Mullins, 2014-09-19 Leading authorities on negotiations present the result of years of research application testing and experimentation and practical experience Principles and applications from numerous disciplines are combined to create a conceptual framework for the hostage negotiator Ideas and concepts are explained so that the practicing negotiator can apply the principles outlined Kennee-Voo; Or, The Sacking of Allaroonah: an Incident of the African Slave Trade Thomas Greenhalgh (Historical Novelist.), 1856 **Glimpses of the Old World** John Alonzo Clark, 1840 Glimpses of the Old World; Or, Excursions on the Continent, and in the Island of Great Britain John A. CLARK (D.D., Rector of St. Andrew's Church, Philadelphia.), 1840 *A Professor, A President, and A Meteor* Cathryn J. Prince, 2010-12-14 When a fiery meteor crash in 1807 lit up the dark early morning sky in Weston Connecticut it did more than startle the few farmers in the sleepy village More importantly it sparked the curiosity of Benjamin Silliman a young chemistry professor at nearby Yale College His rigorous investigation of the incident started a chain of events that eventually brought the once low standing of American science to sudden international prominence And by coincidence the event also embroiled Silliman in politics pitting him against no less an adversary than President Thomas Jefferson Based on a wealth of original source documents and interviews with current experts in history astronomy and geology this journalist tells the remarkable story of Benjamin Silliman arguably America's first bonafide scientist In a lively narrative rich with fascinating historical detail the author documents the primitive state of American science at the time Silliman's careful analysis of the meteor samples and the publication of his conclusions which contradicted both popular superstitions regarding meteors as ominous portents and a common belief that meteors come from volcanic eruptions on the moon She also describes Silliman's struggles to build a chemistry department at Yale with rudimentary material new insights into geology that resulted from his analysis of the meteor and his report to the prestigious French Academy which raised the prestige of American science Finally she discusses the political turbulence of the time which Silliman could not escape and how the meteor event was used to drive a wedge between New England and Jefferson This is a fascinating vignette of Federal Period America when science on this continent was still in its infancy but was just beginning to make its mark **Ireland and the War at Sea, 1641-1653** Elaine Murphy, 2012 An examination of the mid seventeenth century maritime battles between Ireland England and Scotland showing them to have had a dramatic impact on the overall conflict The conflict on the Irish seaboard between the years 1641 and 1653 was not some peripheral theatre in the Wars of the Three Kingdoms As this first full length study of the war at sea on the Irish coast from the outbreak of the Ulster rising in 1641 to the surrender of Inishbofin Island the last major royalist maritime outpost in April 1653 shows it was instead the epicentre of naval conflict with important consequences for the nature and outcome of the land conflicts in Ireland and elsewhere The book provides a clear and comprehensive narrative account of the war at sea accompanied by careful contextualisation and a full analysis of its Irish

British and European dimensions This includes the strategic importance of Irish ports conflict between organised navies and formidable bands of privateers and pirates the adoption of new naval technologies and tactics and the relationship between conflict onland and sea Moving beyond traditional accounts of naval campaigns it integrates warfare at sea into the wider dimension of political and economic developments in Ireland England and Scotland Extensive use is made of a wide range of archival material in particular the High Court of Admiralty papers held in the National Archives at Kew Dr Elaine Murphy is Lecturer in Maritime Naval History Plymouth University
