Speaker In Dreams:

The Speaker's Complete Program Charles Haddon Spurgeon, 1891 **Space in Tense** Kyung-Sook Chung, 2012-07-18
This monograph explores the tense aspect mood and evidentiality of Korean which has a rich verbal inflectional system and proposes novel treatments within the framework of compositional semantics One of the major contributions is the demonstration that Korean has two types of deictic tense simple deictic and spatial deictic tense Spatial deictic tense refers to the notion of the speaker's perceptual field or deictic range as well as to temporality functioning to set up a condition for a systematic evidential distinction The research in this volume shows that the basic paradigm of evidentiality of Korean derives from the standard TMA system combined with the notion of space This volume also shows that perfect and past tense utilize different primitives The intended readership of this volume extends beyond Koreanists to scholars interested specifically in tense mood aspect and evidentiality as well as in general theories of grammar and semantics pragmatics A Mirror for Lovers William F.
