Encyclopedia of Nineteenth-Century Photography John Hannavy, 2013-12-16 The *Encyclopedia of Nineteenth Century Photography* is the first comprehensive encyclopedia of world photography up to the beginning of the twentieth century. It sets out to be the standard, definitive reference work on the subject for years to come. Its coverage is global, an important first in that authorities from all over the world have contributed their expertise and scholarship towards making this a truly comprehensive publication. The *Encyclopedia* presents new and ground-breaking research alongside accounts of the major established figures in the nineteenth-century arena. Coverage includes all the key people, processes, equipment, movements, styles, debates, and groupings which helped photography develop from being a solution in search of a problem when first invented to the essential communication tool, creative medium, and recorder of everyday life which it had become by the dawn of the twentieth century. The sheer breadth of coverage in the 1200 essays makes the *Encyclopedia of Nineteenth Century Photography* an essential reference source for academics, students, researchers, and libraries worldwide. *Naturalistic Photography For Students of the Art* P.H. Emerson, 2020-08-04

Reproduction of the original *Naturalistic Photography For Students of the Art* by P. H. Emerson. **Art History and Its Institutions** Elizabeth Mansfield, 2002 What is art history? The answer depends on who asks the question. Museum staff, academics, art critics, collectors, dealers, and artists themselves all stake competing claims to the aims, methods, and history of art history. Dependent on and sustained by different and often competing institutions, art history remains a multi-faceted field of study. *Art History and Its Institutions* focuses on the professional and institutional formation of art history, showing how the discourses that shaped its creation continue to define the field today. Grouped into three sections, articles examine the sites where art history is taught and studied, the role of institutions in conferring legitimacy, the relationship between modernism and art history, and the systems that define and control it. From museums and universities to law courts and photography studios, the contributors explore a range of different

institutions revealing the complexity of their interaction and their impact on the discipline of art history BOOK JACKET
