The Artist's Daughter Hilary Loftus, 2014-12-10 They are all there Spread across the Web pages Caught in a family net that holds them firmly in line No risk of losing their places One is a grandson another a nephew I was a daughter and this book is about my immediate family and the family of my childhood It is about our joyous childhood journeys around Britain It is about a war which encompassed us all and it is about peace and my wanderings across a once war torn Europe ending finally in Australia My father was the one who started the family At least that is what I thought as a child and then all the others before him impressed themselves upon my awareness Of course there was my mother and her family and the parents of my father Then there was my husband and all the folk who led to his beginning He made my life complete and we started our own small tree England was our joy and our starting point but from there our wanderings encircled Europe The wanderings of other family members encircled the globe and gathered into the family web all those other nationalities which have made us a truly international family I realised that there was no way in which I could determine the start of this family Now I look at the many names each perhaps the start of another branch and I know that I shall never know the end of this vital flowering tree The tree will live on The flowers like the ones I have always loved will fall but they will be replaced by others to carry the seed on into the future and across the world Where our tree eventually falls others will grow

Pennington,Martha R. Severens,2015-12-16 The radical changes wrought by the rise of the salon system in nineteenth century Europe provoked an interesting response from painters in the American South Painterly trends emanating from Barbizon and Giverny emphasized the subtle textures of nature through warm color and broken brush stroke Artists subject matter tended to represent a prosperous middle class at play with the subtle suggestion that painting was indeed art for art s sake and not an evocation of the heroic manner Many painters in the South took up the stylistics of Tonalism Impressionism and naturalism to create works of a very evocative nature works which celebrated the Southern scene as an exotic other a locale offering refuge from an increasingly mechanized urban environment Scenic Impressions offers an insight into a

particular period of American art history as borne out in seminal paintings from the holdings of the Johnson Collection of Spartanburg South Carolina By consolidating academic information on a disparate group of objects under a common theme and important global artistic umbrella Scenic Impressions will underscore the Johnsons commitment to illuminating the rich cultural history of the American South and advancing scholarship in the field specifically examining some forty paintings created between 1880 and 1940 including landscapes and genre scenes A foreword written by Kevin Sharp director of the Dixon Gallery and Gardens in Memphis Tennessee introduces the topic Two lead essays written by noted art historians Estill Curtis Pennington and Martha R Severens discuss the history and import of the Impressionist movement abroad and domestically and specifically address the school s influence on art created in and about the American South The featured works of art are presented in full color plates and delineated in complementary entries written by Pennington and Severens Also included are detailed artist biographies illustrated by photographs of the artists extensive documentation and indices Featured artists include Wayman Adams Colin Campbell Cooper Elliott Daingerfield G Ruger Donoho Harvey Joiner John Ross Key Blondelle Malone Lawrence Mazzanovich Paul Plaschke Hattie Saussy Alice Ravenel Huger Smith Anthony Thieme and Helen Turner

Suburban Landscapes Paul H. Mattingly, 2003-04-01 Certificate of Commendation from the American Association for State and Local History Most Americans today live in the suburbs Yet suburban voices remain largely unheard in sociological and cultural studies of these same communities In Suburban Landscapes Culture and Politics in a New York Metropolitan Community Paul Mattingly provides a new model for understanding suburban development through his narrative history of Leonia New Jersey an early commuter suburb of New York City Although Leonia is a relatively small suburb a study of this kind has national significance because most of America s suburbs began as rural communities with histories that predated the arrival of commuters and real estate developers Examining the dynamics of community cultural formation Mattingly contests the prevailing urban and suburban dichotomy In doing so he offers a respite from journalistic cliches and scholarly bias about the American suburb providing instead an insightful nuanced look at the integrative history of a region Mattingly examines Leonia s politics and culture through three eras of growth and change 1859-94 1894-1920 and 1920-60 A major part of Leonia s history Mattingly reveals was its role as an attractive community for artists and writers many contributors to national magazines who created a suburban aesthetic The work done by generations of Leonias artists provides an important vantage and a wonderful set of tools for exploring evolving notions of suburban culture and landscape which have broad implications and applications Oral histories census records and the extensive work of Leonia s many artists and writers come together to trace not only the community s socially diverse history but to show how residents viewed the growth and transformation of Leonia as well
