IRA, The Bombs and the Bullets A. R. Oppenheimer, 2008-10-16 In this groundbreaking title A R Oppenheimer tells how the Irish Republican Army became the most adept and experienced insurgency group the world has ever seen through their bombing expertise and how after generations of conflict it all came to an end The book is a comprehensive account of more than 150 years of Irish republican strategic tactical and operational details and an analysis of the IRA's mission doctrine targeting and acquisition of weapons and explosives As a leading expert on non conventional weapons and explosives Oppenheimer vividly presents the story behind the bombs those who built and deployed them those who had to deal with and dismantle them and those who suffered or died from them He analyses where how and why the IRA's 19 000 bombs were built targeted and deployed and explores what the IRA was hoping to accomplish in its unrivaled campaign of violence and insurgency through covert acquisition training intelligence and counter intelligence Beginning with the Fenian Dynamiters in the second half of the nineteenth century Oppenheimer fully describes and assesses the impact of the pre 1970s bombing campaigns in Northern Ireland and England and the evolution of strategies and tactics during the Troubles He concludes with the decommissioning of an arsenal big enough to arm several battalions which included an entire home crafted missile system an unsurpassed range of improvised explosive devices IEDs and enough explosives to blow up several urban centres The author scrutinises the level of deadly improvisation that became the hallmark of the Provisional IRA's expertise and the ingenuity in its pioneering IED timing delay and disguise technologies and follows the arms race it carried on with the British Army and security services in a long war of mutual assured disruption He also provides an insight into the bombing equipment and guns in the vast IRA inventory held at Irish Police HQ in Dublin

Lord Jim Joseph Conrad, 1992-03-10 Lord Jim is a classic story of one man's tragic failure and eventual redemption told under the circumstances of high adventure at the margins of the known world which made Conrad's work so immediately popular But it is also the book in which its author through a brilliant adaptation of his stylistic apparatus to his obsessive moral psychological and political concerns laid the groundwork for the modern novel as we know it With An Introduction By Norman Sherry An expert on the works of Joseph Conrad Professor Norman Sherry is the author

of Conrad's Eastern World, Conrad's Western World, and Conrad and His World. He is also the editor of *Conrad: The Critical Heritage* and the official biographer of Graham Greene. Book Jacket Status: Not Jacketed. *Life Goes On (and on and on)* Reverend Bob, 2018-06-15. In the tradition of C. S. Lewis, Reverend Bob's new book is a collection of essays on how to live an honorable life and find permanent satisfaction. Some writers speak from the heart, and some don't. The ones that do speak from the heart usually get read, and the ones that don't don't get read. I guess that's the way it should be. I do believe that Reverend Bob speaks from the heart.

Truman H. Stone **Writing Superheroes** Anne Haas Dyson, Based on an ethnographic study in an urban classroom of 7 to 9 year olds. *Writing Superheroes* examines how young school children use popular culture, especially superhero stories, in the unofficial peer social world and in the official school literacy curriculum. In one sense, the book is about children writing superheroes; about children appropriating superhero stories in their fiction writing and dramatic play on the playground and in the classroom. These stories offer children identities as powerful people who do battle against evil and win. The stories, however, also reveal limiting ideological assumptions about relations between people, boys and girls, adults and children, people of varied heritages, physical demeanors, and social classes. The book then is also about children as writing superheroes. With the assistance of their teacher, the observed children became superheroes of another sort, able to take on powerful cultural storylines. In this book, Anne Dyson examines how the children's interest in and conflicts about commercial culture give rise to both literacy and social learning, including learning how to participate in a community of differences.

Prophetic Women of Bold Love Shawn Madigan, 2010-06-18. This book introduces women from various parts of the world who have experienced violence in some form and used that experience to actively foster peace. Some of the women may be better known than others, for they are Nobel Peace Laureates. Yet each woman is equally prophetic in the bold love that creates a better world. The women represent a variety of countries and religious traditions. Yet there is a unity in the underlying spirituality of non-violence that grounds each prophetic life and the loving work for human dignity, reconciliation, and peace. The women are models for living in ways that transform the world.

Community Policing Today Deborah A. Parsons, Janine Kremling, 2020-09-20. Framing community policing not as a program but as a transformation from traditional policing that involves sweeping changes in the way police view their role and relationships with the community, the authors demonstrate how law enforcement officers can partner with the community to help facilitate problem solving of public safety issues.

Meditation on the Trinity Anthony J. Kelly, 2024-12-31. One of the areas of sustained interest for Reverend Professor Anthony Kelly, CSsR, has been the mystery of the Trinity, the divine mystery constituted as Father, Son, and Spirit. Indeed, his whole life as theologian, teacher, priest, and preacher, and even as poet, has been spent in the quest, firstly, to know the mystery in which we live and move and have our being, and to penetrate it ever more deeply, and secondly, to communicate it ever. The essays in this collection demonstrate the wide range of genre in which Kelly writes, from the highly academic and scholarly, addressing the subtle refinements and sophisticated argumentation of

theological scholarship such as the essay on Trinitarian Connections in this collection through more contemplative and meditative reflections to the very practical as in the challenges of preaching on Trinity Sunday As is very evident in these essays Kelly systematically but gently expatiates on the meaning of the mysteries of faith skilfully interweaving references from the biblical witness classic creedal statements of faith doctrinal statements and insights from the tradition including the mystics They show him to be a consummate systematician robustly orthodox but restlessly imaginative ever bent on expressing the mysteries of Christian faith evocatively meaningfully and persuasively In a telling comment Kelly writes If faith is to remain alive to the living God if it is to serve the Word and communicate in the Spirit our language needs to be restlessly imaginative

Historical Occurrences of the Lrrp/Rangers of the 1st Cavalry Division During the Vietnam War John LeBrun, Bill Carpenter, 2019-12-09 Many books have been written about the Vietnam War Most of them are just overviews of events and often focus on the political aspect of the conflict Rarely is an individual under the rank of general mentioned except for a paragraph or two about individuals who earned the Medal of Honor Some books have been written by individuals who actually saw combat They often name people who engaged the enemy These are people whose boots were not spit shined and uniform did not have starched creases This book contains stories by and about the men who served in one company the 1st Cavalry Division s LRRP Rangers Company in the Vietnam

War **The Marine Corps Gazette** ,1964 **Courage and Cowardice in Ancient Greece** Andrei G. Zavaliy,2020-07-20

The book offers the first comprehensive account of the debate on true courage as it was raging in ancient Greece from the times when the immensely influential Homeric epics the Iliad and the Odyssey were composed to the period of the equally influential author Aristotle The many voices that contribute to this debate include poets authors of ancient dramas and comedies historians politicians and philosophers The book traces the origin of the earliest ideal of a courageous hero in the epic poems of Homer 8th century BCE and faithfully records its transformations in later authors which range from an emphatic denial of the Homeric standards of courage as in comedies of Aristophanes and some Dialogues of Plato to the strong revisionist tendencies of Aristotle who attempts to restore genuine courage to its traditional place as an exclusively martial male virtue Without attempting to cover the whole of the Western history the book is able to explore the most important primary Greek sources on the subject matter in greater details and provide the reader with a comprehensive picture of the changes in both popular and philosophical conceptualizations of the standards of courage from the Archaic period to the middle of the 4th century BCE A deeper understanding of the history of the debate on courage should help to shape the modern discussions as well as it becomes obvious that many of the questions on courage and cowardice that are still raised by the contemporary authors from different fields have been thoroughly considered during the early stages of Greek culture The book seeks to undermine a common stereotype of a single unified view on courage and cowardice in Ancient Greece and shows that the current debates on what constitutes genuine courageous character can be traced to the various direct and indirect discussions on this subject matter by the ancient authorities *The Nicomachean Ethics of Aristotle, books i.-iv., omitting i, 6, and x, 6-9, tr. with a catechetical analysis by St. G. Stock* Aristoteles,1886
