Davenport-Hines, 2013-11-26 First Published in 1990 This is the companion title to R P T Davenport Hines *Capital Entrepreneurs and Profits* This title responds to the little discussion surrounding the subject of business history The editor recognised that although the interpretation of business history has been wide the only distinguishing features was a dependence on often British business records which is reflected in the selection of volumes within this collection This title intends to present a list of searching and analytical and therefore more satisfying and instructive histories of British companies from which lessons can be learned **International Competition and Industrial Change** Charles Harvey, Jon Press, 2014-02-04 First Published in 1990 This collection of essays is intended shed light upon key issues in the history of mining and metallurgy issues such as investment and organisation professionalisation the impact of technological change and the problematic relationship between mineral wealth and sustained economic development *The Oxford Handbook of Entrepreneurship* Mark Casson, 2008 Entrepreneurship is a key factor in economic growth innovation the development of firms businesses Written by leading scholars this book presents a comprehensive review of the research in entrepreneurship **The End of Insularity** Richard Peter Treadwell Davenport-Hines, Geoffrey Jones, 1988 The Cossacks who wore German uniforms saw their service not as treason to the motherland but as an episode in

the revolution of 1917 part of an ongoing struggle against Moscow and against Communism A Wehrmacht needing men and an SS hungry for power reinterpreted or ignored Hitler's racist ideology to form entire divisions of Cossack volunteers German offices developed relationships to their Cossacks similar to those in the French and British colonial armies The Cossacks responded by fighting effectively and reliably on the Russian Front and in the Balkans Their reward was forced repatriation into Stalin's Gulag at the hands of the Western powers in 1945 *The Vital Spark* John Armstrong, 2017-10-18 This book collects seventeen previously published essays by John Armstrong concerning the British coastal trade Armstrong is a leading maritime historian and the essays provided here offer a thorough exploration of the British coastal trade his specialisation during the period of industrialisation and technological development that would lead to modern shipping The purpose is to demonstrate the whether or not the coastal trade was the main carrier of internal trade and a pioneer of the technical developments that modernised the shipping industry Each essay makes an original contribution to the field and covers a broad range of topics including the fluctuating importance of the coastal trade and size of the coastal fleet over time the relationship between coastal shipping canals and railways a comparison between the coastal liner and coastal tramp trade the significance of the river Thames in enabling trade coastal trade economics maritime freight rates the early twentieth century shipping depression competition between coastal liner companies and a detailed study of the role of the government in coastal shipping The book also contains case studies of the London coal trade coastal trade through the River Dee port and the Liverpool Hull trade route It contains a foreword introduction and bibliography of Armstrong's writings There is no overall conclusion except the assertion that coastal shipping plays a tremendous role in British maritime history and a call for further research into the field Merchant Princes and Charlatans or Makers of Money? Henry Sless, 2022-01-01 This book provides a critical analysis of visual images of British and international finance during the nineteenth century Its focus is on the financiers themselves contrasting the depiction of the respectable Merchant Princes with the less than perfect charlatans white collar criminals who defrauded investors of millions The breakdown of trust between financiers and investors that evolved during this period is represented visually in depictions of the emotional response of investors to the uncertain financial climate Throughout the book a PEARL methodology has been used to critique the images reflecting the impact of any Publisher's political bias the Editorial and Artistic techniques used to convey the messages in the images and the Legal context especially a concern in countries such as France and Germany where censorship was strict The book concludes that white collar criminals were invariably secretly admired in Britain and rarely severely satirised Similarly Merchant Princes were depicted favourably in Britain as members of the ruling elite during the latter half of the century This is contrasted with the more extreme anti monopolistic images in the US and the extreme anti Semitic treatment of Jewish financiers in France and Germany Crash Bang Wallop Iain Martin, 2016-09-08 Published to mark the 30th anniversary of the financial revolution known as Big Bang Crash Bang Wallop will tell the gripping story of

how the changes introduced in the 1980s in the City of London transformed our world Attitudes to money and the way we measure value and status were completely reshaped by Big Bang and it had an extraordinary impact on politics on style on technology on the class system on questions of public ownership and on the geography of London Perhaps more than anything Big Bang revolutionised the international markets as the capital became a testing ground for financial globalisation with huge repercussions for the global economy The definitive insider s account of this critically important moment in modern history Crash Bang Wallop will also explore what s next for global finance as it gets ready to undergo yet another revolution Iain Martin tells it brilliantly mixing fury inducing narrative with an acute eye for the broader conclusion Observer

Jacob Schiff and the Art of Risk Adam Gower, 2018-06-19 Jacob Henry Schiff 1847 1920 a German born American Jewish banker facilitated critical loans for Japan in the early twentieth century Working on behalf of the firm of Kuhn Loeb Co Schiff s assertiveness in favour of Japan separated him from his fellow German Jewish financiers and the banking establishment generally This book s analysis differs from the consensus that Schiff funded Japan largely out of enmity towards Russia but rather sought to work with Japan for over thirty years This was as much a factor in his actions surrounding the Russo Japanese War 1904 1905 as his concern to thwart Russian antisemitism Of interest to financial historians alongside Japanese historians and academics of both genres this book provides a lively and thoroughly researched volume that precisely focuses on Schiff s mastery of banking **Gold, Finance and Imperialism in South Africa, 1887-1902** Mariusz

Lukasiewicz, 2024-03-19 This book provides a unique account of the financial and political history of the South African War by analysing the organisation and operations of the Johannesburg Stock Exchange JSE the oldest existing stock exchange in the African continent Identifying the JSE as the nexus between international finance South African gold mining and British imperialism the book exposes the financial and political connections between Johannesburg Pretoria London and Paris during the final stage of the imperial scramble for southern Africa Gold mining presented the South African Republic ZAR and the whole southern African regional economy with a long term economic future and new prospects of industrialisation However this socio economic transformation was dependent on extensive capital investments and the institutionalisation of a coercive labour regime based on racial discrimination This monograph provides the first empirical examination of how international finance imperial politics and racialised industrial relations became entrenched in a key financial intermediary in colonial South Africa first in Kimberley in the Cape Colony and then in Johannesburg in the ZAR By studying the Johannesburg capital market s social microstructures the author demonstrates how colonial and international financial intermediaries underwrote and financed the largest wave of mining investments in Africa prior to the First World War Filling an important gap in literature on nineteenth century British imperialism and Anglo African Afrikaner relations this insightful book uses the JSE as a lens to carefully expose the structures and agency of global finance in the outbreak of the South African War and the making of South Africa as a unified colonial state British Multinational Banking, 1830-1990 Geoffrey Jones, 1993 Analyses

the emergence growth and performance from the 1830s to the present Genres of the Credit Economy Mary Poovey, 2008-09-15 How did banking borrowing investing and even losing money in other words participating in the modern financial system come to seem like routine activities of everyday life Genres of the Credit Economy addresses this question by examining the history of financial instruments and representations of finance in eighteenth and nineteenth century Britain Chronicling the process by which some of our most important conceptual categories were naturalized Mary Poovey explores complex relationships among forms of writing that are not usually viewed together from bills of exchange and bank checks to realist novels and Romantic poems to economic theory and financial journalism Taking up all early forms of financial and monetary writing Poovey argues that these genres mediated for early modern Britons the operations of a market system organized around credit and debt By arguing that genre is a critical tool for historical and theoretical analysis and an agent in the events that formed the modern world Poovey offers a new way to appreciate the character of the credit economy and demonstrates the contribution historians and literary scholars can make to understanding its operations Much more than an exploration of writing on and around money Genres of the Credit Economy offers startling insights about the evolution of disciplines and the separation of factual and fictional genres **Empire and Globalisation** Gary B. Magee, Andrew S. Thompson, 2010-02-11 Focusing on the great population movement of British emigrants before 1914 this book provides a perspective on the relationship between empire and globalisation It shows how distinct structures of economic opportunity developed around the people who settled across a wider British World through the co ethnic networks they created Yet these networks could also limit and distort economic growth The powerful appeal of ethnic identification often made trade and investment with racial outsiders less appealing thereby skewing economic activities toward communities perceived to be British By highlighting the importance of these networks to migration finance and trade this book contributes to debates about globalisation in the past and present It reveals how the networks upon which the era of modern globalisation was built quickly turned in on themselves after 1918 converting racial ethnic and class tensions into protectionism nationalism and xenophobia Avoiding such an outcome is a challenge faced today **A Liberal Chronicle in Peace and War** Cameron Hazlehurst, Christine Woodland, 2023-07-03 Jack Pease was at the heart of the British Liberal government from 1908 to 1915 holding the position of Chief Whip through two general elections and a member of the Cabinet confronting domestic tumult international tensions and war Pease was an unassuming participant in the deliberations of a unique gathering of political talent His journals as President of the Board of Education from 1911 to the formation of the coalition ministry in 1915 are a closely observed unvarnished record of what he saw and heard in Downing St and Westminster constitutional and Home Rule crises industrial conflict electoral reform women s suffrage controversies struggles over budgets naval estimates and foreign policy Despite his Quaker beliefs Pease committed to supporting war against Germany and his troubled conscience is laid bare in letters to his wife and friends Replete with intimate portraits of his revered chief H H Asquith and the Prime Minister

s social circle the journals also provide evocative observations of the contest of ideas arguments and moods of prominent contemporaries especially David Lloyd George as Chancellor of the Exchequer Winston Churchill as Home Secretary then First Lord of the Admiralty and Lord Kitchener as Secretary of State for War Pease's candid accounts augmented by the diaries and letters of others privy to Cabinet policy secrets and personal rivalries reveal the stories not told in the Prime Minister's reports to the King Together with the editors biographical introduction extensive explanatory commentaries and bibliographical guidance Pease's text provides a uniquely comprehensive understanding of Asquith's Liberal government in peace and war

Morality and the Market in Victorian Britain Geoffrey Russell Searle, 1998 In this lively and interesting study G R Searle tackles the conundrum at the heart of Victorian life how could capitalist values be harmonized with Christian beliefs and with concepts of public morality and social duty Middle class Victorians who broadly welcomed industrial growth and embraced the doctrines of political economy were sensitive to the charge that theirs was a selfish and materialistic creed Consequently if public morality was to be reconciled with the market wage labour had to be distinguished from slavery investment from speculation and entrepreneurial acumen from dishonesty and fraud These ideas about citizenship and public virtue offered a greater challenge to rampant capitalism than any pressing need to alleviate poverty Through its exploration of Victorian values this book provides lessons for all those engaged in the present day debate about the moral and social consequences of unleashing free market forces
