*America's Black Capital* Jeffrey O. G. Ogbar, 2023-11-14 The remarkable story of how African Americans transformed Atlanta the former heart of the Confederacy into today's Black mecca Atlanta is home to some of America's most prominent Black politicians artists businesses and HBCUs Yet in 1861 Atlanta was a final contender to be the capital of the Confederacy Sixty years later long after the Civil War it was the Ku Klux Klan's sacred Imperial City America's Black Capital chronicles how a center of Black excellence emerged amid virulent expressions of white nationalism as African Americans pushed back against Confederate ideology to create an extraordinary locus of achievement What drove them historian Jeffrey O. G. Ogbar shows was the belief that Black uplift would be best advanced by forging Black institutions America's Black Capital is an inspiring story of Black achievement against all odds with effects that reached far beyond Georgia shaping the nation's popular culture public policy and politics

**The Culture of Property** LeeAnn Lands,2011-08-15 This history of the idea of neighborhood in a major American city examines the transition of Atlanta Georgia from a place little concerned with residential segregation tasteful surroundings and property control to one marked by extreme concentrations of poverty and racial and class exclusion Using Atlanta as a lens to view the wider nation LeeAnn Lands shows how assumptions about race and class have coalesced with attitudes toward residential landscape aesthetics and home ownership to shape public policies that promote and protect white privilege Lands studies the diffusion of property ideologies on two separate but related levels within academic professional and bureaucratic circles and within circles comprising civic elites and rank and file residents By the 1920s following the establishment of park neighborhoods such as Druid Hills and Ansley Park white home owners approached housing and neighborhoods with a particular collection of desires and sensibilities architectural and landscape continuity a narrow range of housing values orderliness and separation from undesirable land uses and undesirable people By the 1950s these desires and sensibilities had been codified in federal state and local standards practices and laws Today Lands argues far more is at stake than issues of access to particular neighborhoods because housing location is tied to the allocation of a broad range of resources including school funding infrastructure and law enforcement Long after racial segregation has been outlawed white privilege remains embedded in our culture of home ownership

Lost in the USA Deborah Gray White,2017-03-09 Remembered as an era of peace and prosperity turn of the millennium America was also a time of mass protest But the political demands of the marchers seemed secondary to an urgent desire for renewal and restoration felt by people from all walks of life Drawing on thousands of personal testimonies Deborah Gray White explores how Americans sought better ways of living in and dealing with a rapidly changing world From the Million Man Million Woman and Million Mom Marches to the Promise Keepers and LGBT protests White reveals a people lost in their own country Mass gatherings offered a chance to bond with like minded others against a relentless tide of loneliness and isolation By participating individuals opened a door to self discovery that energized their quests for order autonomy personal meaning and fellowship in a society that seemed hostile to such deeper human needs Moving forward in time White also shows what marchers found out about themselves and those gathered around them The result is an eye opening reconsideration of a defining time in contemporary America
