The Arun A Natural History Of The Worlds Deepest Valley:

The Arun Edward W. Cronin, 1979 Recounts the four year scientific exploration of the famed Arun Valley in the Himalayan mountains of far eastern Nepal a team of 14 wildlife specialists who conducted the first ecological survey of the Arun s rich and abundant wildlife Jacket **World Heritage Twenty Years Later**, 1992 And conclusions of the workshop on the World Heritage Convention held during the IV World Congress on National Parks and Protected Areas Caracas Venezuela February 1992 Hemanta Mishra and N Ishwaran From strength to strength World Heritage in its 20th year Jim Thorsell World Heritage at risk James R Paine The World Heritage Convention and protected landscapes Michael Beresford and P H C Lucas Wood Buffalo World Heritage Site threats and possible solutions Kevin McNamee Kluane and Wrangell St Elias national parks joint management of North America s largest wilderness Michael Fay Charting a course for a greater Yellowstone tomorrow Dennis Click Colombian Panamanian border national parks in Dari n Dilver Octavio Pintor Peralta Public participation in the management of Huascar n World Heritage Site Miriam Torres Angeles Scientific research in Bialowieza World Heritage Site Czeslaw Okolow Buffer zone management in Sinharaja World Heritage Forest H M Bandaratillake Environmental impacts of back country tourism on three sides of Everest Alton C Byers and Kamal Banskota Sociocultural impacts of mountain tourism on Nepal s Sagarmatha Everest World Heritage Site implications for sustainable tourism David W Robinson Manas World Heritage in danger Sanjoy Deb Roy The effects of war on World Heritage sites and protected areas in Ethiopia Tadesse Gebre Michael Tesfaye Hundessa and Jesse C Hillman The International Foundation of the Banc d Arguin Luc Hoffman and Pierre Campredon Ngorongoro striking a balance between conservation and development Scott L Perkin and Paul J Mshanga Monitoring the environmental impacts of tourism on the Great Barrier Reef World Heritage Site Simon Woodley Tourism development and Te Wahipounamu Bruce Watson Application of the World Heritage Convention to Antarctica and the islands of the Southern Ocean Paul Dingwall *Bibliography of Natural History Travel Narratives* Anne S. Troelstra, 2017-06-01 Anne Troelstra s fine bibliography is an outstanding and ground breaking work He has provided the academic world with a long needed bibliographical record of human endeavour in the field of the natural sciences The travel narratives listed here encompass all aspects of the natural world in every part of the globe but are especially concerned with its fauna flora and fossil remains Such eyewitness accounts have always fascinated their readers but they were never written solely for entertainment fragmentary though they often are these narratives of travel and exploration are of immense importance for our scientific understanding of life on earth providing us with a window on an ever changing and often vanishing natural world Without such records of the past we could not track document or understand the significance of changes that are so important for the study of zoogeography With this book Troelstra gives us a superb overview of natural history travel narratives The well over four thousand detailed entries ranging over four centuries and all major western European languages are drawn from a wide range of sources and include both printed books

and periodical contributions While no subject bibliography by a single author can attain absolute completeness Troelstra's work is comprehensive to a truly remarkable degree The entries are arranged alphabetically by author and chronologically by the year of first publication under the author's name A brief biography with the scope and range of their work is given for each author every title is set in context the contents including illustrations are described and all known editions and translations are cited In addition there is a geographical index that cross refers between authors and the regions visited and a full list of the bibliographical and biographical sources used in compiling the bibliography Yeti Daniel C.

Taylor, 2018-02-15 As it turned out young Daniel never outgrew the enchantment of the mysterious Yeti the Abominable Snowman His search for the enigmatic creature of Himalayan legends spread over many decades from 1956 until 2015 Daniel C Taylor visited almost all valley systems in his quest to explain the Yeti's footprints But to his surprise solving the footprint mystery did not answer the Yeti question As his quest evolved Taylor went on to create two massive national parks around Mount Everest Equipped with abundant knowledge of the Himalaya Taylor tells a story that is captivating and full of surprises He looks back at his exploration of the 2 000 mile wide Himalaya and talks about bioresilience as a parallel dynamic to biodiversity thus widening the scope of our understanding of ecology Yeti The Ecology of a Mystery is the extraordinary story of one man's conservation impact and what it means for people to be part of the wild in today's increasingly tamed world Sherlock Holmes on the Roof of the World Thomas Kent Miller, 2022-07-18 Holmes framed for murder Who is the mysterious Issa The sounds of running and men crying out came closer Suddenly Sigerson's door burst open and an army of yellow and maroon clad police monks fell upon us dragging us out into the street without so much as a word of explanation through the mud and dung and then east across the Bridge of the Pleiades and on to the Jo Kang the Tibetan cathedral the Holy of Holies of all Buddhist Asia then along several corridors and down numerous staircases and finally we found ourselves in the presence of the High Regent himself the fourteen year old Dalai Lama You are holding one of the rare stories to come to light involving Sigerson the name Sherlock Holmes went by during the years when the world thought he was dead his Great Hiatus This story also has the distinction of being the true first sequel to Horace Holly's She which was published in 1887 under the byline of Holly's agent H Rider Haggard The only heretofore known sequel Ayesha The Return of She was published in 1904 and records events that occurred two decades after She This new tale then is a record of the events that took place between the two previously published adventures Enjoyable and interesting I found Miller's knowledge of Tibet and Buddhism fascinating He writes a fine story in what is quite obviously a labor of love A must book to obtain Gary Lovisi in SHERLOCK HOLMES The Great Detective in Paperback The solving of the crime by Holmes Sigerson was true Canon indeed A pleasure John Bennett Shaw **True Nature** Lance Richardson, 2025-10-14 The first biography of Peter Matthiessen the novelist naturalist and Zen roshi whose trailblazing work championed Native American rights and helped usher in the modern environmental movement by award winning writer Lance Richardson A stunning

formidable achievement by a brilliant biographer Lance Richardson takes his readers on a wild ride with Peter Matthiessen Kai Bird Pulitzer Prize winning co author of American Prometheus Peter Matthiessen 1927 2014 a towering figure of twentieth century American letters achieved so much during his lifetime in so many different areas that people have struggled to pin him down While ambivalent about his WASP privilege as a teenager he demanded that his name be removed from the New York Social Register he attended Yale and cut his teeth in postwar Paris co founding The Paris Review as he worked undercover for the CIA But then after a rebellious stint as a Long Island fisherman he escaped into a series of wild expeditions floating through the Amazon to recover a prehistorical fossil embedding with a tribe in Netherlands New Guinea swimming with sharks off the coast of Australia His novels inspired by his travels were unclassifiable meditations about Caymanian turtle hunters and frontier outlaws in the Florida Everglades Meanwhile his nonfiction became legendary nature books like Wildlife in America key parts of the canon of emergent environmental writing says Bill McKibben as well as advocacy journalism supporting Cesar Chavez Leonard Peltier and Native American land claims Underlying all Matthiessen s disparate pursuits was the same existential search to find a cure for deep restlessness This search was most profoundly articulated in The Snow Leopard his famous account of a 250 mile wildlife survey across the Himalayas In True Nature Lance Richardson reconstructs the full scope of a spiritual quest that ultimately led Matthiessen even as he inflicted great pain on his family to the highest ranks of Zen Drawing on rich primary sources and hundreds of interviews Richardson depicts Matthiessen s life with page turning immediacy while also illuminating how the writer s uncanny gifts enabled him to sense connections between ecological decline racism and labor exploitation to express eloquently and presciently that in a damaged human habitat all problems merge

Sasquatch: Legend Meets Science Jeff Meldrum, 2007-04-01 In this landmark work on a subject too often dismissed as paranormal or disreputable Jeff Meldrum gives us the first book on sasquatch to be written by a scientist with impeccable academic credentials an objective look at the facts in a field mined with hoaxes and sensationalism Meldrum reports on the work of a team of experts from a wide variety of fields who were assembled to examine the evidence for a large yet undiscovered North American primate He reviews the long history of this mystery which long predates the bigfoot flap of the late fifties and explains all the scientific pros and cons in a clear and accessible style amplified by over 150 illustrations Anyone who has pondered the mysteries of human evolution will be fascinated and eager to join Dr Meldrum in drawing their own conclusion At the Publisher s request this title is being sold without Digital Rights Management Software DRM applied

trilogy Thomas Kent Miller is for the first time publishing in one volume the wide variety of millennia and centuries old lost manuscripts that he has serendipitously unearthed over 30 years These writings are all linked by their featuring characters introduced by H Rider Haggard prime mover of the lost race literary genre over the course of sixteen books written from 1885 through 1927 and to a lesser extent indeed only referenced obliquely The Great Detective over three decades

High Altitude Primates Nanda B. Grow, Sharon Gursky-Doyen, Alicia Krzton, 2013-11-19 The basic goal of the volume is to compile the most up to date research on how high altitude affects the behavior ecology evolution and conservation status of primates especially in comparison to lowland populations Historically the majority of primate studies have focused on lowland populations However as the lowlands have been disappearing more and more primatologists have begun studying populations located in higher altitudes High altitude populations are important not only because of their uniqueness but also because they highlight the range of primate adaptability and the complex variables that are involved in primate evolution These populations are good examples of how geographic scales result in diversification and or speciation Yet there have been very few papers addressing how this high altitude environment affects the behavior ecology and conservation status of these primates
