*Law and Society in Transition* Philippe Nonet, Philip Selznick, Robert A. Kagan, 2017-07-12 Year by year law seems to penetrate ever larger realms of social political and economic life generating both praise and blame Nonet and Selznick's *Law and Society in Transition* explains in accessible language the primary forms of law as a social political and normative phenomenon They illustrate with great clarity the fundamental difference between repressive law riddled with raw conflict and the accommodation of special interests and responsive law the reasoned effort to realize an ideal of polity To make jurisprudence relevant legal political and social theory must be reintegrated As a step in this direction Nonet and Selznick attempt to recast jurisprudential issues in a social science perspective They construct a valuable framework for analyzing and assessing the worth of alternative modes of legal ordering The volume's most enduring contribution is the authors' typology: repressive, autonomous and responsive law This typology of law is original and especially useful because it incorporates both political and jurisprudential aspects of law and speaks directly to contemporary struggles over the proper place of law in democratic governance In his new introduction Robert A. Kagan recasts this classic text for the contemporary world He sees a world of responsive law in which legal institutions courts regulatory agencies alternative dispute resolution bodies police departments are periodically studied and redesigned to improve their ability to fulfill public expectations Schools business corporations and governmental bureaucracies are more fully pervaded by legal values *Law and Society in Transition* describes ways in which law changes and develops It is an inspiring vision of a politically responsive form of governance of special interest to those in sociology law philosophy and politics

whether to engage civil society in contexts of conflict but rather how governmental actors can partner with civil society to induce conflict resolution and conflict transformation The collection of essays in this volume attempts to explore this nexus between civil society and peace building especially in the context of intra state and identity driven conflicts across different regions by focusing on case studies from Asia Africa Latin America and Europe Education and Society in the New Russia Anthony Jones,1994 This survey of the changes in education and socialization in the former USSR examines the institutions that are shaping the first post Soviet generation Chapters provide reports on such questions as diversification and the development of independent schools curriculum reform and democratization **Gender, Politics, and Society in Ukraine** Olena Hankivsky,Anastasiya Salnykova,2012-01-01 Gender Politics and Society in Ukraine is the first collection to examine how political social and economic transitions in post Communist Ukraine are transforming gender roles and relations within the country Leading Western and Ukrainian scholars and practitioners address a wide range of effects associated with and reinforced by these transitions including the breakdown of the general welfare system the lack of progress in the development of the healthcare system gender inequality in political representation the patriarchal nature of nation building human trafficking domestic violence changing conceptions of fatherhood and masculinity homelessness and LGBT issues from a variety of methodological and disciplinary perspectives Gender Politics and Society in Ukraine is particularly innovative in its exploration of both women s and men s experiences and the ways in which gender relations shift over time in societies undergoing transitions to democracy As such this volume furthers the understanding of the complex obstacles and challenges of working towards gender equality in evolving democracies and identifies future priorities for research politics and policy development *Education for Critical Consciousness* Paulo Freire,2013-04-25 Famous for his advocacy of critical pedagogy Paulo Freire was Latin America s foremost educationalist a thinker and writer whose work and ideas continue to exert enormous influence in education throughout the world today Education for Critical Consciousness is the main statement of Freire s revolutionary method of education It takes the life situation of the learner as its starting point and the raising of consciousness and the overcoming of obstacles as its goals For Freire man s striving for his own humanity requires the changing of structures which dehumanize both the oppressor and the oppressed **Red Flags** David Camfield,2025-04-24T00:00:00Z Increasingly people are responding to the contemporary crises underwritten by capitalism by exploring the politics of communism Some have taken a sympathetic even nostalgic view of actually existing socialist AES societies past and present including the USSR China and Cuba and the Marxist Leninist political tradition associated with them They see these states as a powerful alternative to capitalism governed by parties genuinely committed to socialism and staunchly resisting Western imperialism But were these societies really in transition towards a classless stateless society of freedom the original communist goal Is Marxism Leninism the political approach that should orient people on the left now Red Flags traces the path from the 1917 Russian Revolution to the construction of the world s first AES society the USSR It

also looks at the post revolution societies created along the same lines in China and Cuba Using the intellectual tools of historical materialism Red Flags argues that they were not in fact moving towards communism because the social relations remained fixed in class exploitation The workers were never liberated At a time of burgeoning anti communism from both conservatives and liberals this book is an accessible vibrant synthesis of the history of communism that draws on the latest research to develop a rigorous analysis of the contradictions and uneasy truths the left needs to confront if it is to build a genuinely liberatory alternative to capitalism

**Politics And Society In Ukraine** Paul D'anieri,2018-02-23 With NATO expanding into central Europe Ukraine has become a pivotal state for the future of European stability yet it is a country about which little is known in the west Politics and Society in Ukraine fills that gap providing the first comprehensive and detailed study of the contemporary Ukrainian political system Beginning with a discussion of the legacy of the Soviet Union the authors illuminate Ukraines regional and ethnic tensions governmental system efforts at reform and foreign policy They consider all of those issues from a comparative perspective that readers unfamiliar with Ukraine will find illuminating The authors are three of the leading authorities on Ukrainian politics and each has extensive experience in the country This book provides much needed analysis of a crucial country With the expansion of NATO Ukraine is frequently described as the linchpin of security in Central Europe And after Russia it is the largest and most important of the post Soviet states Yet it is a country about which most westerners know very little subsumed as it was for decades beneath the Russian Empire and the Soviet Union Ukrainian Politics and Society is the first comprehensive study of politics in post Soviet Ukraine and is therefore vital reading for anyone concerned with European security or with politics in the former Soviet Union The authors extensive experience in Ukraine allows them to explain the paradoxes of Ukrainian politics that have led to so many false predictions concerning the future of the Ukrainian state Their examination of nationality politics shows why ethnic and regional differences have tended to recede rather than to spin out of control as they have elsewhere in the region At the same time these differences hamstringing the countrys political system and the authors show how difficult a task it is for democratic institutions to provide effective government in a country with little consensus By viewing economic reform in its profoundly political context the authors expose the chasm between the theory and practice of economic reform Understanding of how to make profits has not been lacking but government regulation to ensure that profit seeking behavior leads to functioning markets has been conspicuously absent By examining in detail how Ukrainian politics has followed theoretical expectations and where it has contradicted them the authors arrive at conclusions with implications well beyond Ukraine Ukraine must first build a state and a nation before it can successfully reform its economy or build a genuine democracy For Ukraine and its people the task is daunting For the west whose security increasingly relies on stability in Ukraine this book provides the knowledge necessary to approach the problem as well as good reason not to ignore it

**Recent Social Trends in Bulgaria, 1960-1995** Nikolai Genov,Anna Krasteva,2001-01-01 The introduction by Nikolai Genov looks at the challenges

posed by two transformations the experiment with communism which ended in failure and the current transition to a market economy and pluralist politics Genov concludes that the major reason for Bulgaria's critical situation is the powerlessness of its state institutions Considering life style fertility leisure and consumption inequality religion economic institutions ethnicity norms of conduct and family as well as other trends Recent Social Trends in Bulgaria 1960B1995 is the first comprehensive presentation of the major transformations that characterize Bulgaria at the turn of the century The contributors not only consider a broad range of social phenomena but provide an in depth analysis of social change This national profile provides more data supporting the hypothesis of diversification rather than convergence in modern societies a hypothesis proposed by the Comparative Charting of Social Change group after documenting social change in many countries
