The Rise of Gospel Blues Michael W. Harris, 1994-06-23 Most observers believe that gospel music has been sung in African American churches since their organization in the late 1800s Yet nothing could be further from the truth as Michael W Harris s history of gospel blues reveals Tracing the rise of gospel blues as seen through the career of its founding figure Thomas

Andrew Dorsey Harris tells the story of the most prominent person in the advent of gospel blues. Also known as Georgia Tom Dorsey, he had considerable success in the 1920s as a pianist, composer, and arranger for prominent blues singers including Ma Rainey. In the 1930s, he became involved in Chicago's African American old line Protestant churches, where his background in the blues greatly influenced his composing and singing. Following much controversy during the 1930s and the eventual overwhelming response, that Dorsey's new form of music received, the gospel blues became a major force in African American churches and religion. His more than 400 gospel songs and recent Grammy Award indicate that he is still today the most prolific composer/publisher in the movement. Delving into the life of the central figure of gospel blues, Harris illuminates not only the evolution of this popular musical form but also the thought and social forces that forged the culture in which this music was shaped.

The Secularization of Baptism Mark G. McKim, 2025-01-31 Does God actually do anything in baptism? Is it more than just a symbol? Most early Baptists would have answered yes. Most Baptists today would answer no. How and why did this change happen, and does it matter? Providing thorough documentation of the changing understandings of baptism among American, Canadian, and English Baptists from the 1600s to the present day, *The Secularization of Baptism* demonstrates that four factors led to the symbolic-only position becoming dominant. These were: suspicion in reaction to Roman Catholicism of the idea of God revealing himself through the physical; the influence of the Enlightenment and embarrassment with claims that God could be acting in the world today; reaction against the Oxford Movement; and reaction against the understanding of baptism advocated by the Disciples of Christ/Campbellites. The now-dominant symbolic-only position so focuses attention on what the believer is doing in baptism that God is seen as largely absent from and doing nothing through the rite. In effect, believers' baptism has been secularized. A carefully reasoned biblical and theological argument is made for a return to the Regular Particular Baptist view that God is both profoundly spiritually present and active in baptism, while at the same time rejecting the sacramentalist position advocated by a small number of mid-twentieth and twenty-first century Baptists, such as H. Wheeler Robinson, George Beasley Murray, Stanley K. Fowler, and Anthony R. Cross.

Voices of Black Folk Terri Brinegar, 2022-04-19 Recipient of a 2023 Certificate of Merit for Best Historical Research in Recorded Blues, R&B, Gospel, Hip-Hop, or Soul Music from the Association for Recorded Sound Collections. In the late 1920s, Reverend A. W. Nix (1880-1949), an African American Baptist minister born in Texas, made fifty-four commercial recordings of his sermons on phonographs in Chicago. On these recordings, Nix presented vocal traditions and styles long associated with the southern rural Black church as he preached about self-help, racial uplift, thrift, and Christian values. As southerners like Nix fled into cities in the North to escape the rampant racism in the South, they contested whether or not African American vocal styles of singing and preaching that had emerged during the slavery era were appropriate for uplifting the race. Specific vocal characteristics like those on Nix's recordings were linked to the image of the Old Negro by many African American leaders who favored adopting Europeanized vocal characteristics and musical repertoires into African American churches in

order to uplift the modern New Negro citizen Through interviews with family members musical analyses of the sounds on Nix s recordings and examination of historical documents and relevant scholarship Terri Brinegar argues that the development of the phonograph in the 1920s afforded preachers like Nix the opportunity to present traditional Black vocal styles of the southern Black church as modern Black voices These vocal styles also influenced musical styles The moaning voice used by Nix and other ministers was a direct connection to the blues moan employed by many blues singers including Blind Willie Blind Lemon and Ma Rainey Both Reverend A W Nix and his brother W M Nix were an influence on the Father of Gospel Music Thomas A Dorsey The success of Nix s recorded sermons demonstrates the enduring values African Americans placed on traditional vocal practices [African-American Religion](#) Timothy E.
