scholarship and practice In opening up this rich subject to readers of all sorts with refreshingly clear perspectives and plenty of new material Simon Ravens well researched book goes a very long way to rectifying matters Ravens writes damnably well and if the story that emerges is necessarily a complex one his treatment of it is always engagingly comprehensible ANDREW PARROTT Tracing the origins influences and development of falsetto singing in Western music Simon Ravens offers a revisionist history of high male singing from the Ancient Greeks to Michael Jackson This history embraces not just singers of counter tenor and alto parts up to and including our own time but the castrati of the Ancient world the male sopranists of late Medieval and Renaissance Europe and the dual register tenors of the Baroque and Classical periods Musical aesthetics aside to understand the changing ways men have sung high it is also vital to address extra musical factors which are themselves in a state of flux To this end Ravens illuminates his chronological survey by exploring topics as diverse as human physiology the stereotyping of national characters gender identity and the changing of boys voices The result is a complex and fascinating history sure to appeal not only to music scholars but to performers and all those with an interest particularly in early music Simon Ravens is a performer writer and director of Musica Contexta with whom he has performed in Britain and Europe regularly broadcast and made numerous acclaimed recordings Ravens had previously founded and directed Australasia s foremost early music choir the Tudor Consort Between 2002 and 2007 his regular monthly column Ravens View appeared in the Early Music Review to which he still regularly contributes

Servanthood of Song Stanley R. McDaniel, 2024-05-23 Servanthood of Song is a history of American church music from the colonial era to the present Its focus is on the institutional and societal pressures that have shaped church song and have led us directly to where we are today The gulf which separates advocates of traditional and contemporary worship Black and White Protestant and Catholic is not new History repeatedly shows us that ministry to be effective must meet the needs of the entire worshipping community not just one segment age group or class Servanthood of Song provides a historical context for trends in contemporary worship in the United States and suggests that the current polemical divisions between advocates of contemporary and traditional classically oriented church music are both unnecessary and counterproductive It also draws from history to show that to be the powerful component of worship it can be music whatever the genre must be viewed as a ministry with training appropriate to that Servanthood of Song provides a critical resource for anyone considering a career in either musical or pastoral ministries in the American church as well as all who care passionately about vital and authentic worship for the church of today
