Speech Reticence Sounds Silence:

Speech Reticence; Sounds & Silence Carl Johnson, 1973-01-01 *Speaking of Silence in Heidegger* Wanda Torres Gregory, 2021-10-06 In *Speaking of Silence in Heidegger* Wanda Torres Gregory critically analyzes Heidegger's thoughts on silence. Arguing that silence about silence is a guiding principle in his sparse and often reticent words, Torres Gregory sets out to decipher their elusive meanings. Charting the trajectory of Heidegger's reflections from *Being and Time* to *On the Way to Language*, she shows that he develops his ideas of silence in increasingly closer relations to his also evolving ideas of truth as the unconcealedness of being, being and language as disclosive, sonorous saying. Torres Gregory distinguishes between human primordial and primeval forms of silence and the linguistic, pre-linguistic and proto-linguistic levels at which silence can occur in relation to sonorous speech. While the book focuses on these inner conceptual dynamics, the author remains mindful of Heidegger's ties to National Socialism and clarifies how his theoretical assumptions allow for oppressive silencing. The book concludes with critical reflections on the later Heidegger's thinking of silence and proposes alternatives to his claims concerning the sound beyond sounds, the metaphysics of mystical silence, the uniquely linguistic essence of the mortals, and the loud, idle talk in the age of modern technology.

Unspoken Cheryl Glenn, 2004 In our talkative Western culture, speech is synonymous with authority and influence, while silence is frequently misheard as passive agreement when it often signifies much more. In her groundbreaking exploration of silence as a significant rhetorical art, Cheryl Glenn articulates the ways in which tactical silence can be as expressive and strategic an instrument of human communication as speech itself. Drawing from linguistics, phenomenology, feminist studies, anthropology, ethnic studies, and literary analysis, *Unspoken: A Rhetoric of Silence* theorizes both a cartography and grammar of silence. By mapping the range of spaces silence inhabits, Glenn offers a new interpretation of its complex variations and uses Glenn to contextualize the rhetoric of silence by focusing on selected contemporary examples. Listening to silence and voice as gendered positions, she analyzes the highly politicized silences and words of a procession of figures she refers to as all the President's women, including Anita Hill, Lani Guinier, Jennifer Flowers, and Chelsea Clinton. She also turns an investigative ear to the cultural taciturnity attributed to various Native American groups: Navajo, Apache, Hopi, and Pueblo, and its true meaning. Through these examples, Glenn reinforces the rhetorical contributions of the unspoken, codifying silence as a rhetorical device with the potential to deploy, defer, and defeat power. *Unspoken* concludes by suggesting opportunities for further research into silence and silencing, including music, religion, deaf communities, cross-cultural communication, and the circulation of silence as a creative resource within the college classroom and for college writers.

The Nonverbal Communication Reader Laura K. Guerrero, Joseph A. DeVito, Michael L. Hecht, 1999 A collection of 52 previously published articles designed to serve as a textbook of an undergraduate course in nonverbal communication. Primarily focusing on research in the field of communication, the contributions are organized into sections on beginning perspectives, kinesic clues, appearance and adornment cues, contact

Littell,1877 **Fictions**

of God Frank England,2020-06-08 Fiction and theology share an attempt to articulate what it means to be human They both include narrative accounts of virtue and vice moral worth and moral failure Through the themes of courtesy brutality silence sound and divine absence the sacred nature and character of being human is explored in novels by Anita Brookner Chuck Palahniuk Anne Michaels Richard Powers and Iris Murdoch **Silence in the Land of Logos** Silvia Montiglio,2010-05-17

In ancient Greece the spoken word connoted power whether in the free speech accorded to citizens or in the voice of the poet whose song was thought to know no earthly bounds But how did silence fit into the mental framework of a society that valued speech so highly Here Silvia Montiglio provides the first comprehensive investigation into silence as a distinctive and meaningful phenomenon in archaic and classical Greece Arguing that the notion of silence is not a universal given but is rather situated in a complex network of associations and values Montiglio seeks to establish general principles for

understanding silence through analyses of cultural practices including religion literature and law Unlike the silence of a Christian before an ineffable God which signifies the uselessness of words silence in Greek religion paradoxically expresses the power of logos for example during prayer and sacrifice it serves as a shield against words that could offend the gods Montiglio goes on to explore silence in the world of the epic hero where words are equated with action and their absence signals paralysis or tension in power relationships Her other examples include oratory a practice in which citizens must balance their words with silence in very complex ways in order to show that they do not abuse their right to speak Inquiries into lyric poetry drama medical writings and historiography round out this unprecedented study revealing silence as a force in its own right

Speech and Reticence Carl Johnson, 1973 **Webster's New International Dictionary of the English Language, Based on the International Dictionary 1890 and 1900** William Torrey Harris, Frederic Sturges Allen, 1911
