Paul's Letter to the Romans and Roman Imperialism Ian E Rock, 2017-05-25 Ian E Rock demonstrates that the Letter to the Romans may be seen as an attempt by a subordinate group to redress actual and potential issues of confrontation with the Empire and to offer hope even in the face of death Paul demonstrates that it is God's peace and not Rome's peace that is important that loyalty to the exalted Jesus as Lord and to the kingdom of God not Jupiter and Rome leads to salvation that grace flows from Jesus as Christ and Lord and not from the benefactions of the Emperor If the resurrection of Jesus the crucified criminal of the Roman Empire demonstrates God's power over the universe and death the very instrument of Roman control then the Christ believer is encouraged to face suffering and death in the hope of salvation through this power Paul's theology emerges from and is inextricably bound to the politics of his day the Scriptures of his people and to the critical fact that the God who is One and Lord of all is still in charge of the world **The Empowering**

The Political Economy of Gender in the Twentieth-Century Caribbean V. Barriteau,2001-05-18 Eudine Barriteau exposes the precarious position of women in twentieth century Caribbean societies through analyzing the operations of gender systems She reveals the absence of gender justice and equity and demonstrates that after twenty five years of policies on women Caribbean societies still have not confronted the fundamental problem of women s subordination and the conditions that maintain this The strategies used by developing states to focus on women are criticised as inadequate and it is recommended that state and society pay more attention to understanding the lives of women

Empire and nation-building in the Caribbean Mary Chamberlain, 2013-07-19 This original and exciting book examines the processes of nation building in the British West Indies. It argues that nation building was a more complex and messy affair involving women and men in a range of social and cultural activities in a variety of migratory settings within a unique geo-political context. Taking as a case study Barbados which in the 1930s was the most economically impoverished, racially divided, socially disadvantaged and politically conservative of the British West Indian colonies, *Empire and nation building* tells the messy multiple stories of how a colony progressed to a nation. It is the first book to tell all sides of the independence story and will be of interest to specialists and non specialists interested in the history of Empire, the Caribbean, of decolonisation and nation building.

Emancipation Still Comin' Kortright Davis, 2008-04-01 The Caribbean awash with sun and water is a meeting place of many races, religions and cultures. There, North and South, Latin and Anglo, native, Caribbean, African, black, French and English, white races and cultures meet. In a religious melting pot, Protestant and Catholic, Christian, Afro-Caribbean, Hindu and secularist faiths intertwine, cross-pollinate and go their ways, separate yet together in the divine milieu. Such a place has a rich and revealing story to tell of history, nature and humanity, of the understanding of freedom, of the meaning and scope of theology itself. The key in Caribbean society with its experiences of slavery, colonialism, neocolonialism and structural dependence is emancipation, the pursuit, proclamation and practice of human freedom. Emancipation is the key to Caribbean theology as well. This is the focal point of Kortright Davis's work. He introduces the complex tapestry of this unique society, its social and cultural pluralism, its particular strengths and weaknesses, poverty, dependence, alienation and divisiveness. Davis explores many aspects of Caribbean religion and spirituality, especially the complexities of carnival and its uniquely African soul. He notes too a theological dependency and posits again a unique Caribbean emancipatory theology to establish a theological self-reliance. In emancipatory theology, as in Latin American liberation theology, the source for praxis and reflection is faith linked to historical experience. And the Caribbean experience of continual struggle for identity distinguishes and yet unites Caribbean Christians with Christians everywhere.

Each of the 15 chapters introduces a country, island or group of islands, providing an overview from the arrival of slaves to the current situation. Topics include history, economy, politics, social stratification, race relations, cultural highlights, religion and notable figures. Readers will discover the broad range of languages, political systems, racial makeup, historical uniqueness and cultural

government has since become one of the most sought after commentators on all things political and it's easy to see why McBride's musings provide frank and fascinating accounts of the functions or dysfunctions of the political machine and the peculiar machinations of its operators. Now in *Omnirambles* they are brought together for the first time in one collection. Delivered with the same no holds barred acuity and inimitable wit present in his debut bestseller, McBride once again proves himself to be one of today's most controversial and incisive political voices. Canadian Liberalism and the Politics of Border Control, 1867-1967 Christopher G. Anderson, 2012-11-10. With restrictive immigration policies, increased interdiction, and the detention of asylum seekers, it is clear that Canada's approach to border control has shifted in recent years. Yet such practices are just the latest in a long and complex national history. *Canadian Liberalism and the Politics of Border Control* sheds light on the first century of Canada's efforts to control its borders, framing pivotal moments within a long-standing but often overlooked debate over the rights of non-citizens. Anderson provides valuable insights into contemporary liberal democratic control by demonstrating that today's more restrictive approach reflects traditions deeply embedded within liberal democracies.
