Modern Times Joan C Beal, 2014-02-24 English in Modern Times describes the development of the English language from 1700 until 1945 and argues that it is in the course of this later modern English period that the characteristics of modern English evolved. This is the first undergraduate text to cover the whole of this important period which has been called the Cinderella of English historical linguistics because of its lack of representation in scholarly literature. This book is sociohistorical in orientation, arguing that social changes in the Anglophone world need to be taken into account if we are to understand the linguistic changes that occurred during this period. Further chapters deal with changes in vocabulary, syntax and morphology and phonology and with the attempts of lexicographers, grammarians and elocutionists to arrest and control these changes by codifying the language. Unlike many earlier histories of English, English in Modern Times does not define English as confined to Standard English, but also considers the development of extraterritorial Englishes and non-standard varieties of British English in the Later Modern period. English Pronunciation in the Eighteenth Century Joan C. Beal, 2002 Thomas Spence 1750-1814 was a native of Newcastle upon Tyne who is best known for his political writings and more particularly for his radical Plan for social reform involving common ownership of the land. One hitherto neglected aspect of Spence's Plan was his proposal to extend the benefits of reading and of correct pronunciation to the lower classes by means of a phonetic script of his own devising, first set out and used in Spence's Grand Repository of the English Language 1775. The Grand Repository was one of many English pronouncing dictionaries produced in the late eighteenth century to satisfy the growing demands for a clear guide to correct pronunciation. It differs from its contemporaries firstly in that it was intended primarily for the lower classes and secondly in that it is the only eighteenth century pronouncing dictionary of English to use a truly phonetic script in the sense of one sound being represented by one symbol. In this fascinating and unique account, Beal pays particular attention to the actual pronunciations advocated by Spence and his contemporaries with a view to reconstructing what was felt to be correct pronunciation in eighteenth century Britain. With broad appeal to linguists and historians alike, this study highlights the importance of pronouncing dictionaries as a resource for the historical phonologist and provides a valuable addition to the limited body of knowledge on eighteenth century pronunciation. *eLexicography in the 21st Century : New Challenges, New Applications* Sylviane Granger, 2010-06 The field of lexicography is undergoing a major revolution. The rapid replacement of the traditional paper dictionary by electronic dictionaries opens up exciting possibilities but also constitutes a major challenge to the field. The eLexicography in the 21st Century New Challenges New Applications conference organized by the Centre for English Corpus Linguistics of the Universit  catholique de Louvain in October 2009 aimed to bring together the many researchers around the world who are working in the fast developing field of electronic lexicography and to act as a showcase for the latest lexicographic developments and software solutions in the field. The conference attracted both academics and industrial partners from 30 different countries who presented electronic dictionary projects dealing with no

less than 22 languages The resulting proceedings volume bears witness to the tremendous vitality and diversity of research in the field The volume covers a wide range span of topics including the use of language resources for lexicographic purposes in the form of lexical databases like WordNet or corpora of different types innovative changes to the dictionary structure afforded by the electronic medium in particular multiple access routes and efficient integration of phraseology specialised dictionaries e g SMS dictionaries sign language dictionaries automated customisation of dictionaries in function of users needs exploitation of Natural Language Processing tools integration of electronic dictionaries into language learning and teaching
