Möbius Media Jeffrey A. Tolbert, Michael Dylan Foster, 2024-07-15 Möbius Media explores the interplay of popular and traditional cultures reminding readers that expressive cultural forms are never mutually exclusive but exist in a state of creative tension and interconnection merging and redefining one another With this insightful volume editors Jeffrey Tolbert and Michael Dylan Foster build on their earlier work *The Folkloresque* by considering how folklore is understood and mobilized within a variety of popular discourses and commercial marketplaces The collection challenges readers to consider the stakes of labeling something as folklore or folk It demonstrates the rhetorical and political potency of ideas such as traditionality heritage and community in storytelling venues including films games and even podcasts in the construction and policing of genres and in the selling of commodities By interrogating popular media and expressions that make use of ideas such as folklore tradition authenticity and heritage Möbius Media further develops the theoretical applicability of the folkloresque concept and encourages productive interdisciplinary dialogue Through the lens of the folkloresque scholars can better see the hidden ideologies that inform the marketplace and influence contemporary modes of communication This interdisciplinary work will appeal to scholars and students of cultural studies media studies popular culture literature anthropology and related areas

Mathland Michele Emmer, 2004 The latest book in our successful series *IT Revolution in Architecture* provides a concise summary of how our perception of the space around us has radically changed in recent years We could even go as far as to say that we ourselves shape the space around us according to how our perceptions of the universe alter and develop and mathematics plays a pivotal role In this book the virtual protagonist of the journey through the concept of space is the square Michele Emmer born in 1945 is Professor of Mathematics at the University La Sapienza in Rome and has authored many books and films on the subject of mathematics and art and culture He was also responsible for exhibitions at the Venetian Biennale and the Cit des Sciences La Villette in Paris
