

August Comte(1798-1857)

- He was considered the founder of sociology. He had once been personal secretary to Saint-Simon. Comte coined the term sociology. Previously, he had called the discipline “positive philosophy” (social physics), both to stress its scientific nature and to distinguish it from traditional philosophy. The aim of sociology, as he saw it, was to find the “invariable laws” of sociology upon which a new order could be based.
