Speaking About Writing Reflections On Research Methodology:

Speaking About Writing Alain Coulon, 1994-04-29 This volume makes a powerful case for the analysis of the spoken word as a source of data to study writing The contributors focus on issues involved in the collection analysis and interpretation of data Their approaches go beyond simple quantitative qualitative differences examining the very underpinnings of the various assumptions of distinct methodologies Divided into four major areas of inquiry the book looks at different aspects of conducting think aloud protocol analysis retrospective accounts discourse analysis and interviews in the field

Speaking About Writing Peter Smagorinsky, 1994-04-29 This is not a how to do book it is a why to do book What is powerful about these chapters is that they are theory driven and they thus allow us as researchers to understand when and why particular methodologies are appropriate for investigating particular problems in particular situations The book is therefore in an important sense a why you shouldn't book because the authors deliberate on how the motivating theory for research is tied to the theoretical grounds for choosing a methodology The authors grasp and reflect on the need for a researcher to fully understand a methodology's power and its limitations They urge researchers to consistently pose the questions Why should I use this method What does it yield What lens does it provide for the problem I am investigating What must I account for in employing it *Speaking About Writing* provides not only a range of methodologies to consider for the investigation of writing but situating them in the context of one another enables the reader to consider the relative merits of each Above all the authors stress that research is driven by problems rather than methods and that premise helps researchers consider what is potentially available through the tools provided by different methodologies William Smith University of Pittsburgh Used as a comprehensive text and research tool *Speaking About Writing* focuses on the issues involved in the collection analysis and interpretation of data The approach goes beyond mere quantitative qualitative differences to examine and critique the very underpinnings and assumptions of the distinct methodologies Distinguished scholars discuss different writing methods stimulated recall think aloud analysis retrospective analysis and intervention analysis Contributors in discourse analysis look at the ways in which individuals interact with other members of the writing community during a more extended writing process problem discussion draft feedback and revision and teacher conferences Finally concluding chapters allow for responses from critics to earlier chapters in order to provide clarification and explanation *Speaking About Writing* is the perfect text for scholars and students in written communication composition and english communication research methods and psychology cognition

Second Language Writing Research Paul Kei Matsuda, Tony Silva, 2014-04-08 In this original volume eighteen researchers from different parts of the world reflect on their own research projects providing insights into key methodological issues in research on second language writing By offering a glimpse into the process of constructing and negotiating knowledge in the field the messy space of situated practices of inquiry it helps to demystify the research process which can appear in published studies and in introductory methodology guides to be neater and more orderly than it actually

is Taking a broad conception of research as inquiry that emphasizes the situated and constructed nature of knowledge in the field Second Language Writing Research Perspectives on the Process of Knowledge Construction encourages multiple forms of inquiry including philosophical narrative and historical modes Empirical inquiry as presented in this book encompasses both quantitative and qualitative approaches as well as those that strategically combine them A helpful discussion of the nuts and bolts of developing sustainable research programs is also provided The volume as a whole facilitates a situated issue driven research practice Its unique focus on second language writing research makes it an invaluable resource for both novice and experienced researchers in the field
