writing version of words through the years and have managed to get by as long as I dealt with the notes as soon as I had written them and the dictator wasn't too quick so it was half memory and half being able to read my own shorthand version. But now everything is so clear and makes complete sense. I take your book on the train every morning and even after the first reading it completely made sense and I could even remember most of what I had read in the first chapter and believe me my memory at retaining new info is not as it used to be. Even when I was reading your abbreviations I was able to see what they were in a lot of cases before I checked the meaning. I am thoroughly enjoying learning a new skill from a book that is so simple to understand and I have already started to implement my new dictionary of words when taking notes. A great big thank you for developing a system that is so easy to understand and completely workable and I am looking forward to showing off my new skills when taking notes which I will actually be able to understand at the next board meeting.
