Grove, **Principles and Practice of Child Psychiatry** Stella Chess, Mahin Hassibi, 2012-12-06 Stella Chess's many admirers throughout the world have long looked forward to the day when she would produce her own textbook of child psychiatry They will not be disappointed in this thoughtful and perceptive account of the principles and practices of the subject written in collaboration with Dr Hassibi It has all the hallmarks we have come to recognize as distinctive of the Chess approach to child psychiatry gentle yet subtle and penetrating always appreciative of the feelings and concerns of both the children and their parents well informed and critically aware of research findings but far from overawed by the contributions of science and above all immensely practical Anyone who wants to know how one of the world's outstanding clinicians appraises what child psychiatry has to offer could do no better than to read this book Child psychiatry differs from general psychiatry in being concerned with a developing organism and it is entirely appropriate that the book begins with an account of child development and of the principal theories put forward to explain it Chess and Hassibi recognize the importance of theory in organizing ideas and in suggesting explanations but they remain skeptical of how far existing theories do in fact account for the outstanding issues in development They note the limitations of all theories in explaining how development takes place and why individual differences occur in the way they do *The Psychology of Financial Consumer Behavior* Dominika Maison, 2019-02-28 This book stresses the psychological perspective in explaining financial behavior Traditionally financial behaviors such as saving spending and investing have been explained using demographic and economic factors such as income and product pricing The consequence of this way of thinking is that financial institutions view their clients mostly from the perspective of their income By taking a psychological approach this book stresses the perspective of consumers
