**Promoting Equality in Secondary Schools** David Hill, Mike Cole, 1999-01-12 This text looks at each national curriculum subject and analyzes it in terms of culture and ideology represented It proceeds to give detailed advice and suggestions on how to promote equality and equal opportunities within each subject Each chapter is wide ranging and includes both theoretical and practical issues The book also provides detailed lists of relevant curricular resources and their suppliers

Deconstructing Developmental Psychology Erica Burman, 1994 This critical examination of the theories methods and political preoccupations that underpin modern developmental psychology will prove invaluable to students and all professionals who draw on developmental psychological theories in their work

Management of Behaviour in Schools Ved P. Varma, 2014-09-19 Aimed at trainee and experienced teachers this text examines what can be done to alleviate behavioural problems in schools and presents work in this area It examines childrens behaviour from nursery to late teens and shows that responsibility for discipline lies also with parents and pupils

**Sex Outside the Lines** Chris Donaghue, 2015-07-14 It s socially acceptable to spend a day watching sports or sitcoms but it s shameful and embarrassing to admit to the same about erotic media Why is it that sex is so often deemed inappropriate and considered something we must keep private or even ignore Our culture is afraid of sex We feel the need to label what is normal and what isn t and as a result we live in a relational and sexually unhealthy culture In reality far more harm is caused by labeling sexual expression as obscene than by celebrating it In Sex Outside the Lines Authentic Sexuality in a Sexually Dysfunctional Culture Chris Donaghue PhD explores and challenges the negative ideals that have warped society s view of sex Sex Outside the Lines is not a dogmatic rule book but a valuable guide to help you on your journey to sexual self discovery and most important self acceptance Donaghue encourages you to not only explore your capacity for pleasure but to be proud of it and to take a look at how you could be living In his years of training in sex and couples therapy Donaghue has developed highly successful methods for freeing clients from sexual hang ups enabling them to let go of shame and

embarrassment The goal isn't to be normal there is no such thing Donaghue pulls apart cultural phobias with a sex positive therapy practice as well as a kind of sexual deprogramming that helps people see and accept that the desires they have even if they don't align with society's expectations are actually natural healthy and part of having a great sex life Sex Outside the Lines addresses our diversity challenges conventional psychiatric wisdom as classifying perfectly normal behavior as disorders and disregards conventional advice from leading experts It isn't advocating a liberal approach to modern concepts it is seeking to redefine them altogether **Young People, Inequality and Youth Work** Mark Smith, Tony Jeffs, 1989-12-01

This deals with youth work practice organization and the social and economic position of young people It deals specifically with class division and economic inequalities experienced by young people Experiences of Special Education Derrick Armstrong, 2003-12-16 Discussion about educational provision for children with learning difficulties has largely ignored the voices of those for whom that provision is intended Experiences of Special Education argues that these insider perspectives are of central importance for a fuller understanding of special educational needs policy Bringing a unique focus to the subject of special needs education Derrick Armstrong reassesses the history of special educational policy through the life stories of those who have first hand experience These stories contest official policy discourses and inform an understanding of the competing political and professional debates in this area allowing the reader to Investigate the social and historical contexts of special educational needs policy Challenge traditional notions of policy research Explore alternative policy discourses informed by the voices of the excluded This thought provoking book is based on detailed case study analysis of the experiences of over thirty adults who attended special institutions schools between 1994 and the present It provides a fresh perspective on current discussions of special educational provisions for teachers student teachers policy makers and academics involved in special education **The Irregular School** Roger Slee, 2011-04-19 Should disabled students be in regular classrooms all of the time or some of the time Is the regular school or the special school or both the solution for educating students with a wide range of differences Inclusive education has been incorporated in government education policy around the world Key international organisations such as UNESCO and OECD declare their commitment to Education for All and the principles and practice of inclusive education There is no doubt that despite this respectability inclusive education is hotly contested and generates intense debate amongst teachers parents researchers and policy makers People continue to argue over the nature and extent of inclusion The Irregular School explores the foundations of the current controversies and argues that continuing to think in terms of the regular school or the special school obstructs progress towards inclusive education The book contends that we need to build a better understanding of exclusion of the foundations of the division between special and regular education and of school reform as a precondition for more inclusive schooling in the future Schooling ought to be an apprenticeship in democracy and inclusion is a prerequisite of a democratic education The Irregular School builds on existing research and literature to argue for a comprehensive understanding of exclusion a

more innovative and aggressive conception of inclusive education and a genuine commitment to school reform that steps aside from the troubled and troubling notions of regular schools and special schools It will be of interest to all those working and researching in the field of inclusive education      *Families, Education and Social Differences* Ben Cosin,Liz Freeman,Margaret Hales,2013-12-16 This book completes the series of readers for the Open University s undergraduate course EU208 Exploring Educational Issues A major theme of the book is the controversy around early years education and it looks at inequality issues      *Disability & the Politics of Education* Susan Lynn Gabel,Scot Danforth,2008 Disability and the Politics of Education An International Reader is a rich resource that deals comprehensively with the many aspects of the complex topic of disability studies in education For nearly two decades global attention has been given to education as a human right through global initiatives such as Education for All EFA and the Salamanca Statement Yet according to UNESCO reaching the goals of EFA remains one of the most daunting challenges facing the global community Today millions of the world s disabled children cannot obtain a basic childhood education particularly in countries with limited resources Even in the wealthiest countries many disabled children and youth are educationally segregated from the nondisabled particularly if they are labeled with significant cognitive impairment International agencies such as the United Nations and the World Bank have generated funds for educational development but unfortunately these funds are administered with the assumption that west is best thereby urging developing countries to mimic educational policies in the United States and the United Kingdom in order to prove their aid worthiness This McDonaldization of education reproduces the labeling resource allocation and social dynamics long criticized in disability studies The authors in this volume explore these subjects and other complexities of disability and the politics of education In doing so they demonstrate the importance and usefulness of international perspectives and comparative approaches
