Hornberger, 2011-07-22 No detailed description available for Bilingual Education and Language Maintenance **Itinerant Ideas** Joanna Crow, 2022-09-10 This book explores how ideas about race travelled across national borders in early twentieth century Latin America It builds on a vast array of scholarly works which underscore the highly contingent and flexible nature of race and racism in the region The framework of the nation state dominates much of this scholarship in part because of the important implications of ideas about race for state policies This book argues that we need to investigate the cross border elaboration of ideas that informed and fed into these policies It is organized around three key policy areas labour cultural heritage and education and focuses on conversations between Chilean and Peruvian intellectuals about the indigenous question Most historical scholarship on Chile and Peru draws attention to the wars fought in the nineteenth century and their long term consequences which reverberate to this day Relations between the two countries are therefore interpreted almost exclusively as antagonistic and hostile Itinerant Ideas challenges this dominant historical narrative **Peruvian**

**Nationalism** David Chaplin, 1976-01-01 Peru is the most interesting model of justice and development in Latin America today To analyze the sociopolitical progress of this nation David Chaplin has gathered together and edited this interdisciplinary collection of essays Peru's development is unique for several reasons First it has shown that a military force that was trained largely by the United States can employ its professional expertise not to remain a well behaved ally but to pull off a genuinely radical nationalist revolution even at the expense of various interests of its benefactor Second Peru has proven that successful economic development need be neither capitalist nor Socialist Peruvian Nationalism contains major papers by leading Peruvianists on the 1960s and on the current revolutionary military regime The temporal focus is on the current post 1968 revolutionary military government with background material covering the early 1960s Contributors are all social scientists including American Italian and Peruvian writers who have carried out field research in Peru The primary focus of this volume is the radical change being carried out by the current military structure Relevant background topics include Peru's sociopolitical structure during the 1960s especially under the Belaunde regime with particular attention to peasant movements and agrarian reform a reassessment of the pre 1968 golpe coup de etat behavior of former military governments an analysis of the uniquely radical ideology and concrete reforms of the current military government This social science

**Non-Formal Education** Alan Rogers,2007-03-06 The Comparative Education Research Centre CERC at the University of Hong Kong is proud and privileged to present this book in its series CERC Studies in Comparative Education Alan Rogers is a distinguished figure in the field of non formal education and brings to this volume more than three decades of experience The book is a masterly account which will be seen as a milestone in the literature It is based on the one hand on an exhaustive review of the literature and on the other hand on extensive practical experience in all parts of the world It is a truly comparative work which fits admirably into the series Much of the thrust of Rogers work is an analysis not only of the significance of non formal education but also of the reasons for changing fashions in the development community Confronting a major question at the outset Rogers ask why the terminology of non formal education which was so much in vogue in the 1970s and 1980s practically disappeared from the mainstream discourse in the 1990s and initial years of the present century Much of the book is therefore about paradigms in the domain of development studies and about the ways that fashions may gloss over substance
