INTRODUCTION

The Auditing Standards Committee of the Auditing Section of the American Accounting Association is pleased to provide comments on the *PCAOB Rulemaking Docket Matter No. 026: Proposed Auditing Standards Related to the Auditor's Assessment of and Response to Risk and Conforming Amendments to PCAOB Standards*. (Please see http://www.pcaobus.org/Rules/Docket_026/2008-10-21_Release_No_2008-006.pdf for the full text of PCAOB Release No. 2008–006.) We very much appreciate the opportunity to provide input.

The views expressed below are those of the members of the Auditing Standards Committee and do not reflect an official position of the American Accounting Association. In addition, the comments reflect the overall consensus view of the Committee, not necessarily the views of every individual member. We hope that the following comments and suggestions are helpful and will assist in finalizing the proposed guidance.

GENERAL COMMENTS

The Committee commends the PCAOB ("the Board") for generally maintaining consistency with International Standards on Auditing (ISAs) in developing these risk assessment standards. We believe that convergence with international standards is desirable. It would be preferable to have one set of primary standards based on ISAs, with PCAOB auditing standards for requirements unique to U.S. registered securities. Until this level of convergence is possible, the approach taken in these standards appears to be the best option. The Committee also believes that the focus on the iterative nature of the audit and the continued recognition of differences in approach that depend on the size and complexity of the client and the engagement are positive
