Spectres When Fashion Turns Back:

Spectres Judith Clark, 2005-03 Published to accompany the exhibition held at the ModeMuseum Province of Antwerp MoMu at the V A London curated by Judith Clark February 2005 *Spectres*, 2005 *Fashion Curating* Annamari Vänskä, Hazel Clark, 2017-12-28 As the practice of fashion curation extends into commercial galleries public and retail spaces and even to the individual self professional concepts of curating are undergoing rapid change Today everyone is seemingly able to curate but where does this leave the traditional understanding of curation as clothing collected and displayed in a museum This thought provoking volume explores the practice of fashion curating in the 21st century bridging the gap between methods of display and notions of the curatorial in fashion exhibitions commercial settings and the virtual world From fashion s earliest forays into the museum to creative collaborations between luxury fashion brands and artists this book challenges understandings of fashion curation by drawing on the palpably new spaces places and actors in today s curating scene Exploring poetic and performative museum displays in venues such as the V A Somerset House MoMu and the Royal Ontario Museum alongside the ways that brands such as Dior Chanel and Louis Vuitton have made use of the curatorial in their own commercial strategies Fashion Curating asks pressing questions about controversial funding and collaboration from the commercial fashion sector and the limitations of producing exhibitions that are at the same time critical and popular Bringing together approaches from fashion curators designers and world renowned academics curation is positioned as a critical practice that opens up new ways of conceptualizing and theorizing fashion challenging how we think and what we already know **Time in Fashion** Caroline Evans, Alessandra Vaccari, 2020-07-09 Few phenomena embody the notion of time as well as fashion Fast moving and rooted in the now it s constantly creating its own past through the process of rapid style change Uniquely poised between the past and the future fashion s relationship with time is unorthodox Rather than considering time in the conventional sense this anthology explores three alternative ways to think about fashion and time the first identifies the seasonal nature of fashion as an industry and shows how this has impacted on workers and wearers alike The second looks at fashion design as a ceaseless process of adaptation reconstruction and recombination of motifs in which nostalgia and revivals play their part The third construes fashion s imaginary with its capacity for fantasy and myth making as a form of alternate history that asks what if Within this framework key classic texts are juxtaposed with lesser known ones in an interdisciplinary approach that includes philosophy history literature media and fashion design ranging from the 18th century to the present It will be of interest to anyone wishing to understand one of the most complex yet inescapable aspects of fashion its relationship to time and will be a critical resource for undergraduate and postgraduate students in the humanities and all those interested in fashion in all its creative commercial and cultural aspects *Teaching fashion. An introduction* Romana Andò, 2020 This collection of contributions was created to prove both the complexity of the contemporary fashion system as well as the richness and openness of an interdisciplinary approach to the field that is the

same that inspires the Master programme in Fashion Studies at Sapienza University of Rome All the authors either scholars or professionals in their fields are deeply involved in this educational project and they have conceived each contribution as a pedagogic tool for supporting students in better understanding the social cultural economic technological creative environmental aspects of fashion Therefore this collection aimed at providing readers with a kaleidoscopic approach a multitude of voices and perspectives a set of blended methodologies as well as theories that try to address the challenges of the permanent and accelerating transformations of the fashion system To understand the future of fashion we have to foster creative as well as critical thinking working on the knowledge we got from the past and identifying changes in advance in order to be ready and prepared for the challenges that are in front of us **Fashion Cultures Revisited** Stella
