The Making of the Modern Canon Jan Gorak, 2014-01-13 This book is part of a series which moves the canon debate of the 1980s forward into a new multidisciplinary and cross cultural phase by investigating problems of canon formation across the whole humanistic field Some volumes explore the linguistic political or anthropological dimensions of canonicity Others examine the historical canons of individual disciplines The important contribution to the canon debate is remarkable in examining the actual process of canon formation from three unusual and complementary angles The first two chapters discuss historical attitudes to canons from antiquity onwards showing the religious aesthetic cultural and political interests which have shaped our modern critical canons Each of the four succeeding chapters examines an exemplary modern defendant interpreter or critic of canons Ernst Gombrich Northrop Frye Frank Kermode and Edward Said A final chapter considers the origins and rationale of the contemporary debate emphasizing the disciplinary and aesthetic problems we must confront if our cultural institutions are to meet the changing needs of the next century *How to Talk About Books You Haven't Read* Pierre Bayard, 2010-08-10 In this delightfully witty provocative book literature professor and psychoanalyst Pierre Bayard argues that not having read a book need not be an impediment to having an interesting conversation about it In fact he says in certain situations reading the book is the worst thing you could do Using examples from such writers as Graham Greene Oscar Wilde Montaigne and Umberto Eco he describes the varieties of non reading from books that you ve never heard of to books that you ve read and forgotten and offers advice on how to turn a sticky social situation into an occasion for creative brilliance Practical funny and thought provoking *How to Talk About Books You Haven t Read* which became a favorite of readers everywhere in the hardcover edition is in the end a love letter to books offering a whole new perspective on how we read and absorb them *The Saturday Review of Politics, Literature, Science and Art*, 1864 **The**

comprehensive exploration of the masterful novels that cemented Dostoyevsky's status as a titan of literary realism. This collection showcases his intricate narrative style characterized by psychological depth, moral complexity, and existential inquiry. Talking Books G. O. Hutchinson, 2008-08-14. Increasing importance is being attached to how Greek and Latin books of poems were arranged, but such research has often been carried out with little attention to the physical fragments of actual ancient poetry books. In this extensive study, Gregory Hutchinson investigates the design of Greek and Latin books of poems in the light of papyri, including recent discoveries. A series of discussions of major poems and collections from two central periods of Greek and Latin literature is framed by a substantial and illustrated survey of poetry books and reading, and by a more theoretical discussion of structures involving books. The main poets discussed are Callimachus, Apollonius, Posidippus, Catullus, Horace, and Ovid; a chapter on Latin didactic includes Lucretius, Virgil, Ovid, and Manilius.
