It is not necessary to have any foreign capital, as there is now enough here. We believe that a number of banks in America is needed now.

There is no doubt that the use of the word "billion" is a common source of confusion. The word "billion" is used in two different ways: to mean a thousand millions (1,000,000,000) or to mean a million millions (1,000,000,000,000). The latter is the correct meaning in the United States, but the former is used in many other countries. This is why it is important to specify the meaning of the word when it is used in a technical or scientific context.

Dr. Donald R. Lamm, of University Heights, says that the "average" female is not as "strong" as the male. He adds:

**Abstract** The purpose of this study was to determine the effect of a 12-week training program on the heart rate (HR) and blood pressure (BP) of sedentary, middle-aged men. The subjects were divided into two groups: a control group and an exercise group. The control group consisted of 10 men who did not exercise, and the exercise group consisted of 10 men who exercised for 12 weeks. The HR and BP were measured at baseline and at the end of the 12-week period. The results showed that the exercise group had a significant decrease in both HR and BP compared to the control group. The HR of the exercise group decreased from 72 to 68 beats per minute, and the BP decreased from 120/80 to 110/70 mmHg. The control group showed no significant change in HR or BP. These findings suggest that a 12-week training program can effectively reduce HR and BP in sedentary, middle-aged men.
