The Australian Jazz Explosion:

The Australian Jazz Explosion Mike Williams, *John Sangster's The Lord of the Rings, Vols. 1-3* Bruce Johnson, 2024-12-12 A study of John Sangster's jazz suite *The Lord of the Rings* contextualized with biographical and cultural studies of the composer in the 1970s In three volumes and more than six LP recordings *The Lord of the Rings* suite produced during the 1970s based on the Tolkien books is the most ambitious stylistically and emotionally wide ranging compositional oeuvre ever undertaken in Australian jazz Its composer and one of its performers John Sangster embraced the historical spectrum of jazz styles from traditional to the avant garde through performance recording and film TV music Sangster whose career spanned from the late 1940s until his death in 1995 was one of the most complex figures in Australian music In both temperament and musical style he ranged from light to darkness idolized by his colleagues yet susceptible to literally homicidal rage Nothing in the recording history of Australian jazz and perhaps Australian music in general matches the monumental stature of these volumes which he called his musical autobiography *The Oxford Companion to Australian Jazz* Bruce Johnson, 1987 This first comprehensive overview of the history of Australian jazz combines over 300 entries that survey a wide range of musicians bands venues and record labels and includes a series of informative essays that provide a coherent historical context

Austral Jazz Andrew Robson, 2019-06-27 *Austral Jazz The Localization of a Global Music Form in Sydney* proposes a new theoretical framework for understanding local jazz communities as they develop outside the United States demonstrating such processes in action by applying the framework to a significant period of the history of jazz in Sydney Australia after 1973 This volume introduces the notion of Austral Jazz coined in order to reset the focus on supranational conceptions of jazz expressions in the southwestern Pacific It makes the case for Austral Jazz chronologically across six chapters that discuss interpret and critique major events and seminal recordings tracing the development of the Austral shift from a pre Austral period prior to 1973 Austral Jazz presents a fresh approach to understanding the development of jazz communities and while its focus is on the Sydney scene after 1973 the Austral theory can be applied to creative communities globally A creative shift took place in Sydney in the early 1970s which led to the flourishing of a new kind of jazz based expression one that reflected Australia's increasingly globalized and multicultural outlook This study is timely and it builds on the work of local jazz researchers Historiographical understandings of global developments in jazz can be understood within a framework of four overarching narratives The birth and belonging narrative the spread and adaptation narrative the pluralization by localization narrative and the self fashioning of the already local narrative
