## **Special Voices Teaching Children With Special Needs In The Regular Classroom:**

**Handicapped Children and Mainstreaming** James H. Hughes, 1985 *Transitions in the field of special education*  
David L. Cameron, Ragnar Thygesen, 2015 The purpose of this book is to explore the phenomenon of transition as it relates to the field of special education within the Nordic countries of Norway Sweden Denmark and Finland First the authors investigate transition in the field of special education with respect to historical developments and the shifting prominence of diverse guiding theories Second we examine the process of transition in a wide range of special education contexts including transitions from home to school school to work and across other contexts and types of support The target audience for the book includes authors and researchers in academic and government research institutions professionals working in special education and related fields as well as students at graduate and doctoral levels There are 16 chapters with contributions from the editors and 15 other international authors Jorun Buli Holmberg David L Cameron Camilla Brurup Dyssegaard Niels Egelund Astrid Birgitte Eggen Britta Hannus Gullmets Camilla Herlofsen Maryann Jortveit Velibor Bobo Kova Ingrid Lund Johan Malmqvist David Mitchell Sven Nilsen Heidi Omdal Kristina Strøm Ragnar Thygesen and Anne Dorthe Tveit **Oxford**

**Textbook of Palliative Care for Children** Ann Goldman, Richard Hain, Stephen Liben, 2006 An authoritative text which defines the increasingly important specialty of paediatric palliative care It explores both the clinical aspects and the holistic nature of care for the dying child Taking an evidence based approach the book covers ways of providing support for the child families and carers

*Disability Voice* Mal Leicester, 1999 Leicester operates on the KISS principle Keep It Simple Stupid Her thoughts are so clearly and concisely packaged that her thoughts for an enabling education read like an 11th commandment The simpler thing are the more obvious sometimes the more profoundly they affect us For instance it is an absurdly commonsensical notion that one might ask the people who use a service whether they are satisfied with it or not That is precisely what Leicester did interviewing eighteen adults with disabilities and ten parents of disabled children who are in the education system currently While the size of her research sample like the book in which she interprets the findings is small she is able to weave from recurrent narratives of the school experience a message that must be heard by educators and policy makers Disability voice is a small but hugely important book absolutely powerful in its brevity highly readable for nonacademics and slim enough to appeal to busy teachers principles and college faculty In just over 100 pages then Leicester summarizes several disability theories relates them to the education system and proposes radical change Next she recommends many incremental improvements in which a whole school policy of inclusion might focus increased resources curriculum differentiation assessments of social adjustment as well as academic achievement better information and support systems involving parents as partners in assessment and decision making in service training for teachers and staff and external help for parents developing advocacy skills Clear straight forward doable suggestions Keep It Simple Leicester makes her point swiftly in brief with neither wasted words nor skimpy evidence Inclusion benefits all lets hope that Leicester

s slim book inspires heavyweight changes in schools and colleges everywhere Disability Studies Quarterly Mal Leicester s book Disability Voice which highlights the experience of disabled children and adults in the education system is a timely and important contribution to the moral imperative set out by the debates on inclusion I found the book clear direct and well argued The structure allows the reader to follow the themes of the stories but also to dip in and out as required It is a book that anyone interested in developing education policy that includes the experience of different peoples will find invaluable and challenging Journal of Moral Education Her own experiences as the parent of a severely disabled daughter were motivational in writing this book and were a significant factor in her decision to approach the issue of education through the direct experience of disabled people themselves What follows is a wide ranging and authoritative book based on interviews with 30 adults with a variety of disabilities Each is thoroughly analysed by the author Disability Voice addresses the rights of those with disabilities and the needs of their carers The book will be of particular interest and benefit to educational policy makers teachers their trainers and people with disabilities and their families Disability Times The best method of including disabled people in mainstream education is the subject of much debate but the voice of disabled people themselves is seldom heard Mal Leicester argues that people have been disabled by society and that there is a need for educational change The book encourages equal opportunities for disabled people by promoting the practice of enabling education a disability aware education that caters for everyone s educational needs Interviews with disabled people are also included giving their own recommendations for educators and policy makers Disability Voice addresses the rights of those with disabilities and the needs of their carers and will be of interest to educational policy makers teachers their trainers and people with disabilities and their families

Race, Class, and Education Kenneth J. Meier, Joseph Stewart, Robert E. England, 1989 While most school systems have undergone some formal desegregation to eliminate inequities in access to education inequities and discrimination nonetheless remain In this study covering 170 major school districts during the years between 1968 and 1984 the authors discuss the remaining obstacles to equal opportunity in education Clustering of students into separate classes or groups of classes based on perceived learning potential is one form of discrimination that remains disciplinary policy resulting in suspension or expulsion is the other Based on their findings Meier Stewart and England argue that the single most important factor in improving the access of black students to equal educational opportunities is having black teachers in the classroom a goal attainable through use of the political system In a very concise book Meier Stewart and England build a damning case against standard education policies as contributors to the resegregation of our schools In the process they give us an excellent example of what good policy analysis is by carefully blending empirical documentation with evaluation and prescription Mary Kweit Public Administration Review
