Spending In Congressional Elections A Neverending Spiral:

Spending in Congressional Elections Herb K. Shultz, 1988 This study examines federal campaign spending during 1985 to 1986 congressional election cycle It provides information about the major components of our congressional campaign finance system Among other factors the report analyzes the differences in spending in close Senate and House races between winners and losers The report also scrutinizes spending by incumbents vs challengers and examines the proportion of House and Senate candidates receipts from PAC funds

Money, Elections, And Democracy Margaret Latus Nugent, 2019-04-10 This book is concerned with how the system of congressional campaign financing and proposals for its reform affect key values It focuses on specific problems with the sources of campaign funds undesirable consequences of the campaign finance system and difficulties with reforming the system

Inside Campaign Finance Frank J. Sorauf, 1994-01-01 The issues surrounding money in American elections are continually controversial How much does money affect the outcome of elections Do those who help finance candidates exert undue influence in the making of public policy In this landmark book one of America's most distinguished political scientists explores the dynamics and consequences of campaign finance in America and explodes many myths about this widely debated subject Frank J. Sorauf provides balanced and informative commentary on such critical issues in campaign financing as the growing problems of regulating American campaign finance under the post Watergate legislation of 1974 the forces that affect the supply of money available for campaigning from economic conditions to the competitiveness of elections the increasing power of incumbent candidates in the two way exchange between candidates and contributors political learning and the search for ways to avoid the laws on campaign finance the myths and realities about the role and influence of PACs the vanishing funds for public funding of the presidential campaigns the new middlemen and brokers e.g. the case of Charles Keating the major options for reform private versus public funding the political deadlock over reform parties public opinion and the interests of incumbents the possibility of new levels of competition and spending In 1992 Sorauf argues that the American system of campaign financing has become increasingly stable and institutionalized during the last sixteen years and that the major players in the system PACs individual fund raisers party committees and incumbent candidates now behave in fairly predictable ways His book is a fresh and persuasive account of the importance and the limits of money as a base of political influence in the United States

Linking Citizens to Government Lawrence S. Rothenberg, 1992-07-31 Lawrence Rothenberg examines some of the most elusive aspects of interest group operations through an in depth study of one of the largest interest groups in Washington Common Cause In developing what might be called a membership theory he asks such questions as why do members join a group Who stays and who leaves and why What is the nature of the relationships among the activists the group leaders and the rank and file members How do these relationships shape the lobbying policies of the group How is the lobbying impact of a group related to the nature of its membership In addition Rothenberg analyses the impact the lobbying efforts of Common

Magleby, Candice J. Nelson, 2010-12-01 The amount of money needed to run a competitive congressional campaign is staggering with special interests playing a central role in raising these funds Also of concern is the declining competitiveness of House elections And while recognition of the need to reform campaign financing is widespread partisan and House Senate differences over what these changes should be have complicated legislative efforts Almost 450 million was spent in both the 1986 and 1988 congressional campaigns much of it coming from wealthy contributors and political action committees PACs Increasing criticism of the current system will undoubtedly force Congress to keep campaign finance reform on its legislative agenda Using public opinion election and campaign spending data extensive interviews and a knowledge of practical politics Magleby and Nelson examine the central issues in the campaign financing debate the cost of congressional campaigns financial participation by the political parties and PACs existing and proposed limits on contributions and expenditures public financing and the role of the Federal Election Commission They propose a comprehensive package of reforms that will undoubtedly serve as a guide for future legislation **Beyond the 30-second Spot** Paul S. Hoff, 1988 The potential of radio television and more recently cable to serve as this country's electronic soapbox has long been recognized Yet during every election period there are complaints about the way candidates use the electronic media As disenchantment with the current system has mounted commentators and members of Congress have proposed ways to change the laws governing political broadcasting This study analyzes these proposals that would reform political advertising **Consumer Sourcebook** A. Neuborne argues that the structure of the First Amendment as well as of the entire Bill of Rights was more intentional than most people realize beginning with the internal freedom of conscience and working outward to freedom of expression and finally freedom of public association This design Neuborne argues was not to protect discrete individual rights such as the rights of corporations to spend unlimited amounts of money to influence elections but to guarantee that the process of democracy continues without disenfranchisement oppression or injustice Neuborne who was the legal director of the ACLU and has argued numerous cases before the Supreme Court invites us to hear the music within the form and content of Madison s carefully formulated text When we hear Madison s music a democratic ideal flowers in front of us and we can see that the First Amendment gives us the tools to fight for campaign finance reform the right to vote equal rights in the military the right to be full citizens and the right to prevent corporations from riding roughshod over the weakest among us Neuborne gives us an eloquent lesson in democracy that informs and inspires In the dark art of lawyering Neuborne has always been considered a white knight New York *The Battle Over Health Care* Rosemary Gibson,Janardan Prasad Singh,2012-04-08 As the most substantial health care reform in almost half a century President Obama s health care overhaul was as historic as it was divisive In its aftermath the debate continues Drawing on decades of experience in health care policy health care delivery reform and economics Rosemary Gibson and Janardan Prasad Singh provide a non partisan analysis of the reform and what it means for America and its future The authors shine a light on truths that have been hidden behind a raucous debate marred by political correctness on both sides of the aisle They show how health care reform was enacted only with the consent of health insurance companies drug firms device manufacturers hospitals and other special interests that comprise the medical industrial complex which gained millions of new customers with the stroke of a pen Health care businesses in a market oriented system are designed to generate revenue which runs counter to affordable health care Gibson and Singh take a broader perspective on health care reform not as a single issue but as part of the economic life of the nation The national debate unfolded while the banking and financial system teetered on the brink of collapse The authors trace uncanny similarities between the health care industry and the unfettered banking and financial sector They argue that a fast changing global economy will have profound implications for the country s economic security and the jobs and health care benefits that come with it and they predict that global competition will shape the future of employer provided insurance more than the health care reform law **Whitaker's Book List** ,1989 **Toward Nuclear Disarmament And Global Security** Burns H Weston,2019-06-04 This text is designed to provide students and others with a theoretical and factual base for understanding the complex questions posed by continued reliance on nuclear weapons to protect geopolitical interests In Part One the authors examine the destructiveness and cost of modern nuclear arsenals and offer both normative and systemic explanations  Suraphon Pathānwanit,2001
