## **Specters Of Liberation Great Refusals In The New World Order:**

Specters of Liberation Martin J. Beck Matustik, Martin Beck Matušík, 1998-03-19 Advocates a new existential and political coalition among critical and postmodern social theorists and among critical gender race and class theorists in dissent from the New World Order to raise specters of liberation and empower radical democratic change **Deep Democracy** Judith M. Green, 1999-10-13 Deeply understood democracy is more than a formal institutional framework for which America provides the model acting as a preferable alternative to the modern totalitarian regimes that have distorted social life around the world At its core as John Dewey understood democracy is a realistic ideal a desired and desirable future possibility that is yet to be In this period of global crises in differing cultures a shared environment and an increasingly globalized political economy this book provides a clear contemporary articulation of deep democracy that can guide an evolutionary deepening of democratic institutions of habits of the heart and of the processes of education and social inquiry that support them New Critical Theory William S. Wilkerson, Jeffrey Paris, 2001-11-19 New Critical Theory surveys contemporary leftist thought while introducing the tenets of this new form of critical theory Beginning with an exploration of the relationship between Marxism Habermas and the politics of identity William S Wilkerson and Jeffrey R Paris present a collection that critiques the globalization of capital The development of personality appears as subject to socialized standards in an age of global capitalism Only after scrutinizing the effects of such a system can liberation be found The essays within join Critical Theory with postmodern insights on language and subjectivity to provide a more comprehensive view of emancipatory social theory Through this and other reflections on critical race gender and queer theories Wilkerson and Paris emerge with an encompassing volume defining New Critical Theory Principled World Politics Richard A. Falk, 2000 On normative international relations *Herbert Marcuse* John Abromeit, W. Mark Cobb, 2014-06-03 The Legacy of Herbert Marcuse A Critical Reader is a collection of brand new papers by seventeen Marcuse scholars which provides a comprehensive reassessment of the relevance of Marcuse's critical theory at the beginning of the 21st century Although best known for his reputation in critical theory Herbert Marcuse's work has had impact on areas as diverse as politics technology aesthetics psychoanalysis and ecology This collection addresses the contemporary relevance of Marcuse's work in this broad variety of fields and from an international perspective In Part One veteran scholars of Marcuse and the Frankfurt school examine the legacy of various specific areas of Marcuse's thought including the quest for radical subjectivity the maternal ethic and the negative dialectics of imagination Part Two focuses on a very new trend in Marcuse scholarship the link between Marcuse's ideas and environmental thought The third part of this collection is dedicated to the work of younger Marcuse scholars with the aim of documenting Marcuse's reception among the next generation of critical theorists The final section of the book contains recollections on Marcuse's person rather than his critical theory including an informative look back over his life by his son Peter *The Soul of Justice* Cynthia Willett, 2018-05-31 Cynthia Willett brings together diverse

insights from social psychology classical and contemporary literature and legal and justice theory to redefine the basis of the moral and legal person Feminists communitarians and postmodern thinkers have made clear that classical liberalism with its emphasis on individual autonomy and excessive rationalism is severely limited Although she is sympathetic with the liberal view Willett finds it necessary to go further For her attention to the social dimensions of the family and civil society is critical if issues of race gender class and sexuality are to be taken seriously Interdependency not autonomy is of increasing significance in an era of globalization Willett proposes an alternate normative theory that recognizes the impact of social forces on individual well being Citizenship in a democracy should not be defined solely on the basis of rights to autonomy such as bare rights to property or free speech she explains Rather citizenship should be defined first of all in terms of the rights responsibilities and capacities of the social person It is within the African American tradition of political thought that Willett finds a more useful definition of human identity and political freedom The African American experience offers a compelling vision of social change and a deeper understanding of what it means to be a social person By focusing on everyday battles against racism Willett contends we can gain valuable insight into the meaning of justice

*Critical Theory and Democratic Vision* Arnold L. Farr, 2009-01-01 While there are a number of books on Marcuse Critical Theory and Democratic Vision is the first to examine the problem of democracy through Marcusean lenses Marcuse is revived for the sake of helping us rethink what it takes to have a democratic society based on inclusion and equality

**Concepts of Cabralism** Reiland Rabaka, 2014-07-16 By examining Amilcar Cabral's theories and praxes as well as several of the antecedents and major influences on the evolution of his radical politics and critical social theory Concepts of Cabralism Amilcar Cabral and Africana Critical Theory simultaneously reintroduces chronicles and analyzes several of the core characteristics of the Africana tradition of critical theory Reiland Rabaka's primary preoccupation is with Cabral's theoretical and political legacies that is to say with the ways in which he constructed deconstructed and reconstructed theory and the aims objectives and concrete outcomes of his theoretical applications and discursive practices The book begins with the Negritude Movement and specifically the work of Leopold Senghor Aimé Césaire and Jean Paul Sartre Next it shifts the focus to Frantz Fanon's discourse on radical disalienation and revolutionary decolonization Finally it offers an extended engagement of Cabral's critical theory and contributions to the Africana tradition of critical theory Ultimately Concepts of Cabralism chronicles and critiques revisits and revises the black radical tradition with an eye toward the ways in which classical black radicalism informs or should inform not only contemporary black radicalism African nationalism and Pan Africanism but also contemporary efforts to create a new anti racist anti sexist anti capitalist anti colonialist and anti imperialist critical theory of contemporary society what has come to be called Africana critical theory

Abdi, 2013 Despite decades of multicultural education policies cultural minorities and the peoples of the First Nations continue to be marginalized in Canadian schools In Education and the Politics of Difference authors Ratna Ghosh and Ali A Abdi expose the problematic constructions of difference in schooling contexts where differences are either treated as surface issues that do not affect the lives of learners or superficially celebrated in terms that do not question power relations in schools and society This revised and expanded second edition engages the broad theories of multicultural and inclusive education and provides case studies of Canadian multicultural education policies such as the unique situation of Aboriginal education With this discussion of how differences of race class gender sexuality and other differences are viewed particularly in a post 9 11 world this book extends

the possibilities of a more open minded global understanding and appreciation of difference The book closes with a discussion of the future of multicultural and inclusive education envisioning a school system where difference is normalized and seen as a fundamental human trait essential for social and human well being Culture, Education, and Development in South Africa Ali A. Abdi, 2001-10-30 With the fall of apartheid in South Africa expectations were high for the enfranchisement of the acutely underdeveloped majority in South Africa But problems abound and this educational study looks critically at the educational situation and puts forth a number of proposals that could produce better results in contemporary South Africa Abdi urges that beyond the celebratory platforms of the political triumph over apartheid there must be effective and culturally inclusive programs of education for the development of the highly disenfranchised majority in South Africa Deliberate programs of colonialism and apartheid in South Africa resulted in inferior education cultural marginalization political oppression economic exploitation and resulting underdevelopment in the lives of the disenfranchised majority In addition to historical and contemporary analysis this study looks at the possibilities of formulating and implementing new programs of education and development that could effectively deal with such current problems as chronic unemployment skyrocketing crime rates stagnating learning systems and the continuing formations of a huge underclass that may be losing its stake in the promised post apartheid project **Radical Evil and the Scarcity of Hope** Martin Beck
