

Special Interest Group Presentations

Teacher Instructions

In preparation for lessons on voter demographics, issue networks, campaign contributions, or anything else that would require students to understand the linkage institutions that connect the populace with the government, the study of special interest groups and grass roots organizations is vital.

Select one day per week for one to three students to give a presentation on their selected group. Students can self-schedule through almost all the learning management systems used by most schools. Or a calendar can be posted in the classroom.

Time: 3 to 10 minutes one day per week.

Materials: access to the internet, student handout, log.

Preparation: Write MADD, Sierra Club, and NRA on the board. Ask students to explain what they are and why they exist. Be sure to stress the following points:

Special interest groups (advocacy groups or pressure groups) are associations of individuals or organizations organized to influence public policy in their favor.

They raise money from private donations.

They spend money on public awareness of their issues.

They hire lobbyists to pressure lawmakers to pass legislation in their favor.

They exist in all categories and levels - from local issues to international organizations.

Project a special interest organization's website to model the required items students are to address.

Have students keep a log of the groups presented for a future lesson on linkage institutions, iron triangles, citizenship, etc.

Interest Groups in American Politics Anthony J. Nownes, 2013-01-17 Americans rail against so called special interests but at the same time many members of society are themselves represented in one form or another by organized groups trying to affect the policymaking progress This concise but thorough text demonstrates that interest groups are involved in the political system at all levels of government federal state and local and in all aspects of political activity from election campaigns to agenda setting to lawmaking to policy implementation Rather than an anomaly or distortion of the political system it is a normal and healthy function of a pluralist society and democratic governance Nonetheless Nownes warns of the dangers of unwatched interest group activity especially in the realms of the electoral process and issue advocacy *Interest Groups in American Politics* Second Edition is grounded by the role of information in interest group activity a theme that runs through the entire book This much anticipated revision of Nownes s text retains a student friendly tone and thoroughly updates the references to interest group research as well as adds a new chapter on the connections between interest groups and political parties Numerous figures and tables throughout the book help students visualize important trends and information
