

Chapter 1: Why Communication Matters:

Objectives:

- Explore the importance of communication skills
- Examine your personal communication style
- Understand how identity influences communication choices

Introduction:

- According to Harvard psychologists it takes seven seconds to make a first impression
 - Individuals take this time to assess verbal and nonverbal cues and communication practices
- Most business executives are hiring managers found that the ability to communicate orally was ranked as *the most important* college learning outcome
 - Oral communication, along with leadership and team building are vital to long-term success in business
- Through effective oral communication skills, speakers have the opportunity to:
 - Advocate for important issues
 - Improve upward social mobility through presentation and interviewing skills
 - Create interpersonal connections that can make a huge difference in someone's life
- When information is discussed in a way that makes sense to everyone, information is accessible
 - Accessibility is an important component in persuasion
 - Developing strong oral communication skills can help to effectively share one's knowledge, experiences, and perspectives
 - And help make a positive difference in local and global communities
- How you decide to approach and frame a topic and orally present your thoughts can be a game changer
 - How we regularly communicate in our lives affects who wants to be our friend, the opportunities we get, and how we receive messages from others
 - How you communicate and model your communication may also influence what others think about you
 - Rightfully or wrongfully, everyone we interact with will assess our communication skills and will use these skills to determine who we are and who we could be

Communication Style:

- As individuals, we have agency in deciding what we want our communication style to be and how we want to communicate to and with the world around us
- As individuals we get to choose how we use words, develop ideas, and share our ideas, experiences and perspectives with others

The Second Sense Robin Maconie, 2002-05-07 In a visual culture hearing is the second sense and music is the art of hearing Kandinsky believed that music transcended painting and visual representation because it had the power to act directly and invisibly on the human spirit Because it is the only art to deal unequivocally with the real world of sound and its attendant perceptions of time motion and human mortality music remains a powerful and often controversial influence on human behavior Defining music in the broadest sense as any acoustic activity intended to influence the behavior of others and written in a clear conversational style for a non specialist readership The Second Sense draws on over 100 examples of recorded musical sources from throat singing to Beethoven and from traditional Japan to Boulez including a great many popular classics On the basis that Everything you hear is true true of yourself true of the music and true of the relationship between what you hear and how you hear it the author teases out the signs symbols and patterns of thought that arise from the way people hear the sounds people make and the instruments and environments that are designed and constructed to enhance the listening experience Maconie aims to do for music what Klee and Kandinsky did for art education and Marshall McLuhan for media studies
