## **The Awakening Of Western Legal Thought:**

*The Awakening of Western Legal Thought* Max Hamburger,1969      *The awakening of western legal thought* Max Hamburger,1970      The Awakening of Western Legal Thought Max Hamburger,1969      *The awakening of western legal thought; tr* Max Hamburger,      **Morals and Law** Max Hamburger,1965-06      **Legal Discourse** Peter Goodrich,1990-02-19 Lawyers and the law have long been the object of popular criticism and satire for the obscurity and incomprehensibility of their language Legal Discourse provides a novel historical and systematic account of the language of the legal institution together with a sustained criticism of legal exegesis and legalese more generally In the first part of the work the doctrinal history of the legal discipline and its concepts of language text and sign are examined and assessed In the second part the contemporary disciples of linguistics discourse analysis and communication studies are brought to bear upon the task of constructing a theory of legal discourse as a linguistics of legal power      Plight of the Cultural Mutant Jack Suss,2017-03-11 The past quarter century proved to be a particularly rough and rocky road for the cultural mutant From getting on the wrong end of political correctness at St John s College Santa Fe followed by a confused odyssey as an ESL teacher a doctoral student a would be scholar and poet pundit and constitutionalist attorney psychedelic inner space explorer and blues piano player and then returning to his boyhood neighborhood only to find it irretrievably morphed and mangled The confusion experienced during the cultural mutant s long odyssey in the wilderness of not knowing precisely the causes of his malaise is exhaustively portrayed herein      *Legal Philosophy from Plato to Hegel* Huntington Cairns,2019-12-01 Originally published in 1949 Huntington Cairns identifies the views that major Western philosophers took on law the problems they considered significant about law and the nature of the solutions they proposed This book develops ideas discussed in Cairns Law and the Social Sciences 1935 and Theory of Legal Science 1941 The object of these three volumes is the same to construct the foundation of a theory of law that is the necessary antecedent to a possible jurisprudence The inventory of philosophers that Cairns examines includes Plato Aristotle Cicero Aquinas Hobbes Spinoza and Hegel      The Medieval Idea of Law as Represented by Lucas de Penna Walter Ullmann,1597      Poetic and Legal Fiction in the Aristotelian Tradition Kathy Eden,2014-07-14 When Philip Sidney defends poetry by defending the methods used by poets and lawyers alike he relies on the traditional association between fiction and legal procedure an association that begins with Aristotle In this study Kathy Eden offers a new understanding of this tradition from its origins in Aristotle s Poetics and De Anima through its development in the psychological and rhetorical theory of late antiquity and the Middle Ages to its culmination in the literary theory of the Renaissance Originally published in 1986 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich

scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

**The Second Birth** Tilo Schabert, 2015-11-20 Most scholars link the origin of politics to the formation of human societies but in this innovative work Tilo Schabert takes it even further back to our very births Drawing on mythical philosophical religious and political thought from around the globe including America Europe the Middle East and China *The Second Birth* proposes a transhistorical and transcultural theory of politics rooted in political cosmology With impressive erudition Schabert explores the physical fundamentals of political life unveiling a profound new insight our bodies actually teach us politics Schabert traces different figurations of power inherent to our singular existence things such as numbers time thought and desire showing how they render our lives political ones and thus how politics exists in us individually long before it plays a role in the establishment of societies and institutions Through these figurations of power Schabert argues we learn how to institute our own government within the political forces that already surround us to create our own world within the one into which we have been born In a stunning vision of human agency this book ultimately sketches a political cosmos in which we are all builders in which we can be at once political and free

**The Medieval Idea of Law as Represented by Lucas de Penna (Routledge Revivals)** Walter Ullmann, 2010-01-29 Upon its original publication in 1946 this work represented a new approach to medieval studies offering indispensable analysis to the historian of legal political and social ideas Research into the original sources leads the author through unexplored realms of medieval thought By contrasting contemporary opinions with those of his central figure Lucas de Penna he comprehensively presents the medieval idea of law then regarded as the concrete manifestation of abstract justice The intensity of medieval academic life is revealed in the heated controversies whilst medieval criminology foreshadows modern developments A significant discovery is the astonishingly great reliance which Continental scholars placed upon English thought A challenge to certain current misconceptions this book shows the resourcefulness of medieval thinking and the extent to which modern ideas were foreshadowed in the fourteenth century a time when the ideas of law and liberty were identical

**God and Man in the Law** Robert Lowry Clinton, 1997 In a wide ranging study based on legal history political theory and philosophical ideas going all the way back to Plato and Roman law Robert Clinton challenges current faith in an activist judiciary Claiming that a human centered Constitution leads to government by reductive moral theory and illegitimate judicial review he advocates a return to traditional jurisprudence and a God centered Constitution grounded in English common law and its precedents

**The Concept of Woman** Prudence Allen, 1997-05-22 This pioneering study by Sister Prudence Allen traces the concept of woman in relation to man in more than seventy philosophers from ancient and medieval traditions The fruit of ten years work this study uncovers four general categories of questions asked by philosophers for two thousand years These are the categories of opposites of generation of wisdom and of virtue Sister Prudence Allen traces several recurring strands of sexual and gender identity within this period Ultimately she shows the paradoxical influence of Aristotle on the question of woman

and on a philosophical understanding of sexual complementarity Supplemented throughout with helpful charts diagrams and illustrations this volume will be an important resource for scholars and students in the fields of women s studies philosophy history theology literary studies and political science      *Rational Individualism* Roger T. Simonds,2022-06-13 This book is a study of the theory of legal interpretation that underlies the legal systems of Europe England and the United States The principles of interpretive jurisprudence are traced through Greek and Latin philosophers and legal theorists and Renaissance Italian glossators and commentators In addressing human nature these principles have a self sustaining logical integrity They are defensible as a worthy tradition of legal respect for the value of the individual      Methodology and Method in History (RLE Accounting) Lee D. Parker,Finley O. Graves,2013-12-04 This bibliography provides the reader with a comprehensive reference tool that will enhance understanding of methodological issues and enable the user to employ research methods appropriate to their subject of study It also provides accounting historians a comprehensive data base for the development of papers addressing methodological issues in an accounting history context Access to this type of resource is particularly crucial to the development of accounting history research since the number of papers dealing with methodological issues published in accounting history literature is very small Hence the references in this bibliography are drawn from the literature of general history economic and business history legal and social history and philosophy The scope and range of its contents are broad references are taken from texts as well as papers published in over 450 journals      **The Awakening of Western legal thought** Max Hamburger,1969      *Jus et Societas* G.M. Wilner,2012-12-06 When Wolfgang Friedmann died there was a great outpouring of grief affection and admiration from his friends all over the world These deeply felt sentiments were soon channelled into a number of projects to honor him The initiative towards the preparation of this volume in tribute to Wolfgang Friedmann was taken by his colleague Hans Smit of Columbia University who also arranged for its publication Judge Philip C Jessup was the chairman and Professors John N Hazard Louis Henkin Oliver Lissitzyn Willis L M Reese and Hans Smit of Columbia University Law School A A Fatouros of Indiana University Law School Bloomington and Gabriel M Wilner of the University of Georgia Law School were members of the editorial committee The authors of the essays are a group of distinguished legal scholars from many countries and who hold widely diverse views All of them had many ties with Professor Friedmann including those of friendship and shared interest in problems that were of the greatest concern to him The number of eminent jurists from countries around the world and particularly from the United States who would have wished to participate in this tribute to Wolfgang Friedmann is large however several important considerations made it necessary to limit the number of contributions Thus for example the work of several members of the editorial committee is not represented in the volume      **Hermeneutics and the Rhetorical Tradition** Kathy Eden,2005-04-10 This book poses an eloquent challenge to the common conception of the hermeneutical tradition as a purely modern German specialty Kathy Eden traces a continuous tradition of interpretation from Republican Rome to Reformation Europe arguing that the historical

grounding of modern hermeneutics is in the ancient tradition of rhetoric  
Lasswell, Myres S. McDougal, 2023-12-28

**Jurisprudence For a Free Society** Harold D.
