This volume utilises the personal papers of Sir Ronald Storrs as well as other archival materials to make a microhistorical investigation of his period as Governor of Jerusalem between 1917 and 1926 It builds upon Edward Said's work on the Orientalist determining imprint by arguing that Storrs took a deeply personal approach to governing the city one determined by his upbringing his education in the English private school system and his service as a British official in Colonial Egypt It recognises the influence of these experiences on Storrs' perceptions of and attitudes towards Jerusalem identifying how these formative years manifested themselves on the city and in the Governor's interactions with Jerusalemites of all backgrounds and religious beliefs It also highlights the restrictions placed on Storrs' approach by his British superiors Palestinians and the Zionist movement alongside the limitations imposed by his own attitudes and worldview Placing Storrs' personality at the centre of discussion on early Mandate Jerusalem exposes a nuanced and complex picture of how personality and politics collided to influence its everyday life and built environment The book is aimed at historians and students of the late Ottoman Empire and British Mandate in Palestine colonialism and imperialism and microhistory **Cultural Encounters in Translation from Arabic**

Said Faiq, 2004 Translation is intercultural communication in its purest form Its power in forming and or deforming cultural identities has only recently been acknowledged given the attention it deserves The chapters in this unique volume assess translation from Arabic into other languages from different perspectives the politics economics ethics and poetics of translating from Arabic a language often neglected in western mainstream translation studies Understanding Life in the Borderlands

I. William Zartman, 2010 The past two decades have seen an intense interdisciplinary interest in the border areas between states inhabited territories located on the margins of a power center or between power centers This timely and highly original collection of essays edited by noted scholar I William Zartman is an attempt to begin to understand both these areas and the interactions that occur within and across them that is to understand how borders affect the groups living

along them and the nature of the land and people abutting on and divided by boundaries These essays highlight three defining features of border areas borderlanders constitute an experiential and culturally identifiable unit borderlands are characterized by constant movement in time space and activity and in their mobility borderlands always prepare for the next move at the same time that they respond to the last one The ten case studies presented range over four millennia and provide windows for observing the dynamics of life in borderlands They also have policy relevance especially in creating an awareness of borderlands as dynamic social spheres and of the need to anticipate the changes that given policies will engender changes that will in turn require their own solutions Contrary to what one would expect in this age of globalization says Zartman borderlands maintain their own dynamics and identities and indeed spread beyond the fringes of the border and reach deep into the hinterland itself

Reading Palestine Ami Ayalon,2010-01-01 Prior to the twentieth century Arab society in Palestine was predominantly illiterate with most social and political activities conducted through oral communication There were no printing presses no book or periodical production and no written signs in public places But a groundswell of change rapidly raised the region s literacy rates a fascinating transformation explored for the first time in Reading Palestine Addressing an exciting aspect of Middle Eastern history as well as the power of the printed word itself Reading Palestine describes how this hurried process intensified the role of literacy in every sphere of community life Ami Ayalon examines Palestine s development of a modern educational system in conjunction with the emergence of a print industry libraries and reading clubs and the impact of print media on urban and rural populations Drawn from extensive archival sources official reports autobiographies and a rich trove of early Palestinian journalism Reading Palestine provides crucial insight into the dynamic rise of literacy that revolutionized the way Palestinians navigated turbulent political waters

Laughter in Occupied Palestine Chrisoula Lionis,2016-02-24 Though the current political situation in Palestine is more serious than ever contemporary Palestinian art and film is becoming paradoxically increasingly funny In Laughter in Occupied Palestine Chrisoula Lionis analyses both the impetus behind this shift toward laughter and its consequences arguing that laughter comes as a response to political uncertainty and the decline in nationalist hope Revealing the crucial role of laughter in responding to the failure of the peace process and ongoing occupation she unearths the potential of humour to facilitate understanding and empathy in a time of division This is the first book to provide a combined overview of Palestinian art and film showing the ways in which both art forms have developed in response to critical moments in Palestinian history over the last century These key moments Lionis argues have radically transformed contemporary Palestinian collective identity and in turn Palestinian cultural output Mapping these critical junctions beginning with the Balfour Declaration of 1917 to the Oslo Accords in 1993 she explores the historical trajectory of Palestinian art and film and explains how to the failure of the peace process has led to the present proliferation of humour in Palestinian visual culture

The Folktales of Palestine Farah Aboubakr, 2019-03-21 Folktales are instrumental in ensuring the survival of oral traditions and strengthening communal bonds Both the stories and the process of storytelling itself help to define social cultural and political identity For Palestinians the threat of losing their heritage has engendered a sense of urgency among storytellers and Palestinian folklorists Yet there has been remarkably little academic scholarship dedicated to the tradition Farah Aboubakr here analyses a selection of folktales edited compiled and translated by Ibrahim Muhawi and Sharif Kanaana in *Speak Bird Speak Again* 1989 In addition to the folktales themselves Muhawi and Kanaana's collection is renowned for providing readers with extensive folkloric historical and anthropological annotations Here for the first time the folktales and the compilers work on them are the subject of scholarly analysis Synthesising various disciplines including memory studies gender studies and social movement studies Aboubakr uses the collection to understand the politics of storytelling and its impact on Palestinian identity In particular the book draws attention to the female storytellers who play an essential role in transmitting and preserving collective memory and culture The book is an important step towards analysing a significant genre of Palestinian literature and will be relevant to scholars of Palestinian politics and popular culture gender studies and memory studies and those interested in folklore and oral literature

Recontextualizing Resistance Emily Golson, 2018-01-23 Resistance is a concept that rose to the forefront of several areas of study when Max Weber made careful distinctions between authority force violence domination and legitimation It gained strong attention when the well known Palestinian journalist activist

fiction writer and critic Ghassan Kanafani 1936 1972 published a study entitled the Literature of Resistance in Occupied Palestine 1948 1966 a work that contributed to postcolonial theories of power race ethnicity and gender and second generation theories of orientalism feminism and disability Initially identified by philosophers historians and social critics as a focal point for situations in which oppressors brutally destroy the identity or subjectivity of the oppressed resistance has been transformed by fiction writers filmmakers lyricists and speechmakers into a process in which responses and counter responses to some type of injustice create difficult situations with complicated nuances These works now form the foundation for what has come to be recognized as resistance art This book gathers the insight knowledge and wisdom found in different manifestations of this art to further our understanding of the impact of resistance on contemporary life Memory for Forgetfulness Mahmoud Darwish, 1995-03-20 One of the Arab world's greatest living poets uses the 1982 Israeli invasion of Lebanon and the shelling of Beirut as the setting for this sequence of prose poems Mahmoud Darwish vividly recreates the sights and sounds of a city under terrible siege As fighter jets scream overhead he explores the war ravaged streets of Beirut on August 6th Hiroshima Day Memory for Forgetfulness is an extended reflection on the invasion and its political and historical dimensions It is also a journey into personal and collective memory What is the meaning of exile What is the role of the writer in time of war What is the relationship of writing memory to history forgetfulness In raising these questions Darwish implicitly connects writing homeland meaning and resistance in an ironic condensed work that combines wit with rage Ibrahim Muhawi's translation beautifully renders Darwish's testament to the heroism of a people under siege and to Palestinian creativity and continuity *No Place for Grief* Lotte Buch Segal, 2016-06-10 Westerners know Palestine through images of war and people in immediate distress Yet this focus has as its consequence that other less spectacular stories of daily distress are rarely told Those seldom noticed are the women behind the men who engage in armed resistance against the military occupation wives of the Palestinian prisoners in Israeli detention and the widows of the martyrs In Palestine being related to a detainee serving a sentence for participation in the resistance activities against Israel is a source of pride Consequently the wives of detainees are expected to sustain these relationships through steadfast endurance no matter the effects upon the marriage or family Often people media and academic studies address the dramatic violence and direct affliction of the Palestinians Lotte Buch Segal takes a different approach and offers a glimpse of the lives and the contradictory emotions of the families of both detainees and martyrs through an in depth ethnographic investigation *No Place for Grief* asks us to think about what it means to grieve when that which is grieved does not lend itself to a language of loss and mourning What does it mean to endure when ordinary life is engulfed by the emotional labor required to withstand the pressures placed on Palestinian families by sustained imprisonment and bereavement Despite an elaborate repertoire of narrative styles laments poetry and performance of bodily gestures through which mourning can be articulated including the mourning tied to a political cause Buch Segal contends that these forms of expression are inadequate to the sorrow endured
