Penguin Community A witty thought provoking celebration of why marriage still matters and how to make yours work from the author of The Art of Conversation Today we no longer get married for the reasons our grandparents did because our families say so because we must marry to leave home to have sex to have financial security So in this modern age why marry at all The Art of Marriage seeks to answer this question in an enchanting guided tour of the three legged race that is married life With anecdotes from history the latest research and insights about couples who stayed the course Blyth offers entertaining advice on how to enjoy a successful marriage and answers vital questions such as can housework improve sex life Why should husbands argue And why must wives relax In the age of Bridezillas and over the top destination weddings it is all too easy to lose sight of the greater meaning of saying I do A wedding is not an end it s not about the race for the ring or planning a blow out event it s the beginning of a journey full of questions and mystery and different for each couple As Catherine Blyth so eloquently puts it Each story has at least two sides Reconciling them is the art of marriage The Art of Love Poetry Erik Irving Gray,2018 The first study to offer an integral theory of love poetry examining why it is that poetry even more than other arts is so consistently associated with romantic love The Art of Marriage Maintenance Sylvia R. Karasu,Toksoz Byram Karasu,2005 Given the fact that 50% of marriages end in divorce you would think marriage wouldn t be so popular but getting married is one of the most popular of all life events In fact many new couples are willing to face considerable debt for the wedding ceremony alone It seems that many people spend more time on planning the wedding than on thinking about marriage and what it entails The Art of Marriage Maintenance is about marital life after the wedding It is about psychological and biological difficulties between men and women that make marriage so challenging It is about why passion is in danger of fading within marriage how hormones exacerbate behavior and how the brain confounds us It is about how pregnancy and having young children and adolescents often catapult a marriage to its breaking point and how the stresses of mid life contribute to marital discord It is in effect how to ensure a happy enduring marriage It is the art of marriage maintenance **The Art of Love** Bud Harris,Massimilla Harris,2010-05 Are you seeking to renew a relationship considering a new relationship troubled with establishing a long term relationship divorced and trying to understand why your marriage failed experiencing problems in love romance sex intimacy or marriage a therapist or counselor who would like to provide an accessible resource for your clients Millions of books on relationships have been printed over the years Why do we need another We need The Art of Love The Craft of Relationship for the same reasons that over four and a half million readers wanted Spencer Johnson s Who Moved My Cheese Following Johnson s methods of teaching to a broad modern audience The Art of Love The Craft of Relationship presents the profound principles that form a loving relationship in an easily accessible manner Using a very simple approach it will help people shift their attitudes and provide them with the skills to create loving long lasting partnerships There are so many titles in print on change because it is an ongoing challenge for most of us So are relationships With more than six decades of experience working with couples we knew we had vital

information lessons and insights to share but we insisted that the book be short engaging and easy to read A helpful book does not have to be dense to be packed with wisdom skills and ideas that can open the door to a new era of fulfilling relationships We have brought complex material and common sense into a format that is carefully constructed to achieve results by being communicative and consistent enjoyable and hopeful Unlike the textbook appearance of most self help books that include psychological jargon case examples and exercises The Art of Love The Craft of Relationship uses stories and dialogue to teach profound insights and valuable skills It sticks to people talking in a way the reader can identify with and understand It brings hope because the reader who is experiencing stress in a relationship can see that other people like them are too And that learning a few basic skills can bring lasting change and renew love The best news is that our book will be useful to many people because it will give them a new way to look at their relationship and the skills to handle problem after problem in a way that builds love and trust Our mission is to appeal strongly to those who are considering a relationship seeking to renew one or are looking for a way to understand a partner and a process for dealing with problems in love romance sex intimacy and living together
