**Speaking Our Minds** Jim Read, Jill Reynolds, 1996-11-20 A collection of writing by people who have experienced emotional distress     Postpsychiatry Patrick J. Bracken, Philip Thomas, 2005-12-22 For most of us the words madness and psychosis conjure up fear and images of violence Using short stories the authors consider complex philosophical issues from a fresh perspective The current debates about mental health policy and practice are placed into their historical and cultural contexts     *Mental Health Nursing* Stephan D. Kirby, Denis Hart, Dennis Cross, 2017-03-14 Pre registration nurse training across the UK is now competency based and this is the first mental health nursing text devoted to this approach It explores the practical application of a competency based Exit Profile for mental health nursing students which ensures that there is consistency in the essential knowledge skills and attitudes that mental health nursing students will acquire by the end of their training programmes This timely and contemporary text will be an essential resource for all Mental Health Branch nursing students     Mental Health Service Users in Research Patsy Staddon, 2015-01-14 This book aims to show the value but also the difficulties encountered in the application of insider knowledge in service user research Mental health service users in research considers ways of doing research which bring multiple understandings together effectively and explains the sociological use of autobiography and its relevance It examines how our identity shapes the knowledge we produce and asks why voices which challenge contemporary beliefs about health and the role of treatment are often silenced An imbalance of power and opportunity for service users and the stigmatising nature of services are considered as human rights issues Most of the contributors to the book are service users survivors as well as academics Their fields of expertise include LGB issues racial tensions and recovering from the shame and stigma of alcoholism They stress the importance of research approaches which involve mutualities of respect and understanding within the worlds of researcher clinician and service user survivor     Becoming a Social Worker Vivienne E. Cree, 2009-06-16 This is a book about social workers and social work It tells the story of the journey into and through social work of thirteen social workers living and working in the UK today We hear what has brought them into social work and what has kept them in it since Their lively accounts demonstrate that commitment and passion remain at the heart of social work today Becoming a Social Worker describes what it is like to be a social worker in different practice settings what it is like to be a social work manager and what is happening in social work education Some of the contributors will be recognised as those who have played a key part in shaping social work over the years and they provide valuable insights into how the profession of social work has developed in that time Other contributors less well known but no less interesting give us a vivid idea of what social work practice and social work education is like on the ground Social work is a demanding and difficult job which goes largely unseen within society We only ever hear about social work and social workers when something goes wrong and a vulnerable adult or child is hurt Becoming a Social Worker sets out to change that to make social work visible so that those considering a career in the caring professions can make an informed

choice about whether social work is the career for them      *Foucault and the Government of Disability* Shelley Tremain, 2015-06-02 An up to date edition of a foundational collection      *Mental Health, Service User Involvement and Recovery* Jenny Weinstein, 2010 Written cooperatively by service users and academics this book conveys a vital connection between recovery and involvement offering a framework of values and helpful strategies to promote meaningful user participation      **Critical Issues in Child and Adolescent Mental Health** Sarah Campbell, Dinah Morley, Roger Catchpole, 2017-03-06 In this thought provoking text a collection of respected authors with a wealth of academic and practice experience come together to challenge some of the prevailing ideas serving as the foundation for the current child and adolescent mental health services CAMHS structure Providing a fresh new perspective on critical issues and seeking to stimulate reflection and debate from managers and commissioners to newly qualified practitioners and students this book will both challenge and energise readers spurring them on to reconsider some of the pressing CAMH issues of our time
