The Attraction Paradigm:

The Attraction Paradigm Donn Byrne, 1971 **Demand Characteristics and the Attraction Paradigm** KAREN B. NICHOLAS, 1979 *The Attraction Paradigm Revisited* Benjamin J. Broome, 1980 **Understanding Research in Personal Relationships** William Dragon, Steve Duck, 2005-05-01

Understanding Research in Personal Relationships is a comprehensive introduction to the key readings on human and close relationships. Organized into twelve thematic chapters with editorial commentary throughout, the editors offer a critical reading of the major research articles in the field of relationship studies published in the last few years. Scholarly papers two per chapter are presented in an abridged form and critiqued in a carefully structured way that instructs students on the way to read research and to critically evaluate research in this field. The book therefore has a thoroughly didactic focus as the student is given historical, theoretical, and methodological contexts to each article as well as an explanation of key terms and ideas.

Congregational Communion Francis J. Bremer, 1994

Puritan studies is one of the most heavily researched areas of scholarship in both England and the United States. In this in-depth exploration of the relationship between Puritans in England and New England, Francis J. Bremer challenges the view that the colonists turned away from English Puritans in the 1640s. Rather, he convincingly demonstrates that the two communities retained a complex symbiotic connection, a communion throughout the seventeenth century, and that the clergy on both sides of the Atlantic saw themselves as closely linked in their spiritual mission. Focusing on the interaction between social experience and the shaping of belief, Bremer thoroughly analyzes how Puritan clergymen of a congregational persuasion came together in a godly communion and examines how that communion sustained them in times of trouble and physical dispersal. He explains the social forces that led to the articulation of early Congregationalism and details the significance of trans-Atlantic religious exchanges through correspondence, associations, publications, and other devices. Bremer traces the first generation Puritans from their formative years at Cambridge University through the creation of a network of clerical friendships through the flight to Holland and to New England to the death of Oliver Cromwell and the beginnings of division within Congregationalism. This thought-provoking volume makes a solid contribution to Puritan studies and offers a basis for further discussions of the trans-Atlantic aspects of the Congregational community.

Perceived Interorganizational Similarity-dissimilarity and the Attraction Paradigm Lynn Thomas Keith, 1974 **Communication Yearbook 14** James A. Anderson, 2012-03-22

Communication Yearbook 14, originally published in 1991, delves into research concerned with audiences, their effect on the mass media, and how the mass media effect them; the quality of mass media performance and public opinion; the study of contemporary media from an organization studies approach; the implications of propaganda; the pressure of public opinion and media agenda setting; among other issues. Commentaries provide refreshing viewpoints to each chapter, enhancing each chapter with complementary or sometimes competing perspectives. Once again, Anderson has brought together an internationally distinguished team of contributors who have created a forum for discussing

cutting edge topics in the field **Psychology in India** Braj Bhushan, 2025-06-12 This volume presents the life and work of 62 prominent Indian psychologists with each chapter illustrating their life and work The nature and framework of each chapter is uniform encompassing a brief biography of the psychologists their affiliations with various institutions and most prominently their contributions to the field of psychology The major highlight of the book is the collection of work of Indian scholars recorded in the form of research articles book chapters and books some of which were even used to develop models by Western scholars but never received their due credit The research activities conducted at universities and institutions have been the backbone of scientific progress and they are also highlighted here especially the contributions of the Research Designs and Standards Organisation RDSO Lucknow Defence Institute of Psychological Research DIPR Delhi and Institute of Banking Personnel Selection IBPS Mumbai This is the first book of this kind that chronologically presents the life and work of Indian psychologists It will be useful to students of Psychology Behavioural Sciences Sociology and Social Work It will also be an invaluable reference text for those working on the history of psychology **Communication Yearbooks Vols 6-33 Set** Various, 2021-12-02 The Communication Yearbook annuals originally published between 1977 and 2009 publish diverse state of the discipline literature reviews that advance knowledge and understanding of communication systems processes and impacts across the discipline Topics dealt with include Communication as Process Research Methodology in Communication Communication Effects Taxonomy of Communication and European Communication Theory Information Systems Division Mass Communication Research Mapping the Domain of Intercultural Communication Public Relations Feminist Scholarship Communication Law and Policy Visual Communication Communication and Cross Sex Friendships Across the Life Cycle Television Programming and Sex Stereotyping InterCultural Communication Training Leadership and Relationships Media Performance Assessment Cognitive Approaches to Communication Driver Behaviour and Training Dr Lisa Dorn, 2012-10-28 Research on driver behaviour has clearly demonstrated that the goals and motivations a driver brings to the driving task are important determinants for driver behaviour The objective of the book and of the conference on which it is based is to describe and discuss recent advances in the study of driving behaviour and driver training It bridges the gap between practitioners in road safety and theoreticians investigating driving behaviour from a number of different perspectives and related disciplines The book is timely in its aim of defining new approaches to driver training methodology based on decades of empirical research on driver behaviour The contributing road safety researchers and professionals consider the kinds of methods that are effective in teaching drivers the higher level skills needed to be a safe competent driver The readership includes road safety researchers from a variety of different academic backgrounds senior practitioners in the field from regulatory authorities and professional driver training organisations such as the police service and private and public sector personnel who are concerned with improving road safety *Handbook of Social Psychology* John DeLamater, 2006-11-24 Psychology focusing on processes that occur inside the individual and Sociology focusing on social

Social Psychology of Helping Relations Arie Nadler,2020-01-29 Examines the major aspects of giving and receiving help in interpersonal and intergroup relations This unique book extends the traditional emphasis on interpersonal help giving in order to consider a wider spectrum of interpersonal and intergroup helping relations Help giving is viewed as reflecting

people's care for others while at the same time dependency on help and giving help imply lower and higher places on the social hierarchy respectively. It studies the psychology of what goes into helping someone and integrates experimental work conducted in the social psychological laboratory with applied research from volunteer organizations, schools and work and family environments. In addition to research on the giving of help, the book considers the recipient of help and reviews research and theory on people's readiness to seek and receive help. Unlike much of past research in this context that has been interested in the generosity question, i.e. whether or not people help others, the book considers how different kinds of assistance, i.e. autonomy and dependency oriented help, shape helping interactions. It then goes beyond the analyses of the immediate helping interaction to consider the long term consequences of giving and receiving help. Finally, the book addresses theory and research on intergroup helping relations.

Social Psychology of Helping Relations: Solidarity and Hierarchy begins with a general introduction to the topic. It then offers a series of broad perspectives covering the philosophical and psychological theory, evolution and overview of social psychological research. Next, the book looks at the social psychology of helping relations, examining the parties involved and the why behind their actions. The positives and negatives of giving and receiving assistance and the links between status and interpersonal and intergroup helping relations are also covered. It considers how giving, seeking and receiving help maintains or challenges status relations between individuals and groups. The book finishes with a conclusion that wraps up the many lessons learned.

Looks at solidarity and inequality in social interactions. Examines why people are ready to give and receive help. Studies the consequences of giving and receiving help. Highlights important implications to different kinds of help beyond the dichotomy between giving and receiving help or not. Addresses research and theory on interpersonal and intergroup helping relations. The implications of helping relations for personal and social change.

Social Psychology of Helping Relations: Solidarity and Hierarchy is an ideal book for advanced students, researchers and individuals interested in social psychology, counselling, social work, Sociology and Political Science.

Justice and Conflicts Elisabeth Kals, Jürgen Maes, 2011-10-20

Central to the book are questions concerning the existence and the characteristics of justice motives and concerning the influence that justice motives and justice judgements have on the emergence but also the solution of social conflicts. Five main themes will be addressed:

- 1 Introduction and justice motive
- 2 organizational justice
- 3 ecological justice
- 4 social conflicts and
- 5 solution of conflicts

The authors of the editions are scholars of psychology as well as distinguished experts from various other disciplines including sociologists, economists, legal scholar, educationalists and ethicists. The common ground of all contributors is their independent conduction of empirical research on justice issues. Apart from the German contributors, authors represent scholars from the US, India, Korea, New Zealand and various European countries: Austria, Switzerland, the Netherlands, UK, Sweden.
