The Bastard Brigade:

The Bastard Brigade Sam Kean, 2019-07-09 From New York Times bestselling author Sam Kean comes the gripping untold story of a renegade group of scientists and spies determined to keep Adolf Hitler from obtaining the ultimate prize a nuclear bomb Scientists have always kept secrets But rarely have the secrets been as vital as they were during World War II In the middle of building an atomic bomb the leaders of the Manhattan Project were alarmed to learn that Nazi Germany was far outpacing the Allies in nuclear weapons research Hitler with just a few pounds of uranium would have the capability to reverse the entire D Day operation and conquer Europe So they assembled a rough and motley crew of geniuses dubbed the Alsos Mission and sent them careening into Axis territory to spy on sabotage and even assassinate members of Nazi Germany's feared Uranium Club The details of the mission rival the finest spy thriller but what makes this story sing is the incredible cast of characters both heroes and rogues alike including Moe Berg the major league catcher who abandoned the game for a career as a multilingual international spy the strangest fellow to ever play professional baseball Werner Heisenberg the Nobel Prize winning physicist credited as the discoverer of quantum mechanics a key contributor to the Nazi's atomic bomb project and the primary target of the Alsos mission Colonel Boris Pash a high school science teacher and veteran of the Russian Revolution who fled the Soviet Union with a deep disdain for Communists and who later led the Alsos mission Joe Kennedy Jr the charismatic thrill seeking older brother of JFK whose need for adventure led him to volunteer for the most dangerous missions the Navy had to offer Samuel Goudsmit a washed up physics prodigy who spent his life hunting Nazi scientists and his parents who had been swept into a concentration camp across the globe Irène and Frederic Joliot Curie a physics Nobel Prize winning power couple who used their unassuming status as scientists to become active members of the resistance Thrust into the dark world of international espionage these scientists and soldiers played a vital and largely untold role in turning back one of the darkest tides in human history

Studies in Battle Command, 1995 This study consists of a series of essays analyzing various combat engagements and military leaders throughout history The unifying theme of these essays was provided by the direct or indirect application to each case of the five Battle Command competencies The battles operations and leaders discussed in the chapters that follow range over the historical landscape from Gustavus Adolphus in the seventeenth century to Hamburger Hill in Vietnam They include examples of brilliant success and dismal failure Most of all they offer today's military professional perspective and insight into the essence of their calling command and leadership

D-Day General Noel F. Mehl, 2021-05-15 Omaha was the make or break Allied beach on D Day in perhaps the make or break campaign of World War II If American soldiers couldn't gain a foothold there then D Day was unlikely to succeed On June 6 1944 U.S. troops on Omaha suffered the worst casualties of any of the five Allied invasion beaches so many casualties and so much tactical difficulty that Omaha almost didn't succeed One big reason why Americans gained a foothold on Omaha was Gen Norman Dutch Cota A graduate of the West Point class

of 1917 alongside famous classmates Matthew Ridgway Mark Clark and Lightning Joe Collins Norm Cota played football with Dwight Eisenhower who graduated two years earlier From March 1941 to February 1943 Cota served with the famous 1st Infantry Division the Big Red One as division intelligence officer plans training officer and finally chief of staff He performed so well in the North Africa campaign that he was sent to England to help plan D Day After laying the tactical groundwork for the amphibious landings Cota was made assistant division commander of the 29th Infantry Division On the eve of D Day he told his men You re going to find confusion The landing craft aren t going in on schedule and people are going to be landed in the wrong place Some won t be landed at all We must improvise carry on not lose our heads On June 6 1944 under heavy fire Cota landed with the second wave of the 29th Infantry Division on Omaha Beach about an hour after the start of the invasion He personally rallied the survivors of the landings and led the opening of one of the first exits off Omaha Cota seemed to be everywhere that day Coming upon a group of Rangers the general told them Rangers lead the way hence the Rangers motto He is also known for saying Gentlemen we are being killed on the beaches Let us go inland and be killed And to a captain uncertain how to proceed I ll tell you what captain You and your men start shooting at them I ll take a squad of men and you and your men watch carefully I ll show you how to take a house with Germans in it Having demonstrated the task Cota asked the officer Do you understand Do you know how to do it now I won t be around to do it for you again I can t do it for everybody Great quips which American military history will always remember and which show the character in every sense of Dutch Cota Cota was a fighter a fighting general a D Day general and his contribution to D Day will remain his rallying of demoralized troops and his blazing the trail toward the breakout and victory on Omaha Ted Roosevelt Jr who landed at Utah Beach has always received credit as the D Day general like Cota Roosevelt also demanded that he land on D Day and then died of a heart attack a month later but Cota is the hero general of the day having landed early on D Day on bloody Omaha Portrayed by Robert Mitchum in the grand D Day film The Longest Day Cota has not yet received his due and there s a campaign now afoot to award him a belated Medal of Honor His story cries out to be told Now with the cooperation of the Cota family Noel F Mehlo Jr tells the compelling story Dutch Cota on Omaha Beach revealing new information and never before seen photos

Crush the King Jennifer Estep, 2020-03-17 A fierce gladiator queen must face off against her enemies in an epic battle in this next thrilling installment of New York Times and USA Today bestselling author Jennifer Estep s Crown of Shards series an action packed adventure full of magic murderous machinations courtly intrigue and pulse pounding romance Queen Everleigh Blair of Bellona has survived the mass murder of the royal family become a fearsome warrior trained by an elite gladiator troupe and unleashed her ability to destroy magic After surviving yet another assassination attempt orchestrated by the conniving king of Morta Evie has had enough It s time to turn the tables and take the fight to her enemies There is no better opportunity to strike than during the Regalia Games a time when warriors nobles and royals from all the kingdoms come together to compete in various sporting events With the help of her loyal friends Evie

The Cooperstown Symposium on Baseball and American Culture, 2019 and 2021

William M. Simons, 2022-05-03. Selected from the two most recent proceedings of the Cooperstown Symposium on Baseball and American Culture 2019 and 2021, this collection of essays explores subject matter centered both inside and beyond the ballpark. Fifteen contributors offer critical commentary on a range of topics including controversial decisions on the field and in Hall of Fame elections, baseball's historical role as a rite of passage for boys, two worthy catchers who never received their due, the genesis and development of the minor leagues, and baseball's place in popular culture.

The Golden Brigade

Robert J. Dvorchak, 2022-12-06. An epic tale of a brotherhood forged by war, masterfully told by a lifelong journalist, war correspondent, and U.S. Army veteran. A must-read by military historians who follow the 82nd Airborne Division. It is a compilation of fascinating stories by brave soldiers who found themselves in the crucible of fierce combat. LTG Retired James H. Johnson, 82nd Airborne Division Commander, Panama and Desert Storm. This book is the best I have ever read about the real situation experienced by infantrymen in the Vietnam War. The stories honor the American soldier and their families and demonstrate the pride all of us had in these men and their leaders. A grand slam hit out of the park. Robert D. Murrill, Esq., Distinguished Member of the 508th Parachute Infantry Regiment in the Golden Brigade. It is a story that needs to be told and one that all paratroopers, young and old, need to know. When the nation calls, there were and must always be those who will answer, even if it means they sacrifice their today so that others will experience their tomorrow. J. Thomas Hennessey, Jr., Colonel Retired, Distinguished Member of the 505th Parachute Infantry Regiment, Chief of Staff Emeritus at George Mason University. A solid chunk of history about an extraordinary brotherhood of warriors. Vietnam Veterans of America.

Atomic Bomb Island Don A. Farrell, 2021-01-15. *Atomic Bomb Island* tells the story of an elite, top-secret team of sailors, airmen, scientists, technicians, and engineers who came to Tinian in the Marianas in the middle of 1945 to prepare the island for delivery of the atomic bombs then being developed in New Mexico to finalize the designs of the bombs themselves and to launch the missions that would unleash hell on Japan. Almost exactly a year before the atomic bombs were dropped, strategically important Tinian was captured by Marines because it was only 150 miles from Japan and its terrain afforded ideal runways from which the new B-29 bombers could pound Japan. In the months that followed, the U.S. turned virtually all of Tinian into a giant airbase with streets named after those of Manhattan Island, a Marianas city where the bombs could be assembled. The heavily laden B-29s could be launched, and the Manhattan Project scientists could do their last work. Don Farrell has done this story incredible justice for the 75th anniversary. The book is a thoroughly researched, beautifully illustrated mosaic of the final phase of the Manhattan Project from the Battle of Tinian and the USS Indianapolis to

Hiroshima and Nagasaki **My Fourth Time, We Drowned** Sally Hayden, 2023-03-07 A magnificent engaging investigative report an act of witness It is clear from Hayden's book that the current politics of immigration have turned twisted human nature against itself and our own kind and are fostering unimaginable maltreatment of those who wish only to survive and live a better life It strongly conveys the urgency of fundamentally rethinking immigration policy It is already late to act but that is a poor reason for inaction The New York Review of Books Winner Terzani Prize Premio Terzani 2024 Winner journalist of the year Irish Journalism Awards 2023 Winner best foreign coverage Irish Journalism Awards 2023 Finalist in the 2023 BookTube Prize Nominated for the Jan Michalski Prize for Literature 2023 Finalist for the New York Public Library's Helen Bernstein Book Award for Excellence in Journalism 2023 A Sunday Times one to watch 2023 Winner of The Orwell Prize for Political Writing 2022 Winner of The Michel Deon Prize 2022 Winner of the An Post Irish Book of the Year Award 2022 Winner of the An Post Irish Book Award for Nonfiction 2022 A Financial Times Best Political Book of 2022 A Kirkus Best Nonfiction Book of 2022 A New Yorker Best Book of 2022 A Guardian Best History and Politics Book of 2022 The Western world has turned its back on migrants leaving them to cope with one of the most devastating humanitarian crises in history Reporter Sally Hayden was at home in London when she received a message on Facebook Hi sister Sally we need your help The sender identified himself as an Eritrean refugee who had been held in a Libyan detention center for months locked in one big hall with hundreds of others Now the city around them was crumbling in a scrimmage between warring factions and they remained stuck defenseless with only one remaining hope contacting her Hayden had inadvertently stumbled onto a human rights disaster of epic proportions From this single message begins a staggering account of the migrant crisis across North Africa in a groundbreaking work of investigative journalism With unprecedented access to people currently inside Libyan detention centers Hayden's book is based on interviews with hundreds of refugees and migrants who tried to reach Europe and found themselves stuck in Libya once the EU started funding interceptions in 2017 It is an intimate portrait of life for these detainees as well as a condemnation of NGOs and the United Nations whose abdication of international standards will echo throughout history But most importantly My Fourth Time We Drowned shines a light on the resilience of humans how refugees and migrants locked up for years fall in love support each other through the hardest times and carry out small acts of resistance in order to survive in a system that wants them to be silent and disappear **The Race for the Atomic Bomb**

Norman Ridley, 2023-04-06 On 19 December 1938 Otto Hahn working at the Kaiser Wilhelm Institute for Chemistry in Berlin conducted an experiment the results of which baffled him It took his migr collaborator Lise Meitner to explain that he had split an atom of uranium which at the time seemed to defy all known laws of physics When Neils Bohr took this news to the United States it became clear to scientists there that these results opened a completely new and for some horrifying possibility of energy production that could be used for both peaceful and military purposes Scientists in Germany France Britain and the US began to delve deeper into the implications But it was the British government that was the first to

explicitly describe how the splitting of the atom might be utilized to create a practical weapon of fearsome power France by then had been occupied by the Germans and most of their nuclear scientists had fled to Britain For their part the Germans who for a time were at the very forefront of nuclear research had weakened their own scientific ranks by hounding many of their best scientists who had fled persecution under the draconian Nazi racial laws They still retained however possibly the ablest nuclear scientist of them all in Werner Heisenberg who set about developing his own program for nuclear power British scientists made extensive progress before realizing that translating their laboratory results into the vast industrial enterprise required to build a bomb was way beyond the nation's stretched resources The government agreed to hand over all the UK's research findings to America in return for a share of the spoils The United States for its part was impressed with British results and invested enormous sums of money and resources into what became known as the Manhattan Project in a concerted effort to build a bomb before the end of the war For much of the war the Soviets showed little enthusiasm for the sort of investment required to build their own bomb However with an eye to the future they established an extensive espionage network both in Britain and America Following the German surrender there was still the problem of Japan and the race continued to develop a working bomb to accelerate the end of the war both to save Allied lives and to prevent Soviet expansion into northern China and the Japanese mainland It was a race that the United States won It was also a race that ushered in a new Cold War

The Apocalypse Factory: Plutonium and the Making of the Atomic Age Steve Olson, 2020-07-28 A thrilling narrative of scientific triumph decades of secrecy and the unimaginable destruction wrought by the creation of the atomic bomb It began with plutonium the first element ever manufactured in quantity by humans Fearing that the Germans would be the first to weaponize the atom the United States marshaled brilliant minds and seemingly inexhaustible bodies to find a way to create a nuclear chain reaction of inconceivable explosive power In a matter of months the Hanford nuclear facility was built to produce and weaponize the enigmatic and deadly new material that would fuel atomic bombs In the desert of eastern Washington State far from prying eyes scientists Glenn Seaborg Enrico Fermi and many thousands of others the physicists engineers laborers and support staff at the facility manufactured plutonium for the bomb dropped on Nagasaki and for the bombs in the current American nuclear arsenal enabling the construction of weapons with the potential to end human civilization With his characteristic blend of scientific clarity and storytelling Steve Olson asks why Hanford has been largely overlooked in histories of the Manhattan Project and the Cold War Olson who grew up just twenty miles from Hanford's B Reactor recounts how a small Washington town played host to some of the most influential scientists and engineers in American history as they sought to create the substance at the core of the most destructive weapons ever created The Apocalypse Factory offers a new generation this dramatic story of human achievement and ultimately of lethal hubris
