Speaking Of Earth Environmental Speeches That Moved The World:

Speaking of Earth Alon Tal, 2006 A compelling anthology of environmental speeches by prominent and articulate leaders from around the globe This book is required reading for anyone who cares about the future of our planet and especially for those who don't yet care enough

Between Ruin and Restoration Daniel E. Orenstein, Alon Tal, Char Miller, 2012-12-30 The environmental history of Israel is as intriguing and complex as the nation itself Situated on a mere 8 630 square miles bordered by the Mediterranean Sea and Persian Gulf varying from desert to forest Israel's natural environment presents innumerable challenges to its growing population The country's conflicted past and present diverse religions and multitude of cultural influences powerfully affect the way Israelis imagine question and shape their environment Zionism from the late nineteenth onward has tempered nearly every aspect of human existence Scarcities of usable land and water coupled with border conflicts and regional hostilities have steeled Israeli's survival instincts As this volume demonstrates these powerful dialectics continue to undergird environmental policy and practice in Israel today Between Ruin and Restoration assembles leading experts in policy history and activism to address Israel's continuing environmental transformation from the biblical era to the present and beyond with a particular focus on the past one hundred and fifty years The chapters also reflect passionate public debates over meeting the needs of Israel's population and preserving its natural resources The chapters detail the occupations of the Ottoman Empire and British colonialists in eighteenth and nineteenth century Palestine as well as Fellaheen and pastoralist Bedouin tribes and how they shaped much of the terrain that greeted early Zionist settlers Following the rise of the Zionist movement the rapid influx of immigrants and ensuing population growth put new demands on water supplies pollution controls sanitation animal populations rangelands and biodiversity forestry marine policy and desertification Additional chapters view environmental politics nationally and internationally the environmental impact of Israel's military and considerations for present and future sustainability

Diet for a Hot Planet Anna Lappe, 2010-04-23 Forty years after her mother's work changed the way we eat Anna Lappe's Diet for a Hot Planet changed the way we think about food production and global warming Fifty years ago Frances Moore Lappe's Diet for a Small Planet sparked a revolution in thinking about the social and environmental impact of what we eat Ten years ago her daughter Anna Lappe controversially picked up the conversation with Diet for a Hot Planet examining another hidden cost of our food choices the climate crisis Lappe predicted that food system related greenhouse gas emissions would be catastrophic unless we radically shifted the trends of what we ate and how we produced it She exposed the political interests with a stake in our food system and foresaw the spin food companies would use to avoid system wide reform She visited the pioneering farmers of a future food system where good could outweigh harm demonstrating the potential of sustainable farming She also offered six eternal principles for a climate friendly diet This measured and intelligent call to action is the perfect companion to the fiftieth anniversary edition of Diet for a Small Planet like her mother before her Lappe reminds us that food and our perilously large food system is

still a powerful access point for solutions to the climate crisis

The Rhetorical Legacy of Wangari Maathai Alberto González,Eddah Mbula Mutua,Anke Wolbert,2018-10-25 This book honors the advocacy of Dr Wangari Maathai acclaimed environmentalist and the first African woman to receive the Nobel Prize for Peace Dr Maathai was a gifted orator who crafted messages that imagined new possibilities for human agency and social justice and who inspired action to protect our natural habitats This collection explores the various strategies Maathai employed in her speeches to create memorable images and arguments for audiences in Kenya and around the world Specifically authors examine Maathai s use of storytelling her creative use of metaphor and local cultural knowledge and her use of sharp social political analysis Authors approach Maathai s rhetoric from both African and Western ways of knowing

Climate Change and the Future of Democracy R. S. Deese,2018-09-10 This book will survey past and present efforts to democratize international institutions and will advance the argument that a new degree of transparency and accountability on a global scale is necessary to address the threat of climate change The volume will analyse how global governance could become more democratic and consequently more responsive to the challenge of climate change As economic globalization has accelerated since 1945 international institutions have done a remarkable job in facilitating global communication and commerce but have been far less effective in protecting the global commons

Spirituality Roger S. Gottlieb,2013 Roger S Gottlieb provides a lucid and accessible overview of what spirituality is enabling a clear eyed understanding of the concept its manifold connections to other aspects of personal and social life its role as a positive psychological and social phenomenon and some of the risks that attend it

Resisting Racial Capitalism Ida Danewid,2023-11-30 What does freedom mean without and

despite the state Ida Danewid argues that state power is central to racial capitalism's violent regimes of extraction and accumulation Tracing the global histories of four technologies of state violence policing bordering wastelanding and reproductive control she excavates an antipolitical archive of anarchism that stretches from the favelas of Rio de Janeiro to the borderlands of Europe the poisoned landscape of Ogoniland and the queer lifeworlds of Delhi Thinking with a rich set of scholars organisers and otherworldly dreamers Danewid theorises these modes of refusal as a utopian worldmaking project which seeks not just better ways of being governed but an end to governance in its entirety In a time where the state remains hegemonic across the Left Right political spectrum *Resisting Racial Capitalism* calls on us to dream bolder and better in order to un build the world anew

Walking the Land Shay Rabineau, 2023-01-03 Israel has one of the most extensive and highly developed hiking trail systems of any country in the world Millions of hikers use the trails every year during holiday breaks on mandatory school trips and for recreational hikes *Walking the Land* offers the first scholarly exploration of this unique trail system Featuring more than ten thousand kilometers of trails marked with hundreds of thousands of colored blazes the trail system crisscrosses Israeli controlled territory from the country's farthest borders to its densest metropolitan areas The thousand kilometer Israel National Trail crosses the country from north to south Hiking trails and the ubiquitous three striped trail blazes appear everywhere in Israeli popular culture they are the subjects of news articles radio programs television shows best selling novels government debates and even national security speeches Yet the trail system is almost completely unknown to the millions of foreign tourists who visit every year and has been largely unstudied by scholars of Israel *Walking the Land* explores the many ways that Israel's hiking trails are significant to its history national identity and conservation efforts

Green Voices Richard D. Besel, Bernard K. Duffy, 2016-02-25 The written works of nature's leading advocates from Charles Sumner and John Muir to Rachel Carson and President Jimmy Carter to name a few have been the subject of many texts but their speeches remain relatively unknown or unexamined *Green Voices* aims to redress this situation After all when it comes to the leaders heroes and activists of the environmental movement their speeches formed part of the fertile earth from which uniquely American environmental expectations assumptions and norms germinated and grew Despite having in common a definitively rhetorical focus the contributions in this book reflect a variety of methods and approaches Some concentrate on a single speaker and a single speech Others look at several speeches Some are historical in orientation while others are more theoretical In other words this collection examines the broad sweep of US environmental history from the perspective of our most famous and influential environmental figures This book is freely available in an open access edition thanks to Knowledge Unlatched an initiative that provides libraries and institutions with a centralized platform to support OA collections and from leading publishing houses and OA initiatives Learn more at the Knowledge Unlatched website at <https://www.knowledgeunlatched.org> and access the book online at the SUNY Open Access Repository at <http://hdl.handle.net/20.500.12648/7126>

Inward Being and Outward Identity: The Orthodox Churches in the 21st Century John A.

Jillions,2018-05-22 This book is a printed edition of the Special Issue Inward Being and Outward Identity The Orthodox Churches in the 21st Century that was published in Religions The Environment in Rachel Carson's Silent Spring Gary Wiener,2011-12-01 A foundational text in the conservation movement Rachel Carson's Silent Spring challenged prevailing ideas of the health of the environment by showing that pesticides affected organisms other than their targets such as humans and birds The book also accused chemical companies and federal officials of complacency in regulating pesticides Despite challenges from the chemical industry the book reversed pesticide policy leading to a ban on DDT for agricultural use This compelling volume offers an in depth analysis of the life works and importance of Rachel Carson Critical essays focus on how the book put human impact at the center of environmental policy how some felt that Carson exaggerated her claims and how environmentalism stands in the way of human progress The book also offers readers contemporary perspectives on environmental disasters *Environmental Communication. Second Edition* Richard R. Jurin,Donny Roush,K. Jeffrey Danter,2010-07-20 Environmental professionals can no longer simply publish research in technical journals Informing the public is now a critical part of the job Environmental Communication demonstrates step by step how it's done and is an essential guide for communicating complex information to groups not familiar with scientific material It addresses the entire communications process from message planning audience analysis and media relations to public speaking skills a good communicator must master for effective public dialogue Environmental Communication provides all the knowledge and tools you need to reach your target audience in a persuasive and highly professional manner This book will certainly help produce the skills for environmental communications sorely needed for industry government and non profit groups as well as an informed public Sol P Baltimore Director Environmental Communications and Adjunct faculty Hazardous Waste management program Department of Chemical Engineering College of Engineering Wayne State University Detroit Michigan All environmental education professionals agree that the practice of good communications is essential for the success of any program This book provides practical skills for this concern Ju Chou Associate Professor Graduate Institute of Environmental Education National Taiwan Normal University Taipei Taiwan *Making Climate Tech Work* Alon Tal,2024-04-30 Climate tech is critical for averting planetary chaos Half the greenhouse gas reductions required to reach net zero climate targets in 2050 will need to come from technologies that have not yet been invented Without effective government interventions market incentives alone will not produce a rapid transition to a low carbon economy The commercial value of innovative climate technology especially in its early phases remains underpriced far below its social value The good news is that smart policies can change these dynamics and catalyze the necessary creativity and investment in clean technology and its deployment The key question is which approaches can lead us to future carbon neutrality and which are likely to fall short In Making Climate Tech Work environmental policy expert Alon Tal demystifies climate innovation programs around the world no policy background needed Beginning with a review of government's general role in technology policy development Tal assesses

each policy alternative describing eye opening experiments in diverse countries presenting a range of case studies interviewing leading decarbonization experts and interpreting new empirical data Discover how Germany incentivized renewables Denmark became a wind energy superpower Australia phased out incandescent bulbs California's prisons pioneered low carbon menus and why carbon taxes have failed around the world but could be designed for success Tal distills the benefits and drawbacks of each policy along with related ethical questions and public perceptions He concludes by addressing two commonly overlooked issues in climate policy disruption of workers livelihoods from the clean energy transition and integrating the Global South into the planet's new low carbon economy as the region that has contributed least to climate change but which must be part of a global solution Tal not only evaluates which policy strategies effectively reduce emissions but also how they can promote climate tech innovation Humanity is ultimately in a race against time and effective climate policies are critical to ensure a sustainable future Making Climate Tech Work serves as an essential primer for policymakers academics activists and anyone interested in climate solutions *Living Above the Store* Martin Melaver, 2009 Not Merely Sustainable Restorative A viable business is a living thing embedded in the complex web of economy community and ecology Done right business can help correct the modern stresses of environmental degradation and social fragmentation and create value for workers shareholders and additional stakeholders in the community *Living Above the Store* explores a road less traveled and chronicles how business can navigate a new path toward successful restorative practices Book jacket

Environmentalism and Global International Society Robert Falkner, 2021-07-15 Explains how environmentalism became a fundamental norm in international relations and explores the impact of the greening of international society

Routledge Handbook of Sustainable Design Rachel Beth Egenhoefer, 2017-07-28 The Routledge Handbook of Sustainable Design considers the design not only of artifacts but of structures systems and interactions that bear our decisions and identities in the context of sustaining our shared planet In addressing issues of design for global impact behavior change systems and strategy ethics and values this handbook presents a unique and powerful design perspective Just as there are multiple definitions of design so there are several definitions of sustainability making it difficult to find unity The term can sometimes be seen as a goal to achieve or a characteristic to check off on a list of criteria In actuality we will never finish being sustainable We must instead always strive to design work and live sustainably The voices throughout this handbook present many different characteristics layers approaches and perspectives in this journey of sustaining This handbook divides into five sections which together present a holistic approach to understanding the many facets of sustainable design Part 1 Systems and Design Part 2 Global Impact Part 3 Values Ethics and Identity Part 4 Design for Behavior Change Part 5 Moving Forward This handbook will be invaluable to those wishing to broaden their understanding of sustainable design and students and practitioners of Environmental Studies Architecture Product Design and the Visual Arts

Black on Earth Kimberly N. Ruffin, 2010 American environmental literature has relied heavily on the

perspectives of European Americans often ignoring other groups In *Black on Earth* Kimberly Ruffin expands the reach of ecocriticism by analyzing the ecological experiences conceptions and desires seen in African American writing Ruffin identifies a theory of ecological burden and beauty in which African American authors underscore the ecological burdens of living within human hierarchies in the social order just as they explore the ecological beauty of being a part of the natural order Blacks were ecological agents before the emergence of American nature writing argues Ruffin and their perspectives are critical to understanding the full scope of ecological thought Ruffin examines African American ecological insights from the antebellum era to the twenty first century considering WPA slave narratives neo slave poetry novels essays and documentary films by such artists as Octavia Butler Alice Walker Henry Dumas Percival Everett Spike Lee and Jayne Cortez Identifying themes of work slavery religion mythology music and citizenship *Black on Earth* highlights the ways in which African American writers are visionary ecological artists

Environmental Ethics and Uncertainty Whitney Bauman, Kevin O'Brien, 2019-08-06 This book offers a multidisciplinary environmental approach to ethics in response to the contemporary challenge of climate change caused by globalized economics and consumption This book synthesizes the incredible complexity of the problem and the necessity of action in response highlighting the unambiguous problem facing humanity in the 21st century but arguing that it is essential to develop an ethics housed in ambiguity in response *Environmental Ethics and Uncertainty* is divided into theoretical and applied chapters with the theoretical sections engaging in dialogue with scholars from a variety of disciplines while the applied chapters offer insight from 20th century activists who demonstrate and or illuminate the theory including Martin Luther King Rachel Carson and Frank Lloyd Wright This book is written for scholars and students in the interdisciplinary field of environmental studies and the environmental humanities and will appeal to courses in religion philosophy ethics politics and social theory
