerequisite for sustainable development Are trade unions the most appropriate body through which such aims can be implemented These critical questions are tackled in Gérard Kester's book *Trade Unions and Workplace Democracy in Africa* which applies an unparalleled depth of research to these issues as they impact African nations including Cape Verde Burkina Faso Mali Guinea Ghana South Africa Zambia Tanzania and Zimbabwe Rigorously structured it sets the background of the research and the underlying theory before presenting the learning experiences within different countries and the broad implications of the research findings for policy making on democratic participation

Self-management and the Crisis of Socialism Michael Wayne Howard, 2000 While some conclude from the revolutions of 1989 that socialism is dead interest in socialism continues because of persisting problems of contemporary capitalism In this exciting text Michael W Howard offers critiques of liberal communitarian postmodern and some Marxist perspectives in order to develop a left liberal defense of a model of self managed market socialism that includes a basic income for all Specific applications of his view include analyses of its implications for the global marketplace the changing nature of workplaces and media restructuring and ownership This work is sure to be of interest to social scientists public policy makers and economists as well as to feminists ecologists and others concerned with how market socialism is relevant to their social issues

Labyrinth: An Essay on the Political Psychology of Change R.E. Wilson, 2016-07-22 To receive tenure college and university professors have long been required to write scholarly monographs or articles engage in serious research and teach effectively This collection of articles marks the first effort to evaluate the place of digital scholarship in this process

Carole Pateman Terrell Carver, Samuel Chambers, 2013-03 Carole Pateman's writings have been innovative precisely for their qualities of engagement pursued at the height of intellectual rigour This book draws from her vast output of articles chapters books and speeches to provide a thematic yet integrated account of her innovations in political theory and contributions to the politics of policy making The editors have focused on work in three key areas Democracy Pateman's perspective is rooted in a practical perspective enquiring into and speculating about forms of participation over and above the traditional exclusions through which representative systems have been variously constructed over time Her work pushes hard on theorists and politicians who make easy assumptions about apathy and public opinion who bracket off the workplace and the home and who see politics only in partisan activity voter behaviour and governmental policy Women Pateman's innovative and still cited work on participation antedates the feminist revolution in political theory and many of the practical struggles that developed through the later 1970s While woman centred her concerns were always worked through larger conceptions of social class economic advantage power differentials liberal individualism and contracts including marriage

Her feminism was innovative in political theory and within feminism itself As a feminist Pateman defies categorization and her concepts of the sexual contract and Wollstonecraft's dilemma are canonical Welfare Pateman's innovation here is an integration of welfare issues in particular the proposals for a basic income or for a capital stake into her broad but always rigorous conception of democracy This is argued through in terms of citizenship taken as the result of a social contract In that way Pateman puts liberalism itself through an imminent critique drawing in the practicalities and risks of life in late capitalist societies Her theory as always is political taking in neo liberal attacks on welfare states and the stark realities of international inequalities Pateman's career achievements in democratic and feminist theory are brought productively to bear on debates that would otherwise occur in more limited and less provocative academic and political contexts **Gramsci's**

Democratic Theory Sue Golding, Susan R. Golding, 1992-01-01 An in depth study of Antonio Gramsci's prison notebooks Quaderni del carcere and his specific contributions to radical democratic theory The book encompasses English Italian and French debates on the subject as well as political and philosophical discussions concerning the limitations of liberal and socialist democratic theory **Socialism and Commodity Production: Essay in Marx Revival** Paresh

Chattopadhyay, 2018-08-07 Socialism is a word that is now habitually taken to refer to a particular social system that prevailed in different parts of the globe during the twentieth century This system was defined primarily by single party rule with public mainly state ownership of the means of production along with a centrally planned economy Its material base was generalised commodity production The spokespersons of this system claim that this socialism was derived from Marx Paresh Chattopadhyay's Socialism and Commodity Production argues the falsity of this claim On the basis of a comprehensive study of Marx's own texts as well as a detailed engagement with a wide variety of theorists of socialist economics it shows that Marx's socialism constituted an Association of free individuals in which private ownership the commodity wage labour and the state have no place **Yugoslav Black Wave** Greg Cuir, 2025-10-01 Yugoslav Black Wave was originally published in

2011 by Film Center Serbia At that time it was the first comprehensive study of the Black Wave to appear in English and is still one of the rare monographs anywhere dedicated to the subject The Yugoslav Black Wave represented a new generation in Socialist Yugoslav cinema in the 1960s and early 1970s Their films were characterized by a critical spirit and an unconventional approach to form in relation to classical Yugoslav cinema which generally served to galvanize the war torn young nation and to advance the Communist party agenda The author ultimately argues that this phenomenon is maybe the last new wave in postwar European cinema that is still in need of sustained critical attention and wider acknowledgement This book is a revised and expanded second edition that makes a modest endeavor towards that goal **Politics and Left**

Politics R. G. Williams, 2025-04-17 This book is a study of the Left and its politics Through a series of connected essays it tries to outline the specific ideas which make up the politics of the modern Left the politics of Socialism Humanism and Emancipation The book is also an unapologetically political study It argues for the Left for a better Left for a Left that can

change the world **The No-nonsense Guide to Democracy** Richard Swift,2010 Explores how democracy has been constricted and deformed by economic power brokers and a self serving political class from Birmingham to Bangalore Swift considers the different tools people in power have used to manipulate democratic principles such as freedom to their advantage Includes chapter length discussions of topics such as the economic meltdown Barack Obama eco democracy democratising the economy and democracy in the global south It is also a guide to the rich diversity of forms of elected government full of practical advice for voters **Democracy and Possessive Individualism** Joseph H. Carens,1993-09-14 C B Macpherson was one of the leading political theorists in North America and perhaps the most influential voice on the left for a view of liberal democracy that was simultaneously sympathetic to its aspirations and critical of its achievements His work provides the contributors to this volume with a common starting point from which to reflect upon the possibilities for critical perspectives on liberal democracy in light of the demise of its Marxist rival The volume as a whole addresses the following questions What if anything remains valid in previous left critiques of liberal democracy including Marxist critiques And what new critical and constructive alternatives can the left offer to challenge the status quo The contributors to this volume from both the Anglo American and Continental traditions include Joseph Carens William Connolly Virginia Held John Keane Ernesto Laclau William Leiss Jane Mansbridge Louise Marcil Lacoste Mihailo Markovic Chantal Mouffe Nancy Rosenblum and James Tully **Why Economists Disagree** David L. Prychitko,1998-01-01 Provides a convenient introduction to heterodox alternatives to neoclassical economics Carl Schmitt William E. Scheuerman,1999 This is the first full length study in English of twentieth century Germany s most influential authoritarian right wing political theorist Carl Schmitt that focuses on the central place of his attack on the liberal rule of law This is also the first book in any language to devote substantial attention to Schmitt s subterranean influence on some of the most important voices in political thought Joseph Schumpeter Friedrich A Hayek and Hans Morgenthau in the United States after 1945 Visit our website for sample chapters **Is Socialism Feasible?** Geoffrey M. Hodgson,2019 After being proclaimed dead there is now a major revival of socialism ideology in the West But what does socialism mean This book shows that it is irretrievably associated with common ownership The twentieth century experience of comprehensive national planning with state ownership has been disastrous and in no case has democracy endured within large scale socialism This volume explains why The alternative socialist option of worker owned cooperatives must accept a major role for markets that many socialists reject Further experiments in that direction must be subordinate to higher principles of liberal solidarity involving a mixed market economy with a welfare state **The Blackwell Dictionary of Modern Social Thought** William Outhwaite,2008-04-15 Modern social thought ranges widely from the social sciences to philosophy political theories and doctrines cultural ideas and movements and the influence of the natural sciences Provides an authoritative overview of the main themes of social thought Long essays and entries give full coverage to each topic Covers major currents of thought

philosophical and cultural trends and the individual social sciences from anthropology to welfare economics New edition updates about 200 entries and includes new entries suggestions for further reading and a bibliography of all sources cited within the text *Whitaker's Cumulative Book List* ,1980 **Institutional Epistemology and Extreme Inequality**

Marko-Luka Zubcic,2024-12-16 Institutional Epistemology and Extreme Inequality Knowledge and Governance in a Non ideal World provides an account of the fundamental design of an institutional system that can reliably solve problems learn and attain knowledge Reconciling non ideal system oriented epistemic democracy and liberalism Marko Luka Zubcic develops a unified theory of institutional epistemology From Deweyan experimentalism and Hayekian epistemic institutionalism to open democracy and pluralist liberalism of New Diversity Theory Zubcic integrates insights from pragmatism studies of division of cognitive labor and collective search under complexity governance studies and critical social epistemology Institutional Epistemology and Extreme Inequality also provides a new decisive epistemological argument that protection against extreme economic inequalities is a condition of epistemic reliability of an institutional system Thus Zubcic shows that along with constitutional liberties self governance open markets and polycentricity freedom from poverty and limits on private wealth are the institutional devices we collectively and individually need to reliably solve difficult problems and attain knowledge
