Hoffman, PhD, 2011-10-15 A resource for worshipers today looking to change hardened worship patterns that stand in the way of everyday spirituality All too often those who attend church or synagogue find themselves bored or baffled by the service Their predominant thought is how slowly the time ticks by and that the service never seems to end Written for laypeople and clergy of any denomination The Art of Public Prayer examines how and why religious ritual works and why it often doesn t work The Art of Public Prayer uses psychology social science theology and common sense to explain the key roles played by ritual symbolism liturgy and song in services Each chapter features conversation points designed to get you and your faith community thinking and talking about your own worship patterns where they succeed and where they need improvement The Art of Public Prayer can help you and your fellow congregants revitalize your worship service by allowing you to organize and direct your own worship making it a meaningful and fulfilling part of your life As We Gather to Pray Clayton L. The Art of Catechesis Maureen Gallagher,1998 Combining sound theological liturgical psychological and catechetical foundations this book shows catechists how to become artists in helping others grow in faith **The Art of Being Human** William McNamara,2018-09-03 In THE ART OF BEING HUMAN Father McNamara has taken a new vital approach to effective socially oriented Christian living in tune with the needs and demands of our times He takes for his theme the basic traditional truth grace builds upon rather than destroys human nature and develops this theme with extraordinary understanding and eloquence The first chapter Becoming Human sets the tone of the book For Father McNamara the sanctifying process is the humanizing process and the way by which one can cultivate the art of being human within oneself He then probes into the very roots of the conditioning processes which daily shape our lives and poses for the reader some incisive questions which demand reflection and inner search Discussions on faith hope love religion mental prayer and spiritual growth follow The final chapters on leisure and leadership are especially provocative since they direct the reader s attention to where the responsibility for the self accomplishment of this art truly lies Father McNamara has the knack of putting his finger directly on the problems of today s living THE ART OF BEING HUMAN does not pretend to have all the answers but it goes a long way toward taking the reader in the right direction Here is a book to read to ponder and to act as its message challenges us to do Magnificat *The Arts of Learning and Communication* Benedict M. Ashley,2009-09-01 The present book is a tool for the teaching of the liberal arts in high school or in the freshman year of college for those students whose high school studies were inadequate It is intended to be at once a handbook and a textbook As a handbook it should be used by the student throughout his four years in high school in every course Every teacher in the school should insist that in

each subject of the curriculum the processes of definition statement and argumentation outlined here should be exactly practiced in the student s reading recitation discussion and examination for that subject In this way the transfer of training can be made explicit and effective On the other hand this work is also a textbook to assist in the learning of these logical processes The most appropriate place for its use is in the customary English courses Here it will not replace the customary material but it will serve as a guide for teacher and student in using material to develop the liberal arts

Tending the Fire That Burns at the Center of the World David F. White,2022-07-29 *Tending the Fire at the Center of the World* engages the central question of Christian formation that is what kind of knowing is most likely to awaken and sustain Christian faith This book seeks to reclaim aesthetics beauty and creativity as the church s most native theological way of knowing and being which participates with God s own glory and creativity This book traces the prominence of aesthetics up until the dawn of the Enlightenment including recent theologians who reclaim aesthetics for theology and formation The book elaborates the aims and techniques of aesthetic approaches to teaching and learning in the church Finally this book cautions against overly determined rationalisms and moralisms that do not retain a sense of wonder delight and openness in the church s teaching liturgy and proclamation In this view the church does not simply regurgitate familiar texts political tropes or flattened doctrines but breaks into the world as Christ s body a parable a song a flash mob interrupting business as usual giving new expression to acts of care repentance forgiveness joy and communion awake to the beauty of God s gifts and inviting our worship
