

A photograph of a church service. In the foreground, a woman with short brown hair has her mouth open in prayer, with her hands raised. Behind her, an older woman with white hair and glasses, wearing a red turtleneck and a dark jacket, also has her hands raised and mouth open. Other people in the background are also visible, some with their hands raised. The text "Speaking in TONGUES" is overlaid on the right side of the image.

## **Speaking In Our Tongues:**

**Speaking in Tongues** Alexander O. Sign, 2014-06-05 This book will give you an in depth biblical understanding of speaking in tongues It examines the designs uses and benefits of speaking in tongues and the right biblical attitudes every Christian should adopt toward speaking in tongues It exposes you to why speaking in today is still for today and why some Christians can t speak in tongues *What the Bible Says about Speaking in Tongues* John Argubright, 2014-05-22 The Biblical gift of speaking in tongues is the supernatural gift from God of speaking in a known foreign language to unbelievers without any previous knowledge or training in that language And what is spoken in that foreign language is the Gospel of Jesus Christ The main purpose is in order that Christ and Him crucified would be preached to all nations in a language that the hearer would understand Yet today many wolves in sheep clothing have perverted what the true gift of speaking in tongues really is and have replaced it with all sorts of false doctrines This Bible study teaches verse by verse on this topic teaching what the Bible says as compared to what the heretics of today have to say who are deceiving Christians by telling them to pray in ecstatic utterance that was once only associated with demonic possession And as you will see a very dangerous doctrine is being spewed from the tongues of these false prophets **Speaking in Tongues** Mark J.

Cartledge, 2012-04-04 Speaking in tongues glossolalia is a common spiritual phenomenon in the Pentecostal and Charismatic streams of the Christian church Such Christians believe that when they speak in tongues they are communicating with God in a language that they have never learned spiritual prayer language given to them by the Holy Spirit This innovative volume seeks to enhance our understanding and appreciation of glossolalia by examining it from a range of different angles Christian scholars from diverse academic disciplines bring to bear the insights of their own specialist areas to shed new light on the practice of speaking in tongues The disciplines include New Testament Studies Max Turner Theology Frank D Macchia History Neil Hudson Philosophy James K A Smith Linguistics David Hilborn Sociology Margaret M Poloma Psychology William K Kay A final chapter by Mark J Cartledge seeks to show how all of these perspectives can work together and enrich a Christian appreciation of the gift of tongues **Speaking in Tongues** Kathleen Schwab, Matthew Schwab, Chris

McKinney, 2020-02-02 Have you ever wondered why your prayer language doesn t sound like real words And why is it so repetitive Why does it usually start with the same few words or syllables Maybe you ve asked those questions at times We ve asked the same questions and quite a few others regarding the gifts of tongues and interpretation of tongues Then we sought the Lord for understanding of these gifts and did our best to operate in them faithfully He gave us many insights and answers and then brought it all together in a book That was something we never really planned It just sort of happened We aren t megachurch pastors We don t lead multi national ministries But we did have a calling from the Lord to write a book and spread a message What exactly is that message Speaking in tongues and interpreting tongues are powerful gifts with practical use for everyday people like us When people operate in these gifts God blesses the person operating in the gift but

He also blesses the people around them

**Hidden Power of Speaking in Tongues** Mahesh Chavda, 2011-07-28

Almost 40 years ago John and Elizabeth Sherill introduced the world to the phenomenon of speaking in tongues in their book *They Speak with Other Tongues*

The book was an immediate success as thousands were touched by the power of this spiritual gift

The *Hidden Power of Speaking in Tongues* again explores this spiritual experience powerfully prevalent in the early church

This much maligned and controversial gift was a practical part of their worship and intercession and seeks to be rediscovered in our day

In a day of spiritual poverty Chavda challenges the Body of Christ to experience afresh the secret dynamic of speaking in tongues as he removes the veil covering this glorious gift

**Speaking in Tongues: A Critical Historical Examination, Volume 2** Philip E. Blosser, Charles A. Sullivan, 2023-08-21

In three carefully researched volumes this ground breaking study examines the gift of tongues through two thousand years of church history

Starting in the present and working back in time these volumes consider

- 1 the modern redefinition of tongues as a private prayer language
- 2 the church's perennial understanding of tongues as ordinary human languages and
- 3 the Corinthian tongues which in light of Jewish liturgical tradition turn out to have been a Semitic liturgical language requiring bilingual interpreters

This second volume tracks the perception and practice of tongues back through the first eighteen hundred years of church history demonstrating that tongue speaking was always active but puzzlingly different from today's glossolalia

From Pope Benedict XIV's detailed treatise in the 1700s it works back through long forgotten scholastic and patristic debates to the earliest Christian writers such as Irenaeus

No other resource on the subject approaches the depth and scope of the present volume

*An Essential Guide to Speaking in Tongues* Ron Phillips, 2011-06-07

**Speaking in Tongues** Felicitas D. Goodman, 2008-04-15 Speaking in tongues or glossolalia is practiced in many different religions around the world Dismissed as meaningless gibberish by some observers it has been the subject of only a few fragmentary studies The work of Felicitas D Goodman represents the first cross cultural analysis of this enigmatic behavior and she brings to her research an extensive background in linguistics and anthropology Dr Goodman's fieldwork included living with apostolic congregations in Mexico City in the Yucatan with Maya Indians and visits with a congregation in Hammond Indiana Her observations were preserved on a remarkable collection of sound recordings and films For this book she presents a selection of conversion stories that highlights the personality structure and experiences of the speakers A detailed analysis of the phonological and suprasegmental features of the recorded utterances show a surprising cross cultural agreement This led Goodman to believe that glossolalists speak the way they do because their speech behavior is modified in a particular mental state often termed trance into which they place themselves In this light the glossolalia utterance is seen as an artifact of a hyperaroused mental state or in Chomskyan terms as the surface structure of a nonlinguistic deep structure that of the altered state of consciousness Goodman describes the hyperaroused mental state as a neurophysiological phenomenon as well as the associated patterns of movement and the problems of waking from it Goodman's diachronic approach yielded equally surprising data about the changes and the waning of the behavior over time But as she observes we have barely touched the edge of a very large area of inquiry Her fascinating study opens a number of new avenues of research for anthropologists such as the study of physiological states accompanying linguistic and ritual behavior
