## Speaking Pictures:

**Shakespeare's Pictures** Keir Elam, 2017-09-21 Shakespeare's Pictures is the first full length study of visual objects in Shakespearean drama. In several plays Hamlet, The Merchant of Venice and Twelfth Night among others pictures are brought on stage in the form of portraits or other images as part of the dramatic action. Shakespeare's characters show exchange and describe them. The pictures arouse in their beholders strong feelings of desire, nostalgia or contempt and sometimes even taking the place of the people they depict. The pictures presented in Shakespeare's work are part of the language of the drama and they have a significant impact on theatrical performance from Shakespeare's time to our own. Keir Elam pays close attention to the iconographic and literary contexts of Shakespeare's pictures while also exploring their role in performance history. Highly illustrated with 46 images, this volume examines the conflicted cooperation between the visual and the verbal.

**Pictures of Poverty** Lydia Jakobs, 2021-10-26 From Charles Dickens's *Oliver Twist* to George Sims's *How the Poor Live*, illustrated accounts of poverty were en vogue in Victorian Britain. Poverty was also a popular subject on the screen, whether in dramatic retellings of well known stories or in documentary photographs taken in the slums of London and its street life. These were the preferred setting for George Robert Sims's rousing ballads and the numerous magic lantern slide series and silent films based on them. Sims was a popular journalist and dramatist whose articles, short stories, theatre plays and ballads discussed overcrowding, drunkenness, prostitution and child poverty in dramatic and heroic episodes from the lives and deaths of the poor. Richly illustrated and drawing from many previously unknown sources, *Pictures of Poverty* is a comprehensive account of the representation of poverty throughout the Victorian period, whether disseminated in newspapers, illustrated books and lectures presented on the theatre stage or projected on the screen in magic lantern and film performances. Detailed case studies reveal the intermedial context of these popular pictures of poverty and their mobility across genres. With versatile author George R. Sims as the starting point, this study explores the influence of visual media in historical discourses about poverty and the highly controversial role of the Victorian state in poor relief.

**Hopwood's Living Pictures** Henry V. Hopwood, 1915 *Philip Sidney and the Poetics of Renaissance Cosmopolitanism* Robert E. Stillman, 2008 Offering a fresh interpretation of Philip Sidney's *Defence of Poesy*, Robert E. Stillman's intellectually ambitious study challenges traditional scholarship by identifying the impact of his education by the followers of Philip Melancthon, the so-called Philippists, on his poetics, piety and politics. Sidney created the first Renaissance text to argue for poetry's pre-eminence as an autonomous form of knowledge in the public domain and its consequent power to promote cultural reform.

Other Voices, Other Views Helen Ostovich, Mary V. Silcox, Graham Roebuck, 1999-12 The debate over canon represented by this book is implicit in the broad range of its contents As a whole it argues for expansion the inclusion of other voices to augment the standard university syllabus for the early modern period urging recognition of the period s diversity and reforming the conditions under which we pass judgment on its culture Each of these essays reveals the literary potential of works that have been considered inferior and inappropriate for serious study While such individual discovery is certainly valuable what is even more interesting is their significance as a group All the essays contained here are engaged in opening texts up to different perspectives creating a canon that speaks of diversity rather than uniformity

The Emblematics of the Self Elizabeth B. Bearden, 2012-01-21 The ancient Greek romances of Achilles Tatius and Heliodorus were widely imitated by early modern writers such as Miguel de Cervantes Philip Sidney and Mary Wroth Like their Greek models Renaissance romances used ekphrasis or verbal descriptions of visual representation as a tool for characterization The Emblematics of the Self shows how the women foreigners and non Christians of these tales reveal their identities and desires in their responses to the verbal pictures of romance Elizabeth B Bearden illuminates how verbal pictures enliven characterization in English Spanish and Neolatin romances from 1552 to 1621 She notes the capacity for change among characters such as cross dressed Amazons shepherdish princesses and white Mauritians who traverse transnational cultural and aesthetic environments Engaging and rigorous The Emblematics of the Self breaks new ground in understanding hegemonic and cosmopolitan

European conceptions of the other as well as new possibilities for early modern identities in an increasingly global Renaissance
