The Cyrillo Methodian Tradition A History of European Literature Walter Cohen, 2017-01-19 Walter Cohen argues that the history of European literature and each of its standard periods can be illuminated by comparative consideration of the different literary languages within Europe and by the ties of European literature to world literature World literature is marked by recurrent systematic features outcomes of the way that language and literature are at once the products of major change and its agents Cohen tracks these features from ancient times to the present distinguishing five main overlapping stages Within that framework he shows that European literatures ongoing internal and external relationships are most visible at the level of form rather than of thematic statement or mimetic representation European literature emerges from world literature before the birth of Europe during antiquity whose Classical languages are the heirs to the complex heritage of Afro Eurasia This legacy is later transmitted by Latin to the various vernaculars The uniqueness of the process lies in the gradual displacement of the learned language by the vernacular long dominated by Romance literatures That development subsequently informs the second crucial differentiating dimension of European literature the multicontinental expansion of its languages and characteristic genres especially the novel beginning in the Renaissance This expansion ultimately results in the reintegration of European literature into world literature and thus in the creation of todays global literary system The distinctiveness of European literature is to be found in these interrelated trajectories **Advances in Formal Slavic Linguistics 2022** Berit Gehrke, Denisa Lenertová, Roland Meyer, Daria Seres, Luka Szucsich, Joanna Zaleska, 2025-05-12 Advances in Formal Slavic Linguistics 2022 brings together a collection of 22 articles originating as talks presented at the 15th Formal Description of Slavic Languages conference FDSL 15 held in Berlin on 5 7 October 2022 The contributions cover a broad spectrum of topics including clitics nominalizations participles the dual verbal prefixes assibilation verbal and adjectival morphology lexical stress vowel reduction focus particles aspect multiple wh fronting definiteness polar questions negation words and argument structure in such languages as BCMS Bulgarian Czech Macedonian Polish Russian Slovenian Ukrainian and Upper Sorbian The wide range of topics explored in this volume underscores the diversity and complexity of Slavic languages The contributions not only advance our understanding of languages belonging to the Slavic group but also offer fresh perspectives for linguistics more broadly **British Romanticism in European Perspective** Steve Clark, Tristanne Connolly, 2015-09-08 What and when is British Romanticism if seen not in island isolation but cosmopolitan integration with European Romantic literature history and culture The essays here range from poetry and the novel to science writing philosophy visual art opera and melodrama from France and Germany to Italy and Bosnia **Bulletin MLSA** University of Michigan. College of Literature, Science, and the Arts, 2007 **The Entangled Enoch: 2 Enoch and the Cultures of Late Antiquity** Grant Macaskill, 2024-05-21 This study reframes and reorients the study of 2 Enoch moving beyond debates about Christian or Jewish authorship and considering the work in the context of eclectic and erudite cultures in late antiquity particularly Syria The study compares the work with the Parables of Enoch and then with a variety of

writings associated with late antique Syrian theology demonstrating the distinctively eclectic character of 2 Enoch It offers new paradigms for research into the pseudepigrapha Classification of Instructional Programs, Canada, 2000 John S. Richardson, 2007-06-28 The role of structural case in syntax is arguably one of the most controversial topics in syntactic theory with important implications for semantic theory This book focuses on some of the most puzzling case marking patterns in the Slavic languages and ties these patterns to different types of aspectual phenomena showing that there is after all a pattern in the seeming chaos of case in the Slavic languages Kylie Richardson addresses links between the case marking on objects and the event structure of a verb phrase in Belarusian Russian Ukrainian Czech Slovak Polish and Bosnian Croatian Serbian and also shows that the links between case and aspect in the Slavic languages belong to a much larger pattern found in language in general She also focuses on links between case and grammatical aspect in depictive predicative participle and copular constructions in the East Slavic languages The book will appeal to scholars and advanced students of aspect and to all Slavicists
