The greatest tragedy of Capitalism is the suffering of its living victims

CAPITALISM — THE SICK SOCIETY

“ I WANT to be left alone: I want to dream my dreams, to believe as I once believed that life is good and beautiful and that men can live with one another in peace and plenty. No son of a bitch on earth can tell me that to make life better you have to kill a million or ten million men in cold blood.”

societal implications His Jewish immigrant background coupled with his experiences in progressive educational movements informed his perspectives on the need for educational environments that encourage autonomy and mature decision making His academic work and activism laid the groundwork for understanding education as a transformative experience one that could either advance societal progress or conversely hinder personal growth Readers seeking to challenge conventional notions of higher education will find Kallen s arguments both enlightening and provocative This book serves as an essential reflection for educators policymakers and students alike prompting a reevaluation of the college experience s true impact on individual development and societal advancement *Congressional Record* United States.
