The Public Intellectual Jerry Weinberger, Arthur M. Melzer, M. Richard Zinman, 2004-09-01 Whether intellectuals are counter cultural escapists corrupting the young or secular prophets leading us to prosperity they are a fixture of modern political life In *The Public Intellectual Between Philosophy and Politics* Arthur M Melzer Jerry Weinberger and M Richard Zinman bring together a wide variety of noted scholars to discuss the characteristics nature and role of public thinkers By looking at scholarly life in the West this work explores the relationship between thought and action ideas and events reason and history

The Dawn Of Universal History Raymond Aron, 2009-06-16 In this collection of essays written over a period of almost forty years Raymond Aron explores the rise of nationalism in Europe through the two world wars and the subsequent disintegration of her empires With a richness of detail and sweeping breadth of historical examples he chronicles and analyzes the history of the opposite ideological extremes of Fascism and Marxism and their descent into totalitarianism via secular religiosity Aron also examines French imperialism through the examples of Algeria and Indochina as well as America s role as an imperial republic during and after World War II Aron was never orthodox in his ideology neither his republican political penchants nor his dialectical intellectual orientation ever gained the upper hand over his devotion to empirical reality The result here is an intellectual history that seems less concerned about where it falls on the political spectrum than about getting it right

The Invention of Marxism Christina Morina, 2023 *The Invention of Marxism* shows how a theory of the capitalist system grew into a political philosophy that shaped the history of the twentieth century in extremely destructive as well as productive ways how an idea conquered the world

Political Reason in the Age of Ideology Daniel Mahoney, 2017-07-05 A little over one hundred years after his birth and not quite twenty five years since his death interest in the French political philosopher and sociologist Raymond Aron 1905 1983 continues to grow Aron is now widely recognized as one of the most significant intellectual figures of the postwar period whose wide ranging reflections played a key part in preserving liberal democracy in Europe and abroad His sober analyses of modern society his trenchant critique of ideological politics and every form of totalitarianism and his philosophical reflections on politics and history have given powerful support to democratic liberalism throughout the western world Aron s work combines passion and observation disinterested reflection and love of liberty in a way that is an imitable model for humane and balanced political reflection In this stimulating collection of essays inspired by the centennial of Aron s birth a distinguished group of North American and European scholars including Pierre Manent Stanley Hoffmann Irving Louis Horowitz Liah Greenfeld Claude Lefort and Aurelian Craiutu examine four key aspects of Aron s thought and work his educative legacy his reflections on other philosophers and intellectuals his distinctive approach to international relations and the unique character of his own political reflection The result is a masterful engagement with Aron s intellectual legacy and a thoughtful coming to terms with the political and intellectual substance of the twentieth century

The Committed Observer Raymond Aron, Jean-Louis

Missika, Dominique Wolton, 1983 For many months high on the French best seller lists these interviews provide fresh and original insights into the major world events of the last fifty years

Intersections Brij V. Lal, 2012-11-01 A wonderfully rich insightful and personally touching collection of essays by the Pacific region's most prolific and engaging historian Brij Lal writes eloquently and poetically about his professional and political journeys and the many different people and worlds he has encountered on the way Readers will be inspired by this collective account of a courageous life committed to the achievement of democratic freedom and social justice What shines through these pages is Lal's love of and commitment to Fiji from which he has been painfully exiled David Hanlon Professor of History Former Director of the Center for Pacific Islands Studies University of Hawaii at Manoa

What's Left? Diane Rubenstein, 1990 A non ideological non rhetorical non deconstructionist description of the politics of writing in France during the 20th century Focuses on the signifying forms that produce a political subject or agent particularly in relation to educational institutions Assumes a familiarity both with French literature but not language and modern literary critical terminology Paper edition unseen 1975 Annotation copyrighted by Book News Inc Portland OR

Intellectuals in Politics Jeremy Jennings, Tony Kemp-Welch, 2013-04-15 This wide ranging investigation explores the influence of thinkers from diverse intellectual backgrounds on the development of twentieth century culture and in so doing tells us much about the modern world in which we live

The Federal Vision Kalypso Nicolaidis, Robert Howse, 2001-11-01 The Federal Vision is about the complex and changing relationship between levels of governance within the United States and the European Union Based on a transatlantic dialogue between scholars concerned about modes of governance on both sides it is a collective attempt at analysing the ramifications of the legitimacy crisis in our multi layered democracies and possible remedies Starting from a focus on the current policy debate over devolution and subsidiarity the book engages the reader in to the broader tension of comparative federalism Its authors believe that in spite of the fundamental differences between them both the EU and the US are in the process of re defining a federal vision for the 21st century This book represents an important new contribution to the study of Federalism and European integration which seeks to bridge the divide between the two It also bridges the traditional divide between technical legal or regulatory discussions of federal governance and philosophical debates over questions of belonging and multiple identities It is a multi disciplinary project bringing together historians political scientists and theorists legal scholars sociologists and political economists It includes both innovative analysis and prescriptions on how to reshape the federal contract in the US and the EU It includes introductions to the history of federalism in the US and the EU the current debates over devolution and subsidiarity the legal framework of federalism and theories of regulatory federalism as well as innovative approaches to the application of network analysis principal agent models institutionalist analysis and political theories of citizenship to the federal context The

introduction and conclusion by the editors draws out cross cutting themes and lessons from the thinking together of the EU and US experiences and suggest how a federal vision could be freed from the hierarchical paradigm of the federal state and articulated around concepts of mutual tolerance and empowerment *Solitudes* Marc Froment Meurice,1995-01-01 The author reads Rimbaud Mallarmé Holderlin and Trakl in relation to philosophy and in particular to Heidegger Into the Heart of the Fire James K. Hopkins,1998 This book examines the experience of the British volunteers in the Spanish Civil War and places them in a broad intellectual political social and cultural framework **The Ends of European Colonial Empires** Miguel Bandeira Jerónimo,António Costa Pinto,2016-02-16 This volume provides a multidimensional assessment of the diverse ends of the European colonial empires addressing different geographies taking into account diverse chronologies of decolonization and evaluating the specificities of each imperial configuration under appreciation Portuguese Belgian French British Dutch Revolution and the Republic Jeremy Jennings,2011-06-16 A history of political thought in France from the French Revolution of 1789 to the present day **Science and Praxis** Pietro Daniel Omodeo,Senthil Babu D.,Claus Zittel,2025-07-23 This volume addresses questions in the history of science and allied disciplines about the inseparable relation between science and politics Cases presented in the book shed light on the political conditions orientation and the consequences of science Together they articulate frames of inquiry in historical political epistemology Situated in the early modern historical context the volume draws attention to different political factors which shaped scientific practices and their ideologies Given the contested historiographies of the scientific revolution the critical approach of this volume offers an invitation for further historical inquiries on the practices and politics of science **Extreme-Occident** Jean-Philippe Mathy,1993-11-15 What does America mean to French intellectuals Is it a postmodern ideal situated beyond history and metaphysics A source of spiritual decadence that threatens the European tradition Or is it Extr me Occident the Far Western site that gives historical reality to the utopias of the Renaissance and the Enlightenment Jean Philippe Mathy offers the first systematic examination of French texts that address the question of America He shows how prominent French intellectuals have represented America as myth and metaphor covering the entire ideological spectrum from Maurras to Duhamel and from Sartre to Aron The texts themselves range from novels and poems to travel narratives and philosophical essays by Claudel Sartre de Beauvoir Lyotard Baudrillard Kristeva and many others Mathy deftly situates these discourses on America against the background of French intellectual and political history since 1789 The judgments on American culture that originate in France he contends are also statements about France itself Widespread condemnation of American materialism and pragmatism cuts across deep ideological and political divides in France primarily because French intellectuals still operate within a framework of critical and aesthetic models born in the late Middle Ages and the Renaissance and elaborated in the age of French classicism Mathy engages issues central to interpreting the American experience such as the current controversies over multiculturalism and Eurocentrism Although Mathy deals mainly with French authors he does not limit

himself to them Rather he uses a comparative cross cultural approach that also takes in accounts of America by Nietzsche Heidegger Junger Gramsci and other Europeans as well as American self interpretations from Emerson and Dewey to Cornel West and Christopher Lasch Because debates on American modernity have played a crucial intellectual role in France Extr me Occident is a major contribution to modern French cultural history It will be essential reading for anyone wishing to understand the main currents of twentieth century French thought

Totalitarianism and Political Religions, Volume II
Hans Maier, Michael Schäfer, 2007-12-24 Available for the first time in English language translation this is the long awaited second volume of the three part set on Totalitarianism and Political Religions edited by the eminent Professor Hans Maier This represents a major study with contributions from leading scholars of political extremism sociology and modern history the book shows how new models for understanding political history arose from the experience of modern despotic regimes We are used to distinguishing the despotic regimes of the twentieth century Communism Fascism National Socialism Maoism very precisely according to place and time origins and influences But what should we call that which they have in common On this question there has been and still is a passionate debate Indeed the question seemed for a long time not even to be admissible Clearly this state of affairs is unsatisfactory The debate has been renewed in the past few years After the collapse of the communist systems in Central East and Southern Europe a scarcely surveyable mass of archival material has become available Following the lead of Fascism and National Socialism communist and socialist regimes throughout the world now belong to the historical past as well This leads to the resumption of old questions what place do modern despotisms assume in the history of the twentieth century What is their relation to one another Should they be captured using traditional concepts autocracy tyranny despotism dictatorship or are new concepts required Here the most important concepts totalitarianism and political religions are discussed and tested in terms of their usefulness This set of volumes is as topical and relevant to current world events in the twenty first century

The Liberal Political Science of Raymond Aron
Daniel J. Mahoney, 1992 This is a critical introduction to Raymond Aron s conception of political science based on a careful study of one of his central statements The Dawn of Universal History with collateral reference to most of his other major works and with a clear account of his unfolding thought Mahoney discusses Aron s relationship to such political and social thinkers as Aristotle Tocqueville Marx Strauss and Von Hayek He shows how Aron represented in a lively and vigorous way a tradition of political prudence increasingly under theoretical and practical assault Mahoney argues that Aron s notion of political science is superior to today s reigning social science in scope rigour and availability to practical political leaders and citizens

Heritage and the Building of Europe Sneška Quaedvlieg-Mihailović, 2004 [Bearing Witness](#) Doug Munro, Jack Corbett, 2017-07-13 Brij V Lal is a singular scholar His work has spanned disciplines from history to politics and genres from conventional monograph history to participant history political commentary encyclopaedia biography and faction Brij is without doubt the most eminent scholar Fiji has ever produced He also remains the most significant public intellectual

of his country despite having been banned from entering it in 2009 He is also one of the leading Pacific historians of his generation and an internationally recognised authority on the Indian diaspora This Festschrift volume celebrates reflects upon and extends the life and work of this colourful scholar The essays whose contributors are drawn from across the globe do more than review Brij s work they also probe his contribution to both scholarly and political life This book will therefore serve as an invaluable guide for readers from all walks of life seeking to better situate and understand the impact of Brij s scholarly activism on Fiji and beyond Clive Moore University of Queensland It is a pleasure to commend this collection of very different essays that celebrate reflect upon and extend the life and work of a remarkable scholar Although I have had at times a close association with Brij Lal s life and work I have learned much from reading this book It provokes further thought about the course of democracy in Fiji and the very sorry state and future of Pacific history and the humanities in academia Here is a timely assertion of the significance and major contribution that courageous scholars such as Brij have made to the study and public awareness of these areas of concern Jacqueline Leckie University of Otago
