**The Astrologers and Their Creed, an Historical Outline** Christopher McIntosh, 1969      **A Cultural History of Tarot** Helen Farley, 2009-08-13 The enigmatic and richly illustrative tarot deck reveals a host of strange and iconic mages such as The Tower The Wheel of Fortune The Hanged Man and The Fool over which loom the terrifying figures of Death and The Devil The 21 numbered playing cards of tarot have always exerted strong fascination way beyond their original purpose and the multiple resonances of the deck are ubiquitous From T S Eliot and his wicked pack of cards in *The Waste Land* to the psychic divination of Solitaire in Ian Fleming's *Live and Let Die* and from the satanic novels of Dennis Wheatley to the deck's adoption by New Age practitioners the cards have in modern times become inseparably connected to the occult They are now viewed as arguably the foremost medium of prophesying and foretelling Yet as the author shows originally the tarot were used as recreational playing cards by the Italian nobility in the Renaissance It was only much later in the 18th and 19th centuries that the deck became associated with esotericism before evolving finally into a diagnostic tool for mind body and spirit This is the first book to explore the remarkably varied ways in which tarot has influenced culture Tracing the changing patterns of the deck's use from game to mysterious oracular device Helen Farley examines tarot's emergence in 15th century Milan and discusses its later associations with astrology kabbalah and the Age of Aquarius      *The Only Astrology Book You'll Ever Need* Joanna Martine Woolfolk, 2012-11-13 Everyone's favorite astrology book having sold over 700 000 copies includes a PC and Mac compatible CD where you can create your own chart This edition of *The Only Astrology Book You'll Ever Need* still includes detailed information about how to cast your own chart the old fashioned way and more importantly how to interpret it once you're finished And the CD allows the reader to cast his or her chart in just a few minutes by inputting the date time and place of birth into the computer producing a personalized astrological chart in just a few minutes Once the reader's chart is created he or she is directed to the corresponding pages in the book to read further about moon signs sun signs ascending signs placement of the planets in the home and much more      **The Rosicrucians** Christopher McIntosh, 1998-09-01 An introduction to the spiritual movement that influenced Western esoteric tradition from alchemy and Freemasonry to the Hermetic Order of the Golden Dawn This scholarly work traces the mysterious Fraternity of the Rosy Cross from its inception upon the discovery of Father Christian Rosenkreuz's perfectly preserved body in a seven sided vault to present day organizations in America McIntosh includes a survey of Rosicrucianism in America exploring the latter day survivals of Bacon's New Atlantis Perfect for students of the Western Mystery tradition who want an introduction to Rosicrucianism with good resources for further study      *The Only Astrology Book You'll Ever Need* Joanna Martine Woolfolk, 2008-06-11 OVER HALF A MILLION COPIES SOLD This is the classic guide to astrological history legend and practice Readers will enjoy simple computer accurate planetary tables that allow anyone born between 1900 and 2100 to pinpoint quickly their sun and moon signs discover their ascendants and map out the exact positions of the planets at the

The Twilight of Pluto John Michael Greer,2022-02-01 Explains in detail how the demotion or proved nonexistence of a planet marks the beginning of a roughly 30 year period in which that planet s influence wanes Explores Pluto s arc of influence on individual and collective life in depth from its discovery in 1930 to the end of its influence in 2036 Offers examples from other demoted planets such as Ceres whose fifty year reign as a planet corresponds very closely to the Romantic Era of history Recent research in astrology has shown that the discovery of a new planet correlates with the emergence of a new set of influences in individual and collective life As John Michael Greer reveals the opposite is also true the demotion of a planet correlates with the decline of a set of influences into the background Exploring the waxing and

waning of planetary influences in astrology Greer explains in detail how the demotion or proved nonexistence of a planet marks the beginning of a roughly 30 year period in which that planet's influence fades out He examines several examples of planet demotion including Ceres whose influence began to take shape some 30 years before its discovery in 1801 and gradually faded over the three decades following its demotion in the 1850s Examining Pluto's astrological influence in depth from the beginning of the search for Planet X in 1900 to the end of its influence in 2036 the author shows how during the Plutonian era the concept of cosmos from the ancient Greek meaning that which is beautifully ordered was in eclipse Pluto's influence led to the rejection of unity beauty and order exemplified through the splitting of the atom by physicists the splitting of the individual into conscious and subconscious halves by psychoanalysts and the splitting of the world into warring camps by politicians Offering an essential guide not only to the astrology of the future but also to the twilight of the Plutonian era Greer shows how as Pluto's influence fades out in the years ahead a great many disruptive phenomena of the recent past will fade with it

**The Decadence of Delphi** Kristin M. Heineman, 2017-09-22 Examining the final years of Delphic consultation this monograph argues that the sanctuary operated on two connected yet distinct levels the oracle which was in decline and the remaining religious political and social elements at the site which continued to thrive In contrast to Delphi other oracular counterparts in Asia Minor such as Claros and Didyma rose in prestige as they engaged with new theological issues Issues such as these were not presented to Apollo at Delphi and this lack of expertise could help to explain why Delphi began to decline in importance The second and third centuries AD witnessed the development of new ways of access to divine wisdom Particularly widespread were the practices of astrology and the Neoplatonic divinatory system theurgy This monograph examines the correlation between the rise of such practices and the decline of oracular consultation at Delphi analyzing several examples from the Chaldean Oracles to demonstrate the new interest in a personal soteriological religion These cases reveal the transfer of Delphi's sacred space which further impacted the status of the oracle Delphi's interaction with Christianity in the final years of oracular operation is also discussed Oracular utterances with Christian overtones are examined along with archaeological remains which demonstrate a shift in the use of space at Delphi from a pagan Panhellenic center to one in which Christianity is accepted and promoted

Allan Hanson,2012-02-01 2007 CHOICE Outstanding Academic Title In this highly original book anthropologist F Allan Hanson reveals an entirely unanticipated but vital link between two of the most widely discussed features of contemporary American society the computer revolution and the culture wars Hanson argues that the culture wars stem from a divergence in the evolutionary paths of society and culture Societies have evolved significantly over the last few millennia from small bands of farmers or hunter gatherers into huge internally diverse nation states while cultures the closed systems of meanings and symbols that kept small face to face societies together have failed to keep pace If cultures became more open Hanson contends then the maladaptive rupture between society and culture would be healed and the

clashes that currently beset us would be greatly diminished Interweaving lucid analysis with concrete case studies of common law education and other areas of contemporary life Hanson demonstrates how the widespread use of computers is in fact encouraging more originality and open mindedness with the potential to ease polarization and calm the culture wars
