The Tender Cut Patricia A. Adler, Peter Adler, 2011-08-22 Cutting burning branding and bone breaking are all types of self injury of the deliberate non suicidal destruction of one s own body tissue a practice that emerged from obscurity in the 1990s and spread dramatically as a typical behavior among adolescents Long considered a suicidal gesture The Tender Cut argues instead that self injury is often a coping mechanism a form of teenage angst and expression of group membership and a type of rebellion converting unbearable emotional pain into manageable physical pain An important portrait of a troubling behavior The Tender Cut illuminates the meaning of self injury in the 21st century its effects on current and former users and its future as a practice for self discovery or a cry for help P 4 of cover Wheeling and Dealing Patricia A. Adler, 1993 Wheeling and Dealing is a vivid account of the world inhabited by wholesale illicit drug traffickers Based on six years of participant observation fieldwork and extensive interviews in an elite Southern California community of dealers the book gives a rare glimpse into the decadent yet fascinating subculture of drug trafficking and unending partying mixed with occasional cloak and dagger subterfuge This second edition brings the story up to date by revealing the fate of several of Adler s key informants By tracing their lives over a fifteen year span Adler offers a unique longitudinal perspective on deviant careers and the reintegration of dealers into conventional society She also analyzes the unintended consequences of the

federal government s war on drugs tying it to the increasing violence and organizational sophistication of drug traffickers and the rise of international cartels **Family Trouble** Ara Francis, 2015-09-18 Our children mean the world to us They are so central to our hopes and dreams that we will do almost anything to keep them healthy happy and safe What happens then when a child has serious problems In Family Trouble a compelling portrait of upheaval in family life sociologist Ara Francis tells the stories of middle class men and women whose children face significant medical psychological and social challenges Francis interviewed the mothers and fathers of children with such problems as depression bi polar disorder autism learning disabilities drug addiction alcoholism fetal alcohol syndrome and cerebral palsy Children's problems she finds profoundly upset the foundations of parents everyday lives overturning taken for granted expectations daily routines and personal relationships Indeed these problems initiated a chain of disruption that moved through parents lives in domino like fashion culminating in a crisis characterized by uncertainty loneliness guilt grief and anxiety Francis looks at how mothers and fathers often differ in their interpretation of a child's condition discusses the gendered nature of child rearing and describes how parents struggle to find effective treatments and to successfully navigate medical and educational bureaucracies But above all Family Trouble examines how children's problems disrupt middle class dreams of the normal family It captures how children's problems radiate and spill over into other areas of parents lives wreaking havoc even on their identities leading them to reevaluate deeply held assumptions about their own sense of self and what it means to achieve the good life Engagingly written Family Trouble offers insight to professionals and solace to parents The book offers a clear message to anyone in the throes of family trouble you are in good company and you are not as different as you might feel Philosophy of Communication Mats Bergman, 2009-06-25 Charles S Peirce the founder of pragmatism was also the architect of a remarkable theory of signs that continues to puzzle and inspire philosophers today In this important new book Mats Bergman articulates a bold new approach to Peirce's semeiotic through a reassessment of the role of rhetoric in his work This systematic approach which is offered as an alternative to formalistic accounts of Peirce's project shows how general sign theoretical conceptions can plausibly be interpreted as abstractions from everyday communicative experiences and practices Building on this fallible ground of rhetoric in use Bergman explicates Peirce's semeiotic in a way that is conducive to the development of rhetorical inquiry and philosophical criticism Following this path the underpinnings of a uniquely Peircean philosophy of communication is unearthed a pragmatic conception encased in a normative rhetoric motivated by the continual need to transform and improve our habits of action Paradise Laborers Patricia A. Adler, Peter Adler, 2018-08-06 Resorts have become important to American society and its economy one in eight Americans is now employed by the tourism industry Yet despite the ubiquity of hotels little has been written about those who labor there Drawing on eight years of participant observation and in depth interviews the renowned ethnographers Patricia A Adler and Peter Adler reveal the occupational culture and lifestyles of workers at five luxury Hawaiian resorts These resorts employ a workforce that is

diverse in gender class ethnicity and nationality Hawaiian resort workers like those in nearly all resorts consist of four groups New immigrants hold difficult and dirty low status jobs for little pay Locals provide an authentic Polynesian flavor for guests a ready pool of youthful high turnover employees and a population trapped in a place that offers few occupational alternatives Managers tend to be middle class college educated young and middle aged men from the mainland whose lifestyles are occupationally transient Seekers mostly young white and from the mainland as well escape to paradise seeking adventure warmth extreme sports or some alternate life experiences The Adlers describe the work lives and careers of these four groups that labor in organizations that never close with shifts scheduled around the clock and around the year Paradise Laborers adds to the growing interest in the global flow of labor as these immigrant workers display different trends in gendered opportunities and mobility than those exhibited by other groups The authors propose a political economy of tourist labor in which they compare the different expectations and rewards of organizations employees and local labor markets

Couto, 1996-10-30 The best way to teach democracy has been the subject of an ongoing debate for 2 500 years Unlike most books about teaching democracy this one spends more time on how to teach democracy than the what and why of teaching democracy It punctures the irony of teaching democracy by lectures and superior teachers In its place this book provides a variety of illustrations for the teaching of democracy in an experiential and egalitarian fashion The introduction presents a theoretical and analytical framework of democracy and democratic pedagogy The six chapters cover topics such as structuring a democratic classroom democratic practices that empower students problem solving and community service that make the classroom a laboratory for democracy and university based programs of democratic alternatives that serve the community The volume s treatment of community organization students as collaborators personal empowerment the community of need and response and the democratic organization expresses its preference for direct democratic participation **Backboards & Blackboards** Patricia A. harassment Not surprisingly the nation was divided on the Senate hearings on the matter some believed Hill others Thomas Perhaps the most important result of the hearings was to open the eyes of a majority of the public to the issue of sexual harassment and to begin a dialog on the issue This work first defines sexual harassment including operational sociological and legal definitions and then provides a history of the issue in the United States and a theoretical framework of why harassment occurs This is followed by a look at the legal dimension of the problem with a discussion of pertinent federal and state laws and Equal Employment Opportunity Commission EEOC decisions The incidence and settings e g workplace housing religious institutions are next examined followed by chapters on sexual harassment in the government the military and in education The book concludes with discussions of strategies for the victims and for employers
