Shot Peening Lothar Wagner, 2006-05-12 Shot peening has been proved to be a powerful instrument in enhancing the resistance of materials to various kinds of stress induced damage particularly against damage due to cyclic loading fatigue in air or in aggressive environments. As shot peening can be used for a wide variety of structural components irrespective of shape and dimensions the number of shot peening applications in many industrial branches is increasing. The use of peen forming as a technique to form large metal parts into complicated shapes is also increasing particularly in the aerospace industry. The Conference covers all aspects of the Science Technology and Application of Shot Peening and was intended to attract users manufacturers as well as scientists working in the field of Materials Treatment by Shot Peening. Emphasis was put on the current state of knowledge and research. This book offers scientists and engineers an unique opportunity to update their knowledge on shot peening.
